be acceptable for single veterans and married veterans and their wives could be held off the campus.

"All the above social activity should be supplemented by properly interpreting the administrations' policies to the veteran and by seeing that all legitimate desires and recommendations of the veterans be promptly presented to the administration.

Dave Elliott:

I would like to state that other more important items, in addition to the social standpoint, should be remedied.

1. I believe that mess hall prices should be brought down to a level to fit all pocketbooks.
2. A committee should be established for social life acti-

vity.

3. Veterans should have more "voice" in Student Activities and administrative policies of the school.
4. I would like an investigation of the Cadet Corps situation now existing.
5. If elected, I will do everything in my power to have a strong and united Veteran Students' Organization.

Bill Murphy:

"Below are listed the aims and proposals which, if I am elected president of your Veterans' Association, I will carry out to the best of my ability:

1. To form numerous active committees whereby the maximum talents of the Veterans are used in order that all Veterans may play an active part in the growth of the Association.
- (a) Committee of Veteran Employment—to help Veterans find part-time work who would otherwise have to leave college for lack of funds.
- (b) Committee on Improvement of Student Life—which would receive proposed improvements from any and all members which would be beneficial to the veterans. This committee would investigate, edit, and prepare the proposed improvement for a vote before the Veterans' Association.
- (c) Mess Hall Committee—which will actually achieve results. (Promises made one year ago on

improvements throughout the Mess Hall still remain promises.)
