

FIGHTER ESCORTS MAY FLY TO BERLIN

BERLIN, April 9.—(AP)—British is again considering the use of fighter planes to escort its transports to Berlin, a spokesman said last night. The spokesman said Russia had replied unsatisfactorily to British protests over Monday's collision of a Soviet fighter and a transport arriving from London. American officials said the United States will follow suit if the British establish fighter escorts.

TRIESTE CIVILIANS TO GET POWER

TRIESTE, Free Territory, April 9.—(AP)—Limited power will be transferred to local civilian hands in the Anglo-American zone of the free territory Monday, the Allied Military Government announced today. Communists will be barred from taking part.

SAY YEARS NEEDED BY AIR FORCE

WASHINGTON, April 9.—(AP)—Even if Congress orders a quick Air Force expansion program it may take nearly two years to get 15 more combat groups fully trained and equipped for battle, some Air Force officials said today.

TEXAS DEWEYITES SUE TAFTIANS

SAN ANTONIO, April 9.—(AP)—Dewey supporters in the Republican Party of Texas went to court yesterday in their feud with the Taft faction, headed by Col. R. B. Cramer, Brownsville.

A stormy meeting of the headquarters committee at a local downtown hotel was interrupted, when a deputy sheriff served papers on Cramer, Eugene "Mike" Nolte, and Marris McLean, San Antonio.

The suit, filed in 37th District Court, seeks to restrain the defendants from appointing Republican County Chairmen.

RUSSIANS MAY BAR ITALY FROM U. N.

NEW YORK, April 9.—(AP)—A Soviet veto appeared in the hands of Italy's newest effort to become a member of the United Nations. From all indications, the Russians are ready to flash the Red light despite the effect such a move might have on the Italian election April 18.

WHITE HOUSE ORDERS DEFENSE PLANT FREEZE

WASHINGTON, April 9.—(AP)—The White House today directed the War Assets Administration to hold up final disposition of all unsold industrial plants, machine tools and production equipment in these plants.

T. U. PLANS SURVEY OF SPANISH GROUPS

AUSTIN, Tex., April 9.—(AP)—A sociological and economic survey of Texas' Spanish-speaking population will be planned at San Antonio, April 29.

The University of Texas survey will be financed by \$419,000 from the General Education Board.

CZECHS SEIZE PLANE FLY TO FREEDOM

MUNICH, April 9.—(AP)—Twenty passengers aboard a Czech transport plane revolted and forced its flight into the U. S. zone of Germany Tuesday, Czech authorities said yesterday.

The Czech National Air Lines plane, with 26 aboard, landed without warning at an American base near Munich.

HOUSE VOTES FOR HOOP-MOUTH LAB

WASHINGTON, April 9.—(AP)—The House voted unanimously yesterday to establish a research laboratory to fight foot and mouth disease.

MIFTHI COUSIN KILLED IN BATTLE

JERUSALEM, April 9.—(AP)—Arab forces drove Haganah fighters off Mount Kastel yesterday six days after the Jewish militia occupied the hill in an effort to keep open a highway to Jerusalem.

Abdul Khadder Hussain, cousin of the exiled Mufti of Jerusalem and commander of the Arab Judean Army, was killed in the operation.

LEWIS UNION FACES 'UNFAIR' CHARGE

WASHINGTON, April 9.—(AP)—Joseph E. Murphy, head of the Southern Coal Producers Association, said yesterday he will file a charge of unfair labor practices against John L. Lewis' United Mine Workers.

Lewis already is facing contempt action for ignoring a court order to end the 24-day-old soft coal strike.

RUSSIAN SHIP SAILS MINTS MATR. CARGO

NEW YORK, April 9.—(AP)—The Soviet liner Russia sailed Wednesday with 112 packages for the International Red Cross, but left behind 5,000 bags of mail which longshoremen had refused to load.

The longshoremen balked at handling "a pound of cargo for any Russian-owned ship."

TEXAS CITY SUITS NEAR HUNDRED MILLION

HOUSTON, Tex., April 9.—(AP)—Damage suits against the Federal government following the Texas City disaster of last April 16-17, neared the \$100,000,000 mark yesterday.

Included was a \$50,000,000 damage claim by the Monsanto Chemical Company, whose sprawling Texas City plant suffered the greatest damage from the explosions and fires of the disaster.

TONY SORENSON, shown above with one of the beasts of the fields, is creator of the half-Angus, half-Hereford creature which stands in front of the AI Building.

Since Mendel Counted Peas . . .

Half Hereford-Half Angus Cow Called Genetic Marvel by Prof

By C. R. STONE
Whenever better things are developed they will be developed by Aggies. Starting proof of this, in the field of animal breeding, was disclosed Tuesday by the AH department.

Tony Sorenson, AH major from Waco, has originated a new breed of cattle. Tony said he knew he was dabbling in genetics when he started this project but did not realize what a sensational animal it was until he had talked with Dr. E. R. Schrode, professor of genetics who teaches Animal Breeding.

