Hillel to Discuss Refugees Wednesday

An important meeting of the Texas A. & M. Hillel Foundation will be held Wednesday night at 7:30 p. m. in the Council Room of the YMCA, Richard Gottlieb, president, has announced.

Gottlieb stated that there are a number of items on the agenda to be discussed. Among these are the Softball Tournament in Dallas, July 26-27, Intramurals, and the care of two refugee students. The club has been entered in intramurals the second semester of summer school.

Two refugee students are due to arrive on the campus July 21 and Gottlieb is asking the help of the entire club to help the boys get orientated. All members have been urged to attend.

TOWN HALL

(Continued from Page 1)

will appear on the stage of Guion Hall February 23. The eight singers seem to prefer well-known classical pieces; however, they do occasionally delve into lighter compositions. A typical program included "On Wings of Song", by Mendelssohn, Sibelius' "Finlandia", "Ave Maria", selections from the "Student Prince", by Sigmund Romberg, several Victor Herbert selections, and "Grant Us To Do With Zeal", one of Bach's more familiar vocal numbers.

On a yet unannounced date, Harry Noble and Frances King, duet-sung stylists, will be presented on Town Hall. Noble, who sings baritone, and Miss King, a beautiful soprano, sing Noble's arrangements of operetta, current song hits, and original compositions. Many traditional favorites and folk airs are included in the duet's repertoire.

Season tickets for the above appearances, in addition to those announced earlier and those which will be booked later this summer, will go on sale at the beginning of the fall semester.

College Employees Picnic Thursday

The A&M College Employees Club will hold a get-together Thursday evening, July 17, at the Grove. Free watermelons will be served to all attending.

Tickets must be secured at the Aggeland Inn by noon Wednesday, July 16. There will be no charge for tickets, but every one attending must have a ticket so that the number of attendees can be determined.
