

AUSTRALIAN WILL
HEAD ASSEMBLY

PARIS, Sept. 22 — Her- bert V. Evatt of Australia was elected president of the General Assembly of the United Nations yesterday.

The Australian emerged victorious after falling in the first ballot to win the necessary simple majority of 29 votes.

He polled 25 on the first ballot to 22 for Foreign Minister Juan A. Bramugha of Argentina, candidate of the Latin-American bloc.

Evatt received 31 of the 38 nations' votes on the second ballot to 20 for Bramugha.

CONTRIBUTION FROM
CULLEN DENIED

HOUSTON, Sept. 22 — "There is not a word of truth" to a report that H. R. Cullen, Houston oilman, has contributed \$100,000 to the state rights presidential campaign, Judge Merritt Gibson, director of the Thurmond-Wright campaign, declared.

Gibson said Monday "Not one penny" has been received from Cullen, multimillionaire philanthropist who endorsed the Thurmond-Wright ticket last month.

GETTING READY
FOR THE AGGIES?

SAN ANTONIO, Sept. 22 — Evidence has been obtained that horse meat is being sold here for human consumption, Dr. A. E. Wharton, Chief veterinarian with the City Health Department, said Tuesday.

Tests conducted by the city and state health departments of meat samples from three restaurants definitely indicated presence of horse meat, he said.

One of the restaurants subsequently was closed and charges are to be filed against several persons during the week.

TU REJECTS SPEECH
BY NORMAN THOMAS

AUSTIN, Sept. 22 — Norman Thomas, socialist party nominee for president, has been rejected as a speaker on the University of Texas Campus, C. William Ladwig, Texas secretary of the socialist party, said Tuesday.

Ladwig said University President T. S. Painter and Controller C. D. Simmons advised him "it was against the rules of the university."

Thomas is scheduled to speak at Woodruff Park Sept. 27.

President Painter said university rules, adopted by the school's board of regents, prohibit the university from jointly sponsoring political and sectarian gatherings.

"The same rule would apply to President Truman," Dr. Painter said.

Town Hall Race
Hot As Spence
Wins With Tie

By DAVE COSLETT
The latest episode in the annual battle between two long time rivals for the first Town Hall ticket of the season found T. R. Spence, manager of College Construction, first by a neck tie.

For several years, Spence has vied with Dr. W. L. Porter, head of the Mathematics Department, for first choice of the Town Hall reserved seat tickets.

Determined to avenge last year's loss to Dr. Porter, Spence was at Goodwin Hall shortly after five a. m. Monday, fully equipped with a toaster, bread and butter, coffee, table cloth, and a few other essentials of an early morning snack.

There was only one thing he had forgotten—his radio. Faced with the problem of doing without the radio or taking a chance of losing his place in line, Spence hit upon the plan of hanging his neck tie on a door knob as clear evidence that he had arrived first.

When the Student Activities Office staff finally arrived, they found Spence waiting to serve them toast and coffee. Porter, for some reason, took an unostentatious fourth place.

Spence, who had gotten the number one ticket every year until he was beaten out by Porter, has once more returned the victor's crown and with it the choice Town Hall seats.

How Texas farmers are being helped by scientific research will be shown to visitors at the Texas State Fair in Dallas, October 9-24. A huge exhibit, prepared by more than fifty scientists from the A&M College System, will demonstrate new and improved crops, as well as new and improved techniques of crop-growing, all of which were developed by the A&M System. The exhibit, believed to be the largest of its kind ever presented in Texas, will be a central feature of the Agriculture Building.

Panhandle Aggies
Divide to Initiate
Top O'Texas Club

A new club is being organized at A&M. The name of the new group is to be the "Top O'Texas A&M Club," and it will include all students from Borger, Tampa, and Panhandle or the counties in which these cities are located.

The first meeting is to be held after yell practice, Thursday night in Room 125, Academic Building. The old Panhandle Club was too large and covered too much area, making close cooperation among the members practically impossible.

There was usually no place to hold parties, because some members would have to travel as much as 200 miles to attend. The new club, covering a triangular area of 23 miles, will be a much more efficient organization.

Aims of the new club will be more and better parties; bringing high school seniors to the campus and talking up A&M to them; and providing closer contacts among residents of the area so news of rides home will reach all.

Batt Classifieds
To Provide Free
Passes to Campus

By J. K. B. Nelson
Want a free pass to the Campus theater. Try reading the Battalion Classifieds. Beginning with the Thursday, September 23 issue, the names of one or more Battalion subscribers will be placed in the classified section. Those chosen will be admitted free of charge to the Campus theater on the following day providing they are able to find their names hidden among the regular classified ads.

The only admittance charge will be proper identification at the box office window of the Campus, plus the 7 cent Federal tax.

Written in fine six-point, the give-away lines will appear somewhere among the classified ads couched in such terms as, "J. Doe, the Campus awaits you!"

If J. Doe is a very bright lad he will simply have to read the classifieds thoroughly to discover his free admittance clause for the following day.

