very successful, as was the May 10 dance at the high school gym. He further stated that the committee is planning instruction periods two nights each week during the summer and that family square dances would be held twice a month during that period.

Golf instruction will be under the direction of Marty Karow, and Arts and Craft work will be under the supervision of Mr. P. B. Pearson.

Reports on the fall and winter programs will be made at a later date.

(Continued from Page 5)

be counted on heavily to overcome the Big Six tracksters.

The Longhorns will have three potent entries in both the mile and two mile runs headed by little Jerry Thompson. Thompson will in all probability not enter the 880 in order to save his steam to overcome Bill Karnes of Kansas in the two mile. Thompson should have little trouble in winning the mile run because of the withdrawal of his chief competitor, Bobby Ginn of Nebraska.

Other Southwest Conference entries who will be favored to pick up points are Arkansas' Clyde Scott in the hurdles, Rice's Angie Erfurth also in the hurdles, and

the United States Army, their first duty as such is to obey orders and recognize constituted authority. While this misconduct was confined to a minority, yet the entire Corps stands condemned. Such action on the part of those participating can only be a black mark on an otherwise bright escutcheon and doubtless, upon sober reflection in the years ahead, will be recalled with genuine sorrow and a sense of shame.

**RECOMMENDATIONS**

Having found no evidence of any malfeasance or misfeasance on the part of the administration of A. & M. College or of any official connected therewith, the functions of the Committee appear to have been discharged. The administration and conduct of the College activities is exclusively under the jurisdiction and supervision of the Board of Directors.

Doubtless there might well be considered the matter of revision of the administration of the system with a view to the streamlining thereof. Some economies in operations might thereby be effected. This, of course, under the law, is within the discretion of the Board of Directors.

It may be that the far-flung and ever-increasing activities of the A. & M. College have become so vast, and its services so varied, that no one individual can direct its operations with full familiarity of its several services, requisite for the most effective functioning thereof.

The Committee suggests, therefore, that the Board of Directors could properly give consideration to the possibility of creating the Office of Chancellor of the College System. He would, under such a program, then assume the overall direction of the entire system, including, as it does, the graduate and undergraduate schools of the Main College, the North Texas Agricultural College, John Tarleton Agricultural College, Prairie View A. & M., the Extension Service, Experiment Stations, Field Laboratories, Rodent Control Service, Texas Forest Service, and the Firemen's Training School.

The President of the Main College of Arts and Sciences, thus relieved of the many outside duties now required of him, would be free to devote his full time to the direction of the educational training, its student relations and related activities normally expected of a college president in the accepted sense of the term.

These recommendations are made to the Board of Directors which has the sole authority to adopt or reject them.

The Committee desires, also, to take this occasion to compliment the high quality of work and the fine morale that has characterized the vast majority of the young men of Texas A. & M. College throughout the unfortunate and highly regrettable disruption of the normal routine of the school during this post-war transition period.

**FINAL DATE FOR CHANGING SCHEDULE**

Friday, June 13, 1947 is the last date for changing your schedule for the first term of summer school. Courses dropped after that date will carry the grade of "F".

F. C. BOLTON, Dean

A real fun-maker! Capitol's Luxur, Portable Phonograph is completely different...because it plays ANYWHERE electronically. That means rich, really smooth tones, just like you get from your big radio. Plays on electric current (plug in) or on its own battery (wind up)—both ways through the tubes! Swell for the beach...for weekends away...for the mountains.

AT ANY CAPITOL DEALER.

**"Hats Off" To Acting Athletic Director Rollins; Changes Expected**

While Dean of Men J. W. "Dough" Rollins has been quietly going about his duties as Athletic Director he has come up with some remarkable ideas on improving athletics at A. & M.

Expected soon is the announcement of changes in coaching assignments which will vastly brighten the Aggie outlook for next year's chances against SWC competition.

Rice Institute's athletic trainer who ranks with the best in the nation was found last week in the College Architects office giving his ideas about the best type of training room for A&M. From this we gather that if every thing goes as planned the board may soon be approving a measure to build a training room underneath the stadium.

Dean Rollins, in his effort to straighten out the athletic middle here at A&M, has already shown signs of being the man for the job, and we believe that his efforts to improve the athletic organizations here only begun.

We know that Rollins can command respect of the student body, the faculty, and the former students (an element that was sorely lacking last year) in his efforts to build an athletic organization that will rank among the nation's best. This corner says "hats off"
