

James Kunkel To Serve As LOOK 'Model'

Corps To Honor Fourth Army Chief

Illustrated Story to Portray Life of Typical Senior Cadet

General Handy Is VMI Grad, Legion of Merit Recipient

By J. T. MILLER

General Thomas T. Handy, commanding general of the Fourth Army, will be honored in a review of the Corps of Cadets Wednesday afternoon at 4-10, Colonel Guy S. Meloy, commandant and PMS&T, announced Friday.

Karper Elected Fellow in National Agronomy Society

The agronomist for A&M, Robert E. Karper of the Agricultural Experiment Station, has been elected a Fellow of the American Society of Agronomy, it has been announced, following the meeting in Cincinnati last week.

This honor by the leading agronomists of the country came to Karper for his outstanding research in sorghum genetics and breeding during 30 years service with the Texas Station.

Only three other Texas agronomists have been chosen Fellows by the American Society of Agronomy. These are R. D. Lewis, station director, in 1937, I. P. Trotter, Extension Service director, in 1938, and Howard B. Sprague, head of agricultural research, Texas State Research Foundation, in 1941.

Through the work of Karper and co-workers, the Texas grain sorghums have been remade and have become a major crop. Rugged and drought-resistant, they have helped to build a better-rounded agriculture in West Texas, where, due to irregular seasons, corn is not a dependable crop.

A major share of the newer grain sorghum varieties now grown has come from Karper's application of basic genetic information to the development of types that could be harvested by combines. Grain sorghums developed under his supervision give higher yields, possess greater industrial quality and are more disease resistant than varieties formerly grown.

Karper became superintendent of the Lubbock station, in the Texas sorghum belt, in 1915. He was vice director of the Texas agricultural research system from 1925 until 1940, when at his request he was placed in charge of sorghum investigations with headquarters again at Lubbock.

Architects Leave On Design Project

Ernest Langford, head of the department of architecture, and the fifth-year architect students left today for Lafayette, Louisiana, to prepare for a new design contest.

According to Langford, the project will be to design a house for Mr. and Mrs. Thomas G. Bostic of Lafayette. Bostic, a former student of A&M, said that the house will be built on a very beautiful lot and will "reflect the spirit of old Louisiana" in modern design.

The students will view the lot and surroundings and gather all helpful information before returning to college tomorrow.

Aggie Cadet Corps Is Highly Praised

The Aggies conducted themselves in an outstanding manner in the Corps trip to Houston, B. W. Payne, Chief of Houston Police Station in a letter to Colonel G. S. Meloy, commandant.

"Chief Inspector W. P. Haley and Captain Tom Sawyer, who had charge of the parade arrangements, stated that the young men were most cooperative," stated Payne, "Texas can be well proud of them, the entire faculty and the entire staff of Military Science and Tactics."

SAM Slates Talk By Houston Grad

W. H. Warring, staff manager of Johns-Manville Sales Corporation in Houston, will address a meeting of the Society for the Advancement of Management Tuesday night at 7 in the Electrical Engineering Building.

VOX POP TEAM—Teamwork puts the Vox Pop program on the air every Wednesday night. Traveling constantly for the broadcasts at different locations are (seated) interviewers PARKS JOHNSON, left, and WARREN HULL; (standing) assistant producer BUZZ WILLIS, left and program director ROGERS BRACKETT.

The team will be on the campus Wednesday evening, November 26 to broadcast activities of the pre-Thanksgiving Day game.

Air Force Team to Visit Here Dec. 1-3 to Interview Students

A traveling Air Force team will visit the A. & M. campus December 1-3, to acquaint Aggies interested in aviation with the educational and career opportunities available through service with the newly-created United States Air Force, an announcement from Tenth Air Force Headquarters revealed today.

Those men desiring to sign up for aviation cadet training or for officer candidate training will be able to determine at once whether or not they are qualified. The teams will give applicants all the necessary tests except the final physical examination the announcement stated.

An aviation cadet who successfully completes the 12-month training course will be given an officer's commission in the Air Force Reserve, with the rating of pilot. He will then be assigned to active flying duty with the Air Force, agreeing to serve three years.

Each cadet class is divided into three courses of approximately four months each. Primary and basic training are given at Randolph Field, Texas. Advanced training is taken either in single-engine planes at Williams Field, Arizona, or in multi-engine planes at Barksdale Field, La.

For pilot training only unmarried men between the ages of 20 to 26; years are eligible. Applicants must have had two or three years of college or be able to pass a written test to measure its equivalent. A sound physique and character are required.

