

MEAT PRICES FALL IN NEW YORK STORES

NEW YORK, Feb. 13.—U. S. stock and grain markets were closed yesterday but exchanges in the rest of the world continued nervous and uncertain in the wake of the severe break in commodity prices in the United States.

The three big U. S. meat manufacturers—Proctor & Gamble, Lever Brothers and Colgate-Palmolive—dropped wholesale prices 5 per cent. Fat and oils used in making soap have dropped recently.

COSTA RICA REBELLION NIPPED IN BUD

SAN JOSE, COSTA RICA, Feb. 13.—Troops and police nipped today a plot to overthrow Costa Rica's government and install former president Rafael Calderon Guardia.

MUST ALLOW NEGROES TO SWIM IN POOL

CHARLESTON, W. VA., Feb. 13.—The town of Montgomery has been directed by Federal Judge Ben Moore to permit Negroes to use its municipal swimming pool any time it is open, or provide them with equal pool facilities.

COMMUNISTS SEIZED IN CUBAN RAIDS

HAVANA, Feb. 13.—Police and Army agents made numerous arrests and raids Wednesday night in Matanzas province in the government campaign against Communists.

TAFT THINKS DIP MAY HAVE SOLVED SPIRAL

ST. PAUL, MINN., Feb. 13.—Senator Taft (R-Ohio) said yesterday that a recent dip in the commodity markets may have solved the problems of price-wage spiral.

BULGARS SHOT DOWN TURKISH PLANES

ISTANBUL, TURKEY, Feb. 12.—A foreign office spokesman says Bulgarian anti-aircraft guns shot down two Turkish fighter planes over Bulgaria Monday.

RIGID PRICE CONTROL DUE FOR BRITISH

LONDON, Feb. 13.—Britain's Labor Government has balanced its effort to freeze wages with a compulsory clampdown on a wide range of manufacturers' prices.

START WORK SOON ON HOUSTON AUTO TUNNEL

HOUSTON, Feb. 13.—Construction work on a 1500-foot vehicular tunnel beneath the Houston Ship Channel at Pasadena is to begin within 20 days.

FREEZE TO DEATH IN PANHANDLE BLIZZARD

DUMAS, TEX., Feb. 13.—Two children and their grandmother perished as a result of exposure in a stalled automobile near Stratford but two others were alive, thanks to the heroic assistance of an elderly farmer who walked many miles through a blizzard to get help.

MRS. KIBBE HEADS TEXAS CIO-PAC

AUSTIN, Feb. 13.—The CIO's Political Action Committee has a new state director, Mrs. Pauline R. Kibbe of San Antonio, former executive secretary of the Texas Good Neighbor Commission.

BOHR, ATOM SCIENTIST, LEAVES FOR U. S.

LONDON, Feb. 13.—Prof. Niels Bohr, Danish atom scientist, left Wednesday for the United States, the Danish Embassy said.

POSTPONE D-DAY IN PALESTINE

DAMASCUS, SYRIA, Feb. 13.—Suicide close to the Arab volunteer army command say the "D-Day" for the Arab fight against Palestine's Jews, reported set for Feb. 15, has been postponed.

WEATHER

East Texas: Cloudy to partly cloudy. Occasional rain in extreme east. Not so cold in west portions this afternoon. Partly cloudy and continued cold tonight.

UM Engineer Will Speak April 7-9

Dr. Donald L. Katz of the University of Michigan, authority on petroleum engineering, will give a series of lectures here April 7, 8 and 9.

Senior Ring Dance Changed to May 14 To Avoid Conflict

The Senior Class voted last night to move up the date of the Senior Ring Dance one week, from May 21 to May 14 to prevent a conflict with the final exam week of other schools.

College Monthly Dinner Canceled

The regular meeting of the A&M College Employees Dinner Club, scheduled for February 18, has been postponed because of conflict with Religious Emphasis Week.

Tom Thumb Play To Be Presented

All children of the College Station area between the ages of 2 and 4, who would like to participate in a Tom Thumb Wedding, should be at the YMCA at 2:30 Wednesday, February 18.

With Paul Weaver As Principal Speaker . . .

Daily Religious Services To Be Held Next Week in Guion

Paul Weaver, professor of religion and philosophy at Stephens College, Columbia, Missouri, and popular religious speaker, will deliver daily messages in Guion Hall, Monday through Friday during the Sixth Religious Emphasis Week beginning February 16.

