

LSU Shades Fighting Aggies, 14-13

Pass Interceptions Costly as Aggie Line Stops Tiger Runs

By BILL POTTS

The Texas Aggies looked like a good football team for the first time this season in Baton Rouge Saturday night but, even though they nearly pushed the LSU Tigers into their own Mississippi River, they were beaten, 14-13, on a lucky fumble and recovery and too many pass interceptions. The outstanding play of the Aggie forward wall was the main difference between this weeks showing and last week's sorry spectacle against Okla.

BOB GOODE bowls over for the Aggies' second score in the third quarter as Tackle Jim Winkler watches on. The other blocker is Guard Max Greiner.

'Little Foxes' Tryouts Bring Talent Aplenty

The Aggie Players held tryouts for parts in Lillian Hellman's Broadway production of The Little Foxes in the Assembly Hall Wednesday night, John W. Laufenberg, Publicity Director for The Aggie Players, announced today.

Prior to the try-outs Garvis W. Little, director, held a brief discussion of the play. He emphasized that it would be a difficult production to stage, since an elaborate set is required.

"However," continued Little, "I believe that we can do it easily because of the large number of returning members and because of the amount of talent which seems to be evident in the new members who tried out for parts."

Little said that all those who tried out could not be cast in this production, but that they would undoubtedly receive parts in the next production. No final selection has been made and anyone who is interested in trying out for a part in The Little Foxes should contact Little through the English Office in the Academic Building, Laufenberg stated.

New members who were at the try-outs included Bill Gesell, Reese Shannon, J. J. Fowler, Julia Pearce of Bryan, Jack Simmons, John Shandler, Edwin D. Sneed, Betty Sorrell of Bryan, R. L. Davis, R. D. Rivers, D. C. Messink, Jr., and Elizabeth Lindig of Bryan.

Fellowship Given Ag Station Worker At North Carolina

Shelby H. Cain, assistant professor in agronomy for the Texas Agricultural Experiment Station, has been granted an Atomic Energy Commission predoctoral fellowship to do graduate studies at the North Carolina State College.

During next year, Cain will pursue research studies in biology with special emphasis on biometry. When he returns to the Station, Cain will assist in the development of experimental designs and methods of statistical analysis for all the work of the cotton improvement section.

Cain will also have responsibility for the development of production values and the analysis of data obtained from studies of cotton seeds exposed to irradiation in both the first and second atomic bomb tests. This work is cooperative between the Station and the Naval Medical Research Institute.

Champs Dust Saddles . . . Cowhands Offered 'Double S' Stock for 1948 Aggie Rodeo

By FRED CAMPBELL
Aggie cowhands are wiping the dust off of their saddles this week and are getting out their fancy shirts and ten gallon hats in preparation for the famous Aggie Rodeo on October 15-16.

Earl Lindsey, secretary of the Rodeo Cowboys' Association has authorized the rodeo which will feature only student contestants. The Saddle and Sirolo Club has obtained RCA approved bucking stock which is supposed to consist of the meanest critters on four legs.

Dr. Darrell B. Sprott, Class of '38, and "Doc" Spence of the Double 'S' Rodeo Ranch at Killean, Texas, are furnishing the stock for the rodeo. They are not charging the club for the use of the stock, thus making available some of the most famous bucking stock in the state.

Consolidated Mothers, Dads Club Will Meet

An "open house" with displays of student work will be featured at the annual business session of the A&M Consolidated Mothers and Dads Club tomorrow night at 7:30 in the high school gymnasium Gordon Gay, president, has announced.

Parents and teachers will observe the displays from 6:30 to 7:30 and teachers will be in their class rooms to meet patrons and explain the nature of the work displayed.

The regular business session has been streamlined, according to Gay, to permit all members to meet other engagements made for later in the evening.

Chief business of the one hour session will be consideration of the \$2775.00 budget which has been set up by the budget committee as the basis for the club's work during the coming school year. The budget, Gay points out, slightly exceeds the total incoming revenue for last year.

The budget was worked out by a committee consisting of Chairman H. C. Johnston, Mrs. O. K. Smith, Mrs. W. G. Breazeale, Dr. Charles LaMotte, J. G. Adams, A. M. Whittis, and Gordon Gay, ex-officio member.

Out of a possible 700 members last year's total club membership was 200. The membership committee with Mrs. W. W. Armistead, as chairman is planning to increase membership this year to at least 400.

All patrons of A&M Consolidated High School are invited to attend both the open house and the business session, Gay said.

Williams Speaks To Newly Formed Foundry Society

Marvin W. Williams, foundry manager of the Hughes Tool Company and past president of the Texas chapter of the American Foundrymen's Society, will be the guest speaker at the first formal meeting of the newly-organized student chapter of the American Foundrymen's Society this Tuesday, Lloyd G. Berryman and M. W. Watson, faculty sponsors, announced.

The meeting will be held in Room 303 of the Mechanical Engineering Building Tuesday night immediately after yell practice, Berryman said.

