RS Club Told Need Of Trained Workers

The extreme need for more workers in the probation field was pointed out to members of the Rural Sociology Club, at its last meeting, by Fred Ward, Carl Basland, and W. E. Robertson, leaders in this type of work.

Fred Ward, Southern District Field Supervisor for the National Probation Association, told the group that although there is a need for as many as 10,000 workers, there are only 5,000 trained personnel working at the present. Salaries for such workers, he declared, are rising rapidly and are now on a par with those in the better paid professions such as medicine and law.

Mr. Robertson, chief probation officer of Harris County, described how 5,500 cases involving delinquent or dependent children have been handled in Harris County this past year.

Mr. Basland declared that there was a great need for a better classification system in the Texas Prison System, as many different criminal types are thrown together and often results in changing a man from an "amateur" into a hardened criminal.

Ellis Club Plans Christmas Dance

Plans for a Christmas dance to be held in Dallas on December 23 were discussed at a recent meeting of the Ellis County A. & M. Club, in the Academic building. R. L. Billingsley, president of the club, appointed a committee to prepare plans and make arrangements.

IE Groups Attend State and National Teachers Meetings

The Industrial Education Department and the Industrial Extension Service were well represented at state and national teachers conventions. Prof. E. L. Williams and M. D. Darrow, Director and member of the Industrial Extension Service, respectively, attended the American Vocational Association which convened in St. Louis December 3-7. Mr. Williams is program chairman of the trade and industrial section meetings. He is also a member of the Board of Trustees of the National Industrial Teachers Trainer Association which met at the same time.

Chris H. Groneman, acting head of the Industrial Education Department, has just returned from Houston, where he presided at the Industrial Arts Division of the Texas State Teachers Association.

Movie of Forest Service Receives National Acclaim

A motion picture produced by Larry J. Fisher of the Texas Forest Service, depicting forecasts as seen through the words of the Bible, has been named one of the ten best non-theatrical films of 1946 by Movie Makers Magazine, a movie industry trade journal.

The film, entitled "Which He Hath Planted" is a 16mm sound film in full color, and flowing scenes of Texas forests follow a narration of Biblical quotations with the music of the Prairie View University Concert Choir in the background. The picture is available to churches, schools and other service groups, Fisher said.