When shown the animal, Dr. Schrode remarked that it represented the greatest contribution to genetics since Mendel began counting peas. Dr. Schrode said that he wished to make further study of the genetic makeup of the animal before explaining his views.

After reaching a solution he intends to explain to his Genetics 306 class the full significance of this wonderful happening, the likes of which has escaped talented breeders for many centuries.

Dr. J. C. Miller, head of the AH department, explained that this addition was a godsend to their desire who teaches Animal Breeding.

When shown the animal, Dr. Schrode remarked that it represented the greatest contribution to genetics since Mendel began counting peas. Dr. Schrode said that he wished to make further study of the genetic makeup of the animal before explaining his views.

After reaching a solution he intends to explain to his Genetics 306 class the full significance of this wonderful happening, the likes of which has escaped talented breeders for many centuries.

setness, width and depth of body, constitution and, above all is representative of two breeds of cattle. This dual breeding is the unique part about the animal; he is half-Angus and half-Hereford—not just a mixture of the two breeds but actually half and half. One side is black and polled while the other side is red and white. The Hereford half has a horn, too.

At present the animal is having a limited showing at the AH department, but it is hoped that special privileges will be given to exhibit the animal at other parts of the campus for the benefit of farm boys who are taking Engineering and Chemistry.

Members of the Saddle and Sirolo Club are hoping the celebrated animal will still be around on May 8 for The Little Southwestern Livestock Show. Many of the livestock breeders over the state will be present and will have the opportunity to observe these results of scientific breeding.

The cow is not expected to be a good beef producer—it is made of plywood.

Dr. J. C. Miller, head of the AH department, explained that this addition was a godsend to their desire who teaches Animal Breeding.

Earlier in the day, equipment ranging from a small enciphering machine to a 46-ton General Pershing tank and from a "bazooka" to an anti-aircraft gun was displayed on the drill field west of Goodwin Hall.

Included in the parade of cadets were mounted machine guns and mortars, armored cars and assault tanks, and light and medium tanks.

Before the review, the freshman drill team from Little Aggeland performed flanking and column movements.

Items on display of especial interest among the smaller pieces of equipment were the M-209 converter or ciphering machine and units of concentrated foods.

The converter, a small unit used for routing coding work, has a possible number of different combinations equal to about 10 raised to the eleventh power. Material encoded by this machine will stand up for about 3 days against a good cryptographer.

The canned food display included one on the Army's famous 5-in-1 food package.

Special Artie equipment, ski boots, and specialized clothing were also shown.

Cadets from the different branches were on hand to explain the function of their particular exhibits.

Plans are moving rapidly for completion of a schedule for the AIEE-student convention to be held here April 19-20, it was announced today.

The Seventh Geographical District meeting will mark the first time that A&M has played host to the six-state gathering.

Although the seating capacity of the Electrical Engineering Lecture Room is limited, anyone interested in hearing the papers to be presented is invited to attend.

Among the ones to attend the district convention will be two co-ed electrical engineering students from Texas Tech.

Program for the two-day meet will be announced next week.

Gomberg to Be Speaker For ManE Seminar

Dr. William Gomberg will be one of the principal speakers at the Annual Management Engineering Conference to be held here May 19-20, according to D. K. Andrews, conference director.

This conference is being sponsored by the management engineering department and will deal with job evaluation, time study and incentive wage plans.

Gomberg will speak on "Trade Union Interest in Management Engineering Techniques."

He is director of the Management Engineering Department of the International Ladies' Garment Workers' Union and is a prominent speaker for conferences and meetings of this type. He is making a special trip to College Station from New York to appear on the program.

Gomberg received his B. S. degree from City College, New York, his M. A. at New York University and his Ph. D. at Columbia University.

He holds membership in the American Society of Mechanical Engineers and Society for the Advancement of Management, among others.

He has written numerous articles for such journals and publications as "Industrial Engineer," "Mechanical Engineering," and "Harvard Business Review."

His doctoral thesis, "A Trade Union Analysis of Time Study," was published for the Industrial Relations Center of the University of Chicago last January.

TCA Executive To Crown King Cotton In Annual Pageant

Lindsay T. Murray, executive vice-president of the Texas Cotton Association, will crown Wallace Hackler, King Cotton in the A&M Style Show Pageant April 16 at 8 p. m.

Murray has been with the Texas Cotton Association for many years. He is one of the promoters of the Texas Cotton Congress and various other cotton activities in the field of production and marketing.

Well known in cotton circles throughout the United States and one-time mayor of Waco, Murray now resides there with his family.

The Agronomy Society, which sponsors the Show, has arranged to have as special guest Miss Matilda Nail, 1948 Maid of Cotton, who has just completed a tour of fashion centers in Europe and the United States.

