

Three-Level Student Government Adopted

All Student Representatives Elected by Dorms and Areas

Student government will operate on three different levels this year, under a reorganization approved this week by the dean of men.

Most important change is in the student representative body, all the members of which will be elected, whether cadet, veteran or non-military. Elections will be by dormitories, except for students living off the campus. This body will function primarily through its standing committees, one of which will be the Student Council.

Dominy Resigns as Manager Of Student Concessions to NTSC

William W. Dominy, manager of concessions for student activities, has resigned, effective October 15 to accept a position as assistant business manager at North Texas State College at Denton.

Dominy was born in Waco, in 1922, graduating from Taylor High School in 1939. He attended A. & M. until February 1943, when he entered the Army Air Corps as a cadet.

He received his wings as a B-26 pilot from Laughlin Army Air Field and was sent overseas to the 9th AAF. Dominy flew 47 missions over France and Belgium, concentrating on railroads and highways. After serving his ten-month tour of duty, he was returned to the States. He was placed on reserve as a first lieutenant in November, 1945.

Dominy was released from service in Florida, and within three days, he was enrolled in A. & M. to finish his education in agronomy. He received his Bachelor of Science in February, 1946, and continued for one semester doing graduate work.

After working for some time as a building contractor, constructing houses in College Park, he accepted a position as assistant manager in charge of student activities at Bryan Field. He served in this capacity until June 1, 1947 when he became manager of student concessions at Bryan Field and on the campus. As manager, he was in charge of the news dealers and the concessions at Kyle Field, the Snack Bar, and in dormitories.

Dominy married the former Miss Virginia Wilson of Thornton, Texas, in 1943. She attended the University of Texas for two years before their marriage. They have one child, Dianne, who is two years old.

"I have enjoyed working with student activities as well as the many other people I have contacted on the campus," stated Dominy, "and I regret leaving such a cooperative organization. I shall retain a fond memory of A. & M. and all the fine people I have worked with," he concluded.

W. W. DOMINY, manager of concessions for student activities, has resigned, effective October 15 to join the staff at North Texas State College.

Town Hall Tickets On Sale in Dorms

Town Hall tickets for this season are on sale from any housemaster or first sergeant, Boyd Rogers, student manager, announced last night.

The 1947-48 season will open October 13, with soprano Frances Greer, Tom Scott, balladeer, was previously booked for October 6; however, he has postponed his engagement until January.

County Chest X-Ray Service Begins Nov. 5

Free Service Sponsored by Brazos TB Association, State Department

Chest X-rays for students, faculty members, and residents of Brazos County will begin on November 3. Dr. Jessie Whitacre, chairman of the publicity committee, has announced.

The Brazos County Tuberculosis Association, in cooperation with the State Health Department, is conducting the case-finding survey free of charge to every person willing to be X-rayed.

According to Dr. Whitacre, who is chief of the division of rural home research with the Agricultural Experiment Station, the chest X-rays will not require persons to be undressed. Information regarding the outcome of X-rays will be strictly confidential between the physician and person X-rayed.

The X-ray machine to be used will be placed in convenient places in Bryan and College Station so that as many people as possible can be accommodated.

The service will be continued from November 3 to possibly the latter part of December, according to Dr. Whitacre. As yet, the length of time required to perform the chest X-rays for the community cannot be ascertained, so an approximate time has been estimated.

The free X-ray service has already been conducted in several Texas cities and colleges, including the University of Texas and Baylor. According to Dr. Whitacre, it proved so successful there that further case surveys have been started throughout Texas.

Further information as to the starting date of the X-ray service will be announced later, as soon as preparations are completed.

BRAZOS COUNTY TUBERCULOSIS ASSOCIATION

The earlier found the sooner cured Tuberculosis:

The total number of war casualties among Texans between May 27, 1941 and January 31, 1945 is 15,764. More than half that number of Texans (8,997) died of tuberculosis in the last 3 of these same years. At vastly less cost than for war, the enemy tuberculosis can be conquered provided all cases are found in the early stage. How that can be done in Brazos County will be told another day in this space. Watch this space.

These pics snapped at College Night tell the story better than a thousand words.

Gull Feather Puzzles Frost, Evans

By Louis Morgan
"Nature still rules the roost, despite modern scientific advances" was S. L. "Jack" Frost's comment on the Gulf Coast hurricane he weathered in Pensacola, Fla. last week.

Frost and E. F. Evans of the Texas Forestry Service were attending a meeting of the Southern Forestry Directors when the storm hit. They watched from their hotel window as the wind peeled strips of slate roofing from a nearby church. They report that most destruction occurred in Pensacola between the hours of three and nine Friday morning with the wind reaching a velocity of 102 miles per hour in some places.

Both Evans and Frost were impressed by the methodical manner in which local residents went about preparing for the storm. The San Carlos Hotel, where they were staying, was used as a refuge center for people who had lost their homes. A standard breakfast of bacon, eggs, and coffee was served to all Friday morning, and

Evans reports that the service was the best he had ever seen. One unsolved mystery that is still bothering Frost concerns a sea gull feather found in his room Friday morning. All windows were closed the night before in anticipation of the storm, and yet next morning the feather was there. Leaving Pensacola Saturday morning, Frost and Evans saw even greater destruction around Mobile and Gulfport. Water was 21 feet above high tide between Gulfport and Biloxi, and the trees left standing were stripped of foliage. Some well-constructed buildings were badly damaged, while frame buildings nearby were untouched.