Weaver has presented lectures before student conferences, laymen organizations, civic clubs, and scientific councils. He has also appeared on the American Town Hall of the Air.

A&M College Receives \$75,000 To Aid Research and Teaching

Grants, gifts, and awards totalling \$73,175.00 in support of research and teaching have been received by the College during recent weeks, figures compiled by the office of the President Gibb Gilchrist revealed today.

Seven Numbers Left on Town Hall Calendar

By TOM SUTHERLAND. Seven programs, after the Sidney Foster show tonight, remain for Town Hall audiences this semester, according to Grady Elms, assistant director of student activities.

IA KITCHELL, ballerina, modernist and classical artist, will glide and hop through two hours of comedy and satire. She is scheduled for March 4.

One of the world's most famous singing groups, the WESTMINSTER CHOIR will appear March 22. Highly trained from childhood, under the direction of Dr. John F. Williamson, members of the choir maintain headquarters in Princeton, New Jersey.

The orchestra of SAMMY KAYE is booked for a performance and an all-College Dance on April 3. Kaye's appearance on Town Hall replaces the Ambassadors of Song who cancelled their engagement last month.

An ever-popular combination will appear on April 8. HARRY NOBLE, pianist and FRANCIS KING, attractive young lyric soprano, compose this duet.

Studies of new insecticides are being supported with a gift of \$500 from the American Cyanamid Company, New York.

Texans members of the American Quarterhorse Association have donated to the animal husbandry department 14 top animals of this breed.

A seminar on radioactive and stable isotopes will be held Saturday, February 14, at 10 a. m. in the Agricultural Experiment Station conference room.

Dr. J. G. Potter of the physics department will conduct the first six meetings in which atomic structure and radiation, their value and meaning, as well as other basic concepts will be discussed.

The latter part of the seminar will review selected research papers and other subject matter in the field in which the tracer technique is used.

Ferguson extended an invitation to any staff member of graduate student interested in this type of work to attend.

Halbouty, who lives at 1635 Hawthorne, Houston, graduated in geology and petroleum engineering at A&M in 1930, taking his M. S. degree in the same field here in 1931.

Halbouty was editor-in-chief of the Longhorn in 1930, organization chairman and first charter member of the Scholarship Honor Society, president of the Geology Club in 1929-30.

Halbouty will furnish the music for the dance. The dance is scheduled to start at 9 p. m. and admission is \$2 with or without dance.

Boydton, long interested in the guidance of college students, is being brought to the campus at the request of J. W. Newton and L. B. Gough of Beaumont.

At present he is supervisor of employment in the industrial relations department of the Secony-Vacuum Oil Company in New York.

The names were painted in black, and were surrounded by a gold border. Observers conjectured that the gold border might be the identification of a campus military unit.

The temporary class room buildings were military barracks moved here from Camp Wallace, Texas.

Murray, informed that his name had been chosen for the galvanized iron utilities shack, said, "I am disappointed that I didn't make one of the class-room buildings."

Jerome Zubik, one of the three brothers who operate Zubik's Tailor Shop, when informed by The Battalion that their name was on one of the halls, said, "I've got to get over and see that."

Dr. Katz will lecture on "Phase Relationships in Oil and Gas Reservoirs." Vance expects more than 200 specialists in this field from over Texas, Oklahoma, and other southwestern states to attend.

Week-End Activities To Feature Piano Concert, Sophomore Ball

Sidney Foster on Town Hall Bill; Carmen Cavallaro's Orchestra to Play for Dance

Activities for the week-end offer a full two days entertainment if they were to all come in succession.

Leading the list is the Sophomore Ball that takes place tonight in Sbis Hall at 9 p. m. This is the outstanding activity for the Sophomore Class and promises to be a good time for all who attend.

Five Perish As New Cold Wave Sweeps State

Five persons perished Thursday, three of them from exposure, in winter's latest bitter assault on Texas, according to late Associated Press releases.

Two children and their grandmother died of exposure after being trapped in a stalled car near Stratford, in the Panhandle, where a blizzard has been raging for two weeks.

Crops are also suffering from the latest addition to the severe cold wave that has taken over the state for the past two weeks.

Schools were dismissed until Monday at Gainesville, where a continuing sleet storm had laid a half-inch ice coat.