Miss Nail is a native of Fort Worth and is now attending the University of Texas. Her major is dramatics and speech and she has studied acting two years in high school and college.

Reigning as Queen Cotton with Hackler will be Miss Martha Jean Langston. She was a finalist in this year's Maid of Cotton competition at Memphis, Tennessee, losing to Miss Nail.

Presently a senior student at TSCW, Miss Langston is majoring in textiles and clothing. A member of Alpha Omicron Pi sorority, she was elected to "Who's Who" and has received the Mary Gibbs Jones scholarship three years.

White, Entertainment Committee Make Plans For Free Movies, Dances, Skating at Grove

Henry Scott, Grandpa Jones, Earle Spicer, and Lino Bartolini were selected yesterday by the summer entertainment committee as the special attractions to be held at The Grove this summer.

These entertainers will be part of the regular schedule planned for The Grove. Activities have been planned for every night in the week except Sunday when skating will be optional.

Two movies, three nights for skating, bingo, and a juke box dance will be scheduled. An all college dance is planned for each six-week period with orchestras furnishing the music. Tentative plans call for securing the Aggeland Orchestra and an out-of-town band.

The following weekly schedule will be in effect this summer: Monday Skating Tuesday Movie Wednesday Bingo or special entertainer Thursday Movie Friday Skating Saturday Juke Box Dance Sunday Skating

Spot, concert pianist, livens his program by playing the piano with his fists, elbows, mittens, and assorted fruit. He holds the piano-speed playing record of 44 notes per second. He will be scheduled for about the middle of August.

Grandpa Jones, who appears regularly on Station WSM, Nashville, will appear June 30. As an added attraction, he plans to bring a girl who will play old time folk tunes on her violin. They will also do a special act.

To provide a variety of entertainment, the committee chose Spicer, a well-known baritone, who will sing ballads and folk songs. He plans his programs so as to give entertainment of an educational nature. He will be scheduled for about June 16.

Bartolini, violinist, winds up the list that will be contacted for summer contracts. All activities at The Grove, except the rent charge for the skates will be free. Expenses will be covered by the required student fee of 40 cents per term. It is planned to have "The Shell" completed in time to be used in connection with these programs.

The entertainment committee, working with C. G. "Snake" White, consists of Chairman H. V. Risien, Neal Galloway, James Edgar, W. W. Gardner, and Kenneth Bond. The committee plans to meet regularly with White to continue summer plans.

Pat Ramsey, vice-president of the A&M Newman Club, was chosen as one of seven district chairmen. Weiler served on the nominations committee, and Ramsey served on the resolutions committee.

Ten A&M Newman Club members attended the convention. Representatives from twelve colleges and universities brought the total attendance to 90 persons.

During the two and one-half day meeting, delegates attended business sessions Saturday and Sunday. Saturday afternoon delegates took part in the convention picnic and a dance that night. The conference closed with a banquet at noon Sunday, April 4.

Twelve ushers are needed for the Cotton Style Show Pageant which is to be held in DeWare Fieldhouse April 16 at 8 p. m. Students interested should see Charles A. Burleson or Eli Whitley at the agronomy department in the new Experiment Station Building.

Ushers will be admitted free to the Cotton Pageant.

Southside Grocery Sponsoring Big 'Bewildered Man' Contest

A "bewildered man" contest is being sponsored by the Southside Grocery today and tomorrow, Ray Oden, manager, has announced.

Prizes of \$20, \$10, and \$2.50 (in groceries) will be awarded to the winners. There will be 8 different awards of \$2.50 Oden said.

The contest centers around a coupon on which residents are asked to check the advertising media that carries grocery information to them.

Contestants are being asked to choose between The Battalion, The Bryan Eagle and handbills as effective means of advertising.

This is the first time that such a survey has been made in this area, Oden said.

To be eligible for prizes, contestants must fill in coupons or reasonable facsimiles and turn them in at the Southside Food Market, Oden stated. Coupons must be turned in either Friday or Saturday.

After the store closes Saturday night, the winners will be selected by a drawing. Winners will be notified by telephone or mail on Monday, Oden said.

He cautioned all contestants that to be eligible for awards their coupon must be filled out completely.

Contestants do not have to purchase groceries to be eligible for awards, Oden stated.

SENIOR DUCHESS—BEVERLY BALFAN, senior student at John Reagan High School of Houston, will represent the Senior Class at the Cotton Ball and Pageant here April 16. She will be escorted by RANDOLPH BLUMBERG.

Debaters Win 2 Of 3 SHSSTC Matches

The Aggie Varsity Debate Squad chalked up two victories and one loss in an afternoon and evening at Sam Houston State Teacher's College Thursday.

Joe Fuller, sophomore—CE student and Jack Shepherd, junior pre-law student took the decision over the Sam Houston team while debating the affirmative side of the national question "Resolved, that a Federal world government should be established."