However, this admittance will be good for only one day. Thus, if Joe is a dullard and does not discover his name until all Saints' celebrations have commenced, he will indeed be in a sad plight, for his day is done and will not roll around again for 33 months, providing the Battalion subscriptions don't increase in the meanwhile.

Wichita Falls Club
To Meet Thursday

An important meeting of the Wichita Falls Club has been planned for 7:15 p. m. Thursday in Room 223, Academic Building. Charles Davis, president, has announced.

STATE FAIR VISITORS will see this A&M System exhibit in Dallas, October 9-24. This framework, designed by Hal Moseley of A&M Architecture Department, will hold exhibits showing progress of agriculture and amplifying the theme "The Texas A&M College System Serves You Through Teaching, Research and Extension."

Record Exhibit Will be Shown
By A&M System at State Fair

By VICK LINDLEY
How Texas farmers are being helped by scientific research will be shown to visitors at the Texas State Fair in Dallas, October 9-24.

A huge exhibit, prepared by more than fifty scientists from the A&M College System, will demonstrate new and improved crops, as well as new and improved techniques of crop-growing, all of which were developed by the A&M System. The exhibit, believed to be the largest of its kind ever presented in Texas, will be a central feature of the Agriculture Building.

Unlike many previous exhibits, there will be no "hands off" signs. Farmers will be invited to pick up and examine samples of the newest types of wheat, corn, sorghum, and other agricultural products.

One or more panels will be devoted to progress in these fields: grain sorghums, corn, wheat, oats, and barley, rice, flax, peanuts, cotton, forage. Other panels will deal with the subjects of soil conservation, horticulture, education in agriculture, land use, soil improving and fertilizing. The soil improvement subject will be presented by colored pictures projected on ground glass.

Each panel will show what researchers have accomplished or learned and how they succeeded. For instance, a panel on cotton will demonstrate the genetics procedures necessary in getting wild or Asiatic cotton to cross with native cotton, resulting in a stronger fibre. Also shown will be experiments now in progress toward getting better production from the resultant hybrid cotton.

Recommended types of farm buildings will be shown by models. The framework of the exhibition will be unusual in itself, in that the picture-panels will be zig-zagged through the exhibit space, and will be of an "open" design, in order that visitors may see all the displays with as little trouble as possible. Hal Moseley of the A&M College architectural school designed the framework. After the fair, individual panel exhibits will be available for county fairs, field days or other such occasions.

Typical of the way in which divisions of the A&M System are cooperating in producing the exhibit is the personnel of the sub-committee responsible for the grain sorghum exhibit. Chairman of the sub-committee is T. E. McAfee, agronomy teacher. Other members are R. E. Karner, agronomist of the Lubbock Experiment Station; Frade Hale of the Feeding and Breeding Station; J. W. Sorenson of the Agriculture Engineering Department; and L. S. Payne of the Agricultural Economics and Rural Sociology Department.

Most of the other sub-committees contain representatives from the teaching staff, Experiment Station and Extension Service. All told, fifty men are serving on these sub-committees.

The general committee is headed by D. T. Killough of the Agricultural Experiment Station and includes A. W. Crain and R. C. Potts, Agronomy Department; M. K. Thornton and Jack Sloan of the Extension Service; Howard Berry, Visual Aids Laboratory; Hal Moseley, Architecture Department; and R. H. Shuffler, director of Information.

Two other exhibits will also represent the A&M System at the State Fair.

A separate Forest Service booth will be near the main A&M exhibit. A smaller booth will be maintained in the Agriculture Hall by the A&M System. Lights on a huge map of Texas will show how the System's activities extend throughout the entire state. This booth will also serve as registration headquarters of A&M students and graduates on Sunday, October 17, which will be A&M Day at the Fair.

Waco Forms Club
At Thursday Meet

The Waco A&M Club plans an organizational meeting at 7:30 p. m. Wednesday in Room 125, Academic Building. This will be the first meeting of the year.

No Likker Allowed . . .
Dorm Equipment, Magazines
Financed With Coke Profits

By EDDIE SMITH
"Yo ho ho and a bottle of Coke" should be the new song at A&M if figures released on Coca-Cola machine profits for the year are any indication. Totals for the year ending September 1, 1948, show that imbibing Aggies consumed enough of the beverage to bring a profit of \$10,514.92 to various student funds. \$326.38 of this total was gleaned from the machines at Bryan Field Annex.

The \$10,188.54 made on dormitory machines on the campus was divided up with forty per cent going to the Student Activities Account for overall campus use and sixty per cent going to the cumulative fund of the dormitory in which the profit was made.

According to Spike White, Student Activities head, much of the dormitory fund is lost due to breakage expense which must be deducted from the sixty per cent before it is applied to the unit fund.

The Student Activities Account, located in Goodwin Hall, uses its forty per cent to finance various campus club meetings, meet expenses of visiting speakers and to improve other student facilities around the campus. The public address system used at boxing matches was obtained through this fund as were the flowers presented to the Aggie Sweetheart at the TCU game last fall.

