MOORE of BRAZOS

The College Station Development Association and Cham-ber of Commerce has accepted the responsibility of raising \$1,000 to help carry on a campaign for the purpose of rati-fying the \$5,000,000 building amendment passed by the past legislature. This decision was reached at last week's meeting of the Association. Approval of this amendment will make possible the financing of building programs at A. & M., Texas University, and 14 other state-supported col-leges. - *

Chamber of Commerce Launches

Building Amendment Campaign

A statewide committee of representatives of the various schools to be benefited has been created to campaign for the the ratification, and according to committee will need a considerable amount of money as there is some opposition to the proposal." Dr. R. W. Steen, of the History Dr. R. W. Steen, of the History soliciting funds for the campaign, and all donations may be forwarded to him.

The Southwest's first alternating-current network calcu-lator has been placed in commercial service, as the newly-installed \$125,000 equipment at A. & M. was set up to solve electrical

& M. was set up to solve electrical transmission line and distribution problems of the Dallas Power and Light Company. The Dallas company, one of eleven Southwestern utility corpo-rations which pooled resources to purchase the calculator for the A. & M. Research Foundation from Westinghouse Electric Corporation according to Project Supervisor Lewis M. Haunt happened to draw.

Lewis M. Haupt, happened to draw "first time" on the calculator board. Switching arrangements on the massive equipment, which fills a large air-conditioned laboratory room in the college electrical en-gineering building, make it possi-ble to duplicate on a small scale a large electrical system, Haupt

Events, such as short circuits, which would occur on the real system also occur in miniature in the calculator network, where they do no damage and do not interrupt service. Thus it is possible to find causes and effects of troubles in existing systems and to predeter-mine effects of changes and additions in intricate networks at a great saving of time and expense.

Other sponsoring utility com-panies, which have reserved time on the calculator during the next ten years, are Central Power and Light Company, Corpus Christi; Community Public Service Com-pany and Texas Electric Service, Fort Worth; Texas Power and Light Company, Dallas; El Paso Electric Company; Gulf States Utilities Company, Beaumont; Southwestern Gas and Electric Company, Shreveport; West Texas Utilities Company, Abilene; Lower Colorado River Authority, Austin; and Westinghouse Electric Cor-poration, East Pittsburgh, Penn-

Brennan Elected VSA President

In a light election yesterday Thomas C. "Buddy" Brennan defeated A. D. "Dave" Bruce, Jr. in the race for president of the Veteran Students Association for the summer session. A member of the Class of '46, Brennan is a Liberal Arts student from Houston.

Jerry Sutherland, also a member of the Class of '46, automatically became vice-president of the Association, as he had no opponent.

For the office of secretary, Sam S. Williams, '45, of Marshall, defeated Robert G. Pritchett, '47, of Gladewater. Williams is past treasurer of the Veteran Students Association.

E. O. Courtade, '50, and Frank F. Yates, '49, were unopposed in the race for treasurer and parliamentarian, respectively.

'Country Gentleman' Spotlight Former Dean of Agriculture

Edwin J. Kyle, dean of agri-culture at A. & M. for thirty-three years, is the subject of a story in the June issue of Country Gentleman which features his work as Ambassador to Guatemala

As an ambassador, Dean Kyle As an amoassador, Dean Ayle has specialized in agriculture rather than the mysteries of protocol and striped pants, the article reports, and it has work-ed like a charm. Guatemala's experience with a farm-minded envoy might well set the pattern for a new sort of Good Neighbor diplomacy. Kyle prefers to call it "making friends." The article is illustrated with color photographs of the ambassador in Guatemala, taken by the author, Arnold Nicholson, who is also managing editor of Country Gentleman.

"The tall, elderly Texan's ap-proach to his duties seemed a bit naive to some of our specialists in foreign relations", the article

Public Hearing Of Budget Monday

Public hearing of the budget for the City of College Station for the fiscal year 1947-48 will be held in the Consolidated High School Gymnasium Monday, June 23, at 7:30 p.m., Mayor Ernest Langford has announced.

Langford has announced. The possibility of construct-ing a warehouse and city office will be presented for discussion, as well as an outline for an anti-fly campaign, it was stated. All residents and taxpayers of the community are urged to at-tend, as the proposed budget re-guires a sharply increased tax rate, according to Mayor Lang-ford.