Frost talked with a retired navy admiral in Biloxi who said that the storm was the worst in twenty years. National guardsmen, soldiers and Boy Scouts ringed the Gulfport area directing traffic and assisting refugees. The highway paralleling the Gulf between Biloxi and Gulfport was closed be-

cause of high water. The Gulfport radio station was operated with an emergency power unit supplied by the National Guard and was used only to relay weather reports and emergency calls. All power lines and water mains were out of operation.

Frost is grateful to the weather bureau men for their good job of locating and predicting the progress of the hurricane. Otherwise he would have left Pensacola Thursday night and probably have been overtaken on the road by the hurricane.

Pensacola residents assured Frost and Evans that the hurricane was not their best brand and invited them to come back sometime to see a really good one. Both men assured them that they were sufficiently impressed to skip the next one. They report one case of a theatre operator in Pensacola whose sense of timing was perfect. He was showing "Gone With the Wind."

DOHIE "FIRED"
AUSTIN, Tex., Sept. 23 (AP)—Noted folklorist and professor J. Frank Dobie's connection with the University of Texas "has terminated as of Sept. 15," University President T. S. Painter declared today in a prepared statement.

PETKOV HANGED
SOFIA, Bulgaria, Sept. 23 (AP)—Nikola Petkov, peasant leader and foe of the Communist party, was hanged at 12:15 a.m. today in Sofia's central prison on charges of plotting against Bulgaria's Communist-controlled government.

Both the United States and Britain, denouncing his conviction as a miscarriage of justice, had urged the Soviet Union to participate in a big power review of Petkov's case.

FOOT & MOUTH COSTLY
MEXICO CITY, Sept. 23 (AP)—Whether Mexico could continue its 50-50 share of the cost of the fight with the United States against the foot and mouth disease in Mexico was a question discussed here today.

A high-ranking Mexican official who declined use of his name said last night that Mexico would be unable to continue her 50 per cent share of the cost because the country was "hard pressed for money."

KLEBERG IN ACCIDENT

WILMINGTON, Del., Sept. 23 (AP)—Robert J. Kleberg, Jr., Kingsville, Texas, owner of Assault, one of the top racing thoroughbreds in the nation, today was at liberty on his own recognizance after he was arrested yesterday on a charge of reckless driving.

The Rev. Alex Guevara, assistant rector of St. Helena's Catholic church, Bellefonte, and Helen Kleberg, 19-year-old daughter of the Texas rancher, were injured in a three-car collision.

MEXICAN REVOLT

MEXICO CITY, Sept. 23 (AP)—Unconfirmed reports reaching here last night said a group of approximately 600 armed men attacked an army headquarters at Balsas in the state of Guerrero killing the guards and fighting with a detachment of soldiers.

NEW STORM IS MILD

MIAMI, Fla., Sept. 23 (AP)—Florida's second tropical storm in a week, nothing yet to compare with the disastrous first, hit the west coast today and swirled north-northeastward threatening the peninsula with flooding rain and the Atlantic coast to the north perhaps with destructive winds.

\$1,000,000 FOR STORM RELIEF

WASHINGTON, Sept. 23 (AP)—The American Red Cross said it has appropriated \$1,000,000 to meet "disaster relief needs" of stricken families in hurricane-swept Gulf States and Southern Florida.

TECH HAS PLENTY ROOM

LUBBOCK, TEX., Sept. 23 (AP)—No students were turned away from Texas Technological College this fall because of inability to find housing accommodation, college officials say.

More than 1,900 students are living in campus dormitories, and rooms in boarding houses for other students are more plentiful than expected.

\$5,000,000 STORM LOSS

BATON ROUGE, La., Sept. 23 (AP)—Storm damage to residential and business property in Baton Rouge from Friday's tropical hurricane has been estimated at \$100,000, but losses by farmers in the areas struck by the storm may top \$5,000,000, unofficial estimates by L. N. U. indicate.

JANE WITHERS WEDS TEXAN

LOS ANGELES, Sept. 23 (AP)—Actress Jane Withers, 31, and film producer William Moss, 27, are honeymooning at some undisclosed place following their marriage here Saturday. Moss is the son of Mr. and Mrs. Paul W. Moss of Odessa, Texas.

"DOLLAR CURTAIN" CHARGED

NEW YORK, Sept. 23 (AP)—Yugoslav foreign minister Stanoje Simic late yesterday accused the United States of trying to isolate Russia and her Eastern European followers behind "A Dollar Curtain."

STUDENTS PROTEST WATER

PORT ARTHUR, TEX., Sept. 23 (AP)—For the second time in a week, students at Stephen F. Austin High School in suburban Port Acres here walked out in a strike, protesting the school's water supply.

Pupils staged a day-and-a-half strike last week but went back to classes after the school board agreed to study the water situation.

ARMED FINISHES 2ND

NEW YORK, Sept. 23 (AP)—Armed finished second to Polynesians in a six-furlong spring at Belmont yesterday in a warmup for his \$100,000 match race against Assault next Saturday.

The six-furlong was run in a sizzling 1:11, only a second off the track record, in spite of a sloppy track.

Pest Controllers To Meet Sept. 25

Pest control operators from different parts of the state will meet at Texas A&M College Thursday, Sept. 25, for a pest control operators' conference, according to Dr. H. G. Johnston, head of the Entomology Department.

General problems of insects, control of ants, structure of insects and how they breed will be discussed during the one-day meeting. A luncheon will be held at Shiba Hall for those attending the conference.

Some 50 pest control operators are expected to attend the meeting.