The Dallas area reported that the snowfall there ranged from one to two inches in depth, and was badly drifted in highway and railway cuts.

Low temperatures reported over the state were: Abilene and Big Spring, 14; El Paso, 17; Austin, 23; Houston, 41; Waco, 24; Corpus Christi, 44; Brady and Wink, 16; and Texarkana, 41.

Today's warm sunrise promises a relief from the prolonged cold wave however, and many sections report clearing skies and melting ice.

Potter to Lead Discussions At Isotope Seminar

A seminar on radioactive and stable isotopes will be held Saturday, February 14, at 10 a. m. in the Agricultural Experiment Station conference room.

Dr. J. G. Potter of the physics department will conduct the first six meetings in which atomic structure and radiation, their value and meaning, as well as other basic concepts will be discussed.

The latter part of the seminar will review selected research papers and other subject matter in the field in which the tracer technique is used.

Ferguson extended an invitation to any staff member of graduate student interested in this type of work to attend.

Senior Ring Dance Changed to May 14 To Avoid Conflict

The Senior Class voted last night to move up the date of the Senior Ring Dance one week, from May 21 to May 14 to prevent a conflict with the final exam week of other schools.

According to Senior Class President Elmo Livingston, seniors felt it would prove difficult to get dates for the dance if it took place while co-eds were studying for finals.

Senior Class Social Secretary N. R. "Jug" Leatherwood named the various committees that would be set up to make preparations for the dance, and accepted volunteers for the different committee jobs.

Leatherwood requested that all seniors, whether cadet or veteran, who are interested in working on the Dance Committees see him before next week.

A tentative report on the outcome of the Senior Class sponsored Aggie calendar sales revealed that the class had profited by some \$1235 on the sale of 4122 calendars.

UM Engineer Will Speak April 7-9

Dr. Donald L. Katz of the University of Michigan, authority on petroleum engineering, will give a series of lectures here April 7, 8 and 9.

The conference is sponsored by the petroleum engineering department, of which Harold Vance is head.

Dr. Katz will lecture on "Phase Relationships in Oil and Gas Reservoirs." Vance expects more than 200 specialists in this field from over Texas, Oklahoma, and other southwestern states to attend.

CARMEN CAVALLARO Playing for St. Valentine's Dance Saturday

Graduate of 1930 Establishes Advance Geology Scholarship

Establishment of the "Michel T. Halbouty Fellowship in Geology" at A&M was announced today by E. E. McQuillen, director of the A&M Development Fund.

The fellowships, to assist geology graduates who have worked their way through undergraduate studies to complete additional courses, is financed through a gift from Michel T. Halbouty, Houston petroleum engineering consultant and A&M graduate of 1930.

The new fellowship, to be awarded by the faculty of the geology department of the college to a student "who has earned a part or all of his way through college during his undergraduate years, who has graduated from A&M, who needs financial assistance for further study, and who sincerely desires to take advantage of a year of graduate study in the field of geology," Halbouty specified.

It will pay \$500 per year to the man selected.

Halbouty, who lives at 1635 Hawthorne, Houston, graduated in geology and petroleum engineering at A&M in 1930, taking his M. S. degree in the same field here in 1931.

Halbouty was editor-in-chief of the Longhorn in 1930, organization chairman and first charter member of the Scholarship Honor Society, president of the Geology Club in 1929-30.

Halbouty will furnish the music for the dance. The dance is scheduled to start at 9 p. m. and admission is \$2 with or without dance.

Paul W. Boydton From Socony Will Address Students

Paul W. Boydton, industrial relations expert and authority in the personnel field, will address the A&M student body Wednesday, February 25, at 4 p. m. in Guion Hall on vocational choice and the best method of finding employment.

Director of the college placement office.

"His talk will be of such importance that students cannot afford to miss it," Horsley says.

Boydton, long interested in the guidance of college students, is being brought to the campus at the request of J. W. Newton and L. B. Gough of Beaumont.

At present he is supervisor of employment in the industrial relations department of the Secony-Vacuum Oil Company in New York.

Tom Thumb Play To Be Presented

All children of the College Station area between the ages of 2 and 4, who would like to participate in a Tom Thumb Wedding, should be at the YMCA at 2:30 Wednesday, February 18.

PAUL WEAVER Speaking during Religious Emphasis Week.