The company commander of the student senator in the case of non-military dormitories must approve all expenditures from the unit fund. Some of the money goes for reading material in the new dormitory lounges, some for athletic equipment for the more energetic members of the outfit. Recently,

35 Submit Applications
In Student Senate Race

Friday Will Be
Last Day To
File for Posts

Thirty-five students had submitted their applications as candidates for the Student Senate in Student Activities by 5 p. m. yesterday.

Tuesday closed out the second day in which students may file their applications. Deadline for filing has been set for 5 p. m. Friday, N. R. Leatherwood, present Senate president, has announced.

All applications for positions on the Student Senate, with the exception of the freshmen at the Annex must be classified as a sophomore. Have attended A&M for the two previous semesters, and have an overall grade point ratio of one or more in order to be eligible.

The Student Commissary will application form promising to live in the area or dormitory which he represents for his tenure of office. The tenure of office, according to the Senate Constitution, is one year, including the summer sessions provided the student is present in summer school.

Election of three Senators from the Freshman Class at the Annex will be held at a class meeting there, so it will not be necessary for them to file their applications. Classification as a freshman at the Annex is the only qualification necessary.

The following students have submitted applications:
Dormitory 1
Rudolph L. Schodde
Dormitory 2
Charles Mattei
Dormitory 3
Robert Gilchrist
Lloyd Baker, Senator-at-large
Dormitory 5
Ivan I. Bradshaw
Charles Luedtke, Jr.
Dormitory 6
J. Fred Hambright
Dormitory 7
Robert R. Smith
Dormitory 8
John Johnson
Dormitory 9
Richard W. Denny, Senator-at-large
Dormitory 10
Bubba Scrimgeour
Dormitory 11
T. A. Carlton, Jr.
Walter Wendlandt, Senator-at-large
Dormitory 12

Recent moving pictures in color will be shown of conditions in Frankfurt. Bunn will lecture in twenty different cities in this country and return to Germany October 1.

Bunn will give a first hand report on religious, economic, and social conditions in Germany. In regard to the prospects for war, the missionary has found that the German people do not speak of war as a possibility, but as a certainty. They are very much afraid of the Russians and the mistakes of our military government are overlooked in contrast to the mistakes of the Russians.

Recent moving pictures in color will be shown of conditions in Frankfurt. Bunn will lecture in twenty different cities in this country and return to Germany October 1.

Coach "Bones" Irvin will talk on what may be expected from the Red Raiders this week in San Antonio. In addition, he will give a short talk on what may be expected from his freshman team.

Newmans Appoint
Committees, Hear
Outline for Year

Three new committees were inaugurated at the A&M Newman Club at their first meeting of the fall semester Monday evening. Members of the club heard Pat Ramsey, president, outline various activities the club will offer this year.

Raymond pointed out that the club wishes every Catholic on the campus to become an active member and enjoy the benefits derived from its organization.

The new committees that were appointed were the Religious Life Committee, the Intellectual Life Committee, and the Social Life Committee. The joint purpose of these new bodies is to stimulate the religious and intellectual life of the student as well as to offer him entertainment within Catholic surroundings.

Bill Miller, a senior from San Antonio, was appointed head of the Religious Life Committee and Alex Schelski with Ben Edwards were approved as co-chairman of the Intellectual Life Committee.

Creed Ford, a senior from Houston, was named as head of the Social Committee. Bill Halcomb, senior student hailing from San Antonio, and Charlie Mattei, junior from Odessa, volunteered to become Athletic directors within the club.

The initial practice session of the Ramblers was held in the home of Mr. and Mrs. J. D. Pawlitt in College Hills. The Ramblers were guests of Miss Virginia Fawcett, bride-to-be of Chester Chambers who was the accordionist and leader of the Ramblers last year.

The Ramblers expect to be heard soon on their old familiar spot over WTAW.

Any fiddlers, steel guitar players, or base fiddle pullers interested in joining the Ramblers for this school year should contact Buddy Luce in Room C-10 (Walter Hall) as soon as possible.

El Campo A-M Club
To Meet Thursday

An El Campo A&M Club will be formed in Room 207 of the Academic Building after yell practice Thursday night, according to J. W. Craft, senior business major from El Campo.

The club is being formed at the request of exec in the El Campo area, Craft said.

Rifle Team Will
Discuss Tryouts

Captain G. E. Hedrick, newly appointed manager of the ROT C Rifle Team, has called a meeting of all men interested in trying out for the Rifle Team.

The meeting will be held in the Library, Ross Hall, at 7 p. m. Wednesday.

Polk A&M Club To
Plan Party, Dance

The Polk County A&M Club will hold its first meeting of the year at 7:30 Thursday evening in Room 308, Academic Building. C. T. Jones, club president, announced today.

Plans will be made for a Thanksgiving party and a Christmas Dance. All students from Polk County are asked to be at this important meeting, Jones said.

Commissary Will
Close After Sale

The student Commissary will close as soon as the close-out sale is completed, the student manager has announced.