High school graduates between the ages of 20 1/2 and 28 may apply for a commission involving non-flying duties, according to Tenth Air Force. The course is given by the Air Training Command at San Antonio, and lasts approximately 6 months. Graduates are required to serve two years on active duty.

The team will interview applicants in the library of Ross Hall between 8 and 5 each of the three days.

Memorial Contest Decisions Slated For Thanksgiving

Winners of the 36th Division Memorial Contest will be announced at the Thanksgiving Game next Thursday, a spokesman for the Division Association has announced.

In a judging conference held recently in Austin, a group of architects, representing the 36th Division, met with Ernest Langford and Hugh McMath, heads of the architecture departments at A. & M. and Texas University, respectively to select the three best plans.

Five sets of plans were submitted from each of the two schools for final selection. The winning design may be recommended for the memorial to be erected on the site of Salerno Beach near Paestrum, Italy, to honor the Texas division dead.

Board to Draft Research Plan Here This Week

A major petroleum research program for A&M and the University of Texas and the establishment of a state-wide industrial advisory service by the college will be discussed by the A&M board of directors here November 25-26.

Action at this meeting will be taken on the proposed joint resolution by the A&M board and the board of regents of the University of Texas to establish a cooperative petroleum research program. The resolution would establish a committee equally representing petroleum engineering departments of the two schools, with the Texas Railroad Commission invited to appoint a member to serve as chairman. This committee would be empowered to plan and direct development of research facilities at the college and university and initiate research in the field of secondary recovery.

The industrial advisory service proposal calls for the establishment of machinery at A&M which would make available the services of staff experts and graduate students for on-the-job studies of industrial and business problems throughout the state. The proposed organization is similar to that being carried on by a number of major industrial institutions in the east and mid-west.

The acceptance of gifts and grants totaling \$20,000 will also be on the agenda.

3 Special Trains Leave Thursday

Special trains to Houston, Dallas, and Austin have been scheduled for post-game time Thanksgiving Day, Bennie A. Zinn, assistant dean of men, announced today. The trains will leave from the Southern Pacific Lines station at 5 p. m. Thursday.

Students desiring to ride these specials are requested to purchase their tickets before 30, "emphasized."

The Houston-bound carrier is scheduled to reach its destination at 6:45 p. m., the Dallas train is to arrive in that city at 8:45 p. m., and the special to Austin is due there at 9 p. m., Southern Pacific officials stated.

Physician to Talk To AVMA Tuesday

Dr. R. H. Harrison, DVM, MD, will address the student American Veterinary Medical Association Tuesday at 7:30 p. m. in the amphitheater of the Veterinary Hospital, W. P. Switzer, reporter of the club, announced Saturday.

Dr. Harrison will speak on the subject, "Relationship Between the Veterinarian and the Physician." Since the information which Dr. Harrison will have to offer is rarely accessible to veterinary students Switzer urges all members to attend.

A brief business session will follow the address.

Funeral Services Held for Niece Of Mrs. M. L. Cashion

Funeral services were held at 10 a. m. Thursday for Mrs. Elmo Greshaw, niece of Mrs. M. L. Cashion of College Station and wife of an Aggie-ex, Class of '38.

At the service held in the College Station Church of Christ, pall bearers were Jimmy Jarrett, Elmore Bolton, Stanley Adera, Edwin Snyder, Captain Al Broome, and F. C. Bowers. Interment was in Willis Point, hometown of her father, Ernest Bruecher.

Other survivors are her husband, Captain Elmo Greshaw, of the Army Medical Corps, 38, a two-week-old daughter, Marcia Diana, a twin sister, Mrs. Otis Folton, of Beaumont, and a brother Blakely Bruecher, of Dallas.

Bonfire Dance Admission Cut

The post-bonfire dance Wednesday night will cost only \$1, Grady Elms, assistant director of Student Activities, announced today.

The \$1 admission will prevail at all dances at which the Aggieband Orchestra is to play, he added.

Vets Can Study Abroad Under GI Bill, Fulbright

Veterans desiring to study abroad can qualify for benefits at the same time under both the GI Bill and the Fulbright Act, administered by the State Department, the Veterans Administration ruled last week.

The ruling held that payments of education and training benefits under the GI Bill may be made to student-veterans regardless of any grants made to them under the Fulbright Act, since the funds used to administer the Fulbright Act were not secured from United States government appropriations.

