(3) The Asiatic Petroleum Corporation has positions open for petroleum engineers in South America.

A revamping of the college information center to give more adequate service has taken place, according to Harry Boyer, chief of housing.

To correct an inefficient system in use until this term, seven students and a full-time employer have been hired to receive calls and relay mesages after the main office is closed.

Telephone number 4.5014 can be

America.

(4) Standard Ore & Alloys Corporation has positions for engineers to work in the field for them.

Telephone number 4-5014 can be used to obtain many services, Boyer stated. Offices of the Dean of Men, Campus Security, Assistant Commandant, and Housing can be reached by dialing this number.

O. B. Donaho has been chosen temporary chairman of the Brazos County Army Advisory Committee, it was announced by Sid L. Loveless, president of the Brazos County ROA.

Emergencies such as broken mains, and lights out in parts of College Station have been taken care of even though they were not the duties of the information service, Boyer reported. He added that although this type of calls are not encouraged, this servise will continue.

The man on duty at night at The committee is in the process of being organized. Coming under the Secretary of War's Program in the six army areas, it is for the purpose of promoting closer relations between the army and the public.

Meetings of the Advisory Com-mittee will be held quarterly at the call of the chairman.

MONDAY, SEPTEMBER 22, 1947

A new \$12,000 flexible-hodled bus, such as the one shown above, has been purchased by E. E. Ames, Greyhound and Kerrville Bus Agent at the North Gate.

The bus, powerfed by a Buick motor, will seat 35 passengers, according to Ames, and will be used to haul passengers on charter

Ames stated that he planned to rent the bus to campus clubs and organizations wishing to make trips away from the college. Its first off-the-campus trip will be used to transport the Aggle football team to San Antonio for the Texas Tech game, together with another similar bus.

Reservations for the trip are now being accepted at the bus

The Nation Today . . .

will continue. The man on duty at night at number 4-5014 also has contact with a night watchman touring the campus. With either the full-time employee or one of the students at the desk during the closed period of the main office, there is also a messenger on call to send messages to all parts of the campus, not available by phone. These messengers are used to relay long-distance calls to me non the campus in dorms haiving no phone. During the day the information service is carried on by the regular staff of the housing office. Cheetah Runs Three Times As Fast As Human Sprinter

By MAX HALL (For James Marlow)

WASHINGTON, Sept. 22 (AP)—Mankind moving on his own legs is not one of the fastest animals. The Cheetah can run 70 miles an hour, more than three times as fast as a human sprinter. But mankind riding in contraptions is hurtling over the globe at

utterly shocking speeds.

This week an automobile exceeded 400 miles an hour for the first

time. Three weeks ago an air-

Lat's see what people can do without mechanical help: In the fastest two-mile walk on in the lastest two-mile walk on record, a Swede averaged about 9½ miles an hour. Running at top speed, the world's fastest sprinters have averaged 21.7 miles

sprinters have averaged 21.7 miles an hour for 100 yards. The best 100-yard swim on record was a little over 4 miles an hour.

Compare these feats with the performance of other creatures:

Record books indicate that Record books indicate that a horse named Big Racket galloped 43 miles an hour for a quarter of a mile in 1945. The great Equipoise averaged 38.1 miles an hour for a whole mile in 1932.

As for swimming, the fastest fish is believed to be the Tuna, which can do about 60 miles an hour.

Among birds, the fastest known to the Smithsonian experts is the session in print. We're always Swift. In 1922 a flock of Swifts glad to print them, even when you was clocked in India at from 171 call us nincompoops, idiots, and to 200 miles an hour over a two-

Now let us see what man can do wit hhis brains as well as his feet.

By fastening metal blades to his shoes, he has been known to aver-age 24.9 miles an hour for 220 yards on the ice — considerably faster than he could have run the same distance.

A man riding a bicycle in 1922 averaged 30.6 miles an hour for a quarter of a mile.
Four men in a Bobsled can zip
down a mountainside at around 60

A German rode a motorcycle at 174 miles an hour in 1937. Day before yesterday a new automobile record of 394.196 miles

Aggieland", I decided to find out

for myself.

Equipping my maroon car with Aggie pennants, stickers and streamers, I rushed madly toward the gate, throwing on my brakes at the last minute and screeching to a stop beside the little house at the entrance. I wanted to see if he would draw his gun.

But he didn't. "Don't drive so durn fast," he growled—and then waved me in, without asking if I were a sophomore, junior or senior

were a sophomore, junior or senior student. In fact, he didn't ask if l were a student at all, perhaps making a snap judgment from the way the car was decorated.

"Look here," I said. "Aren't you stationed here to shoot at Aggies

"Look here," I said. "Aren't you stationed here to shoot at Aggies from the main campus who try to crash the gate at this annex?"

"None of my business," he answered. "The Army pays me to keep spies from running off with the hangars. I don't think you could get a hangar in the back of your car, and besides, this gate (motioning) only goes to Little Aggieland. If you want me to give you trouble, try getting in this other gate, unless you're a stude n t at Southwest Technical Schools, or an airline passenger."

Disappointed, I drove on to the Annex administration building. I hung around in plain sight of several military officers, hoping to get picked up. They ignored me.

"Aren't you going to give me the bum's rush?" I demanded. I'm a student from the main campus, and I understand you have strict orders to keep me out."

orders to keep me out." "Don't get excited," answered the officer. "If you were in cadet uniform, I would ask you, as a military courtesy, to report your presence to the security officer, and check out with him before you leave. Yes, please remember that we have CQ here, so use discretion."

With that, he left me. Severely let down after all the rumors I had heard, I climbed back into my maroon car and drove back to College Station.