The Fulbright Act, passed by the 79th Congress, provides for grants-in-aid to American students for study abroad or to foreign students for study in this country with costs defrayed by credits acquired through sale of surplus U.S. property abroad.

The act also specifies that veterans must be given preference by the 10-man Board of Foreign Scholarships which awards the study grants.

It is hoped that a limited number of grants will be made under the Fulbright Act for the academic year 1948-49, the Veterans Administration stated. Applications are not being received at this time, but persons desiring information on the program may obtain it from the Division of International Exchange of Persons, Department of State, Washington, 25, D. C.

Lufkin Host Today To Forest Service

Representatives of Arkansas, Louisiana, Oklahoma, and Texas are meeting today at the Texas Forest Service of A&M research laboratory in Lufkin to discuss cooperative experimental tests on fence post preservation.

E. D. Marshall, chief of forest products research for the Texas Forest Service, has sent invitations to farm foresters, soil conservation and extension service men, forestry schools, and the US Forest Service to send representatives.

Aiding Marshall in leading the discussions will be Mark M. Lehrbach from the forest utilization service of the Southern Forest Experiment Station in New Orleans, and H. L. Person who has charge of the East Texas branch of the Southern Forest Experiment Station.

The purpose of the meeting is to develop, as a result of tests, a simple and inexpensive preservative treatment for fence posts which could be standardized over the entire South.

Church of Christ Pastor To Speak in San Antonio

J. F. Fowler, pastor of the A&M Church of Christ, will be guest speaker at the San Antonio City-wide Young People's Meeting Tuesday evening. The meeting will be held in the Government Hill Church of Christ in San Antonio where his father, Thomas G. Fowler, is pastor.

LOOK Magazine to Portray Life of Typical Senior Cadet

James E. Kunkel, 20, a senior animal husbandry major from Megargel, Texas, has been chosen by representatives of LOOK magazine as the subject for a picture story to appear in that publication early next year.

Dan Fowler, departmental editor of LOOK, and Sprague Talbott, photographer for the magazine, picked Kunkel last night after interviewing several senior cadet officers.

Kunkel, company commander of C-Infantry, is vice-chairman of the student Agriculture Council and secretary-treasurer of the Saddle and Sirolo Club.

His daily life at A&M will be depicted in a series of photographs to be made today, tomorrow, and Wednesday, Fowler stated. Kunkel will be shown taking part in the corps review Wednesday afternoon, and both Fowler and Talbott will accompany him during that time.

Thumbing rides, mess hall shots, views of the campus with Kunkel in the foreground, classroom work, bonfire guard duty, basketball practice, and inspection of rooms will be featured in the story.

After his date, Pat Avary, a TSCW sophomore from Seymour, arrives on the campus Wednesday at noon, several photos of the two touring the campus will be taken.

At last night's interview Fowler pointed out that preparations involving the Thanksgiving Day game will not be stressed, since the story will not be published until early next year. Therefore, pictures will be made if the Aggie basketball team practicing for this season's opening game to coincide with the appearance of LOOK'S Aggie issue.

The two LOOK representatives arrived in College Station Sunday morning from Los Angeles. They will leave Thursday for New York.

A&M Chemists To Speak in Houston

Dr. Fred W. Jensen, head of the Chemistry department, and A. L. Parrack, research associate of the Engineering Experiment Station, will present papers at the Southwest Regional Meeting of the American Chemical Society in Houston, December 12-13.

Subject of the papers by Dr. Jensen and Parrack are "An Electronic Device for Measuring Salinity" and "Further Adaptions of the High Frequency Analysis Method." A registration fee of \$4 has been fixed for regular members of the society. Students attending the meeting will pay a registration fee of only \$1, as a group of chemical industry leaders have provided funds to take care of at least 75 percent of the regular fee for students.

Church of Christ Pastor To Speak in San Antonio

J. F. Fowler, pastor of the A&M Church of Christ, will be guest speaker at the San Antonio City-wide Young People's Meeting Tuesday evening. The meeting will be held in the Government Hill Church of Christ in San Antonio where his father, Thomas G. Fowler, is pastor.

BRAZOS CO.

TUBERCULOSIS ASSOCIATION

Tuberculosis: The earlier found the sooner cured

In the early stage of tuberculosis, the percentage of cases which can be cured is high, but as the disease advances, the percentage of cases which can be cured decreases rapidly.

AUSTIN, Nov. 24 (AP)—Texas postal receipts in October were \$2,885,964, ten per cent better than the same month a year ago, the University of Texas Bureau of Business Research reported.