The speaker's subject will be "The Foundries of Texas and Opportunities in the A.F.S." All prospective members of the society are welcome to attend and any others interested are cordially invited, Berryman said.

Only 26 Town Hall Tickets Remaining

There are only 26 Town Hall tickets remaining for sale to the public, Guy Daniels, Town Hall manager, announced at press time today.

Flourists Establish Research Program

Members of the Texas State Florists' Association and the Texas Nurserymen's Association met last Friday at A&M to discuss plans for a research program to be carried out in connection with the establishment of new varieties of potted plants, flowers, and ornamentals in the southwest.

The Landscape Art Department of A&M is cooperating with other specialists in bringing about further developments in this field. The florists are especially interested in better potted plants and cut flowers, while the nurserymen are working on the propagation of ornamentals.

A&M is serving as a meeting place and work shop, with the associations partly sponsoring the program.

Lufkin Foundry Makes Two Awards

Bobby D. Stone of Wills Point and Clyde C. Spraggins of Plainview, senior students in mechanical engineering have been awarded scholarships for the 1948-49 school year. They will receive \$40 per month for the entire school year.

The Texas Foundries, Incorporated, of Lufkin, donors, specify that the students work for the Foundries for at least one year after graduation. The students were employed by the Foundry this past summer. Announcement of the award was made by Col. Cal C. Chambers of the Foundries.

Free Cigarettes Given This Week

A free package of Camel cigarettes and a plastic cigarette case will be offered all A&M students and faculty members this week at the College Confectionaries, according to Wayne Stark, director of the Memorial Center.

The cigarettes will be given out at the Cave and The Campus Corner and at the Annex Snack Bar on Tuesday, Wednesday, and Thursday.

Students must present their fiscal receipt for identification in order to receive their cigarettes.

Charles Kirkham To Address FFA

Charles D. Kirkham, EE junior from Cleburne, will speak to the A&M Collegiate Chapter of FFA at a meeting of the chapter Monday at 7:30 p. m. in the Agricultural Engineering lecture room.

Kirkham, who spent three months in Europe this summer, will present his views on the agricultural aspects of his tour.

NO! It isn't Dracula's kid brother, but only CHARLIE MUNDEN of San Antonio who was elected "ugliest man at A&M" in an election held last week.

Johnson Named Arena Director For 27th Annual Aggie Rodeo

Tommy Johnson, senior animal husbandry student from Beeville, has been named arena director for the 27th annual All-Aggie rodeo to be held on the campus October 15-16. Seventy-five students are expected to enter the rodeo.

The rodeo will attract national champion riders of inter-collegiate competition, including L. E. Griffith of Dallas, winner of the saddle bronc riding at the Cow Palace in San Francisco in 1943; and Charlie Rankin of Corsicana, champion all-around cowboy who won the title last year.

Griffith won awards at Madisonville, Caldwell, Thorndale, and Bryan. Having competed in the Peos Country and in Colorado, he was second in the all-around standings last year.

Johnson, saddle bronc rider, is gaining fame as a clown and bull fighter.

Rankin specializes in bareback bronc riding. An all-around cowboy, he plans to enter every event except calf roping, bull riding, and saddle bronc riding.

Abner Poyner of Mason has entered the bareback riding and bull riding.

Maxie Overstreet of Fort Worth, champion all-around cowboy at T. C. U.'s intercollegiate show and first place winner in bull riding in last year's rodeo at A&M, will also compete. He is a bareback and bull rider and will enter bulldogging events in the show.

Sociology Club Invites Members

All students interested in sociology are invited to attend a Sociology Club meeting Tuesday at 7:30 p. m. in Room 203, Agricultural Building Bob Weyand, club president, has announced.

SMITH COUNTY REMAINS DRY
TYLER, Tex., Oct. 11 (AP) Smith county remained dry as the result of an election Saturday showing a vote of 3,807 against permitting the sale of liquor compared to 2,073 for the proposal. 42 of 44 boxes complete.

MAJOR IN JAZZ AT SAM HOUSTON
HUNTSVILLE, Tex., Oct. 11 (AP) Jazz has been added to the curriculum at Sam Houston State College.

Charles Leo Hill, 37, who has a master's degree in music but who toots a hot saxophone, has been added to the faculty as "director of popular music."

STATE POLIO AID IS EXPEDITED
SAN ANTONIO, Oct. 11 (AP) Relief money from the Texas polio fund committee totalling \$125,441.50 has already been sent to 30 chapters in communities throughout the state where infantile paralysis has broken out.

AIRLIFT VISIBILITY PICKS UP A BIT
WASHINGTON, Oct. 11 (AP) To help keep the Berlin airlift running through the dark days and storms of this winter, special lighting equipment is being installed at Tempelhof Field, Berlin.

Mothers' Clubs To Give Cup To Best Sophomore

An outstanding sophomore will be presented an award by the State Federation of A&M College Mothers' Clubs of Texas, according to Mrs. Warren A. Gilbert, third vice president of the federation.

Meeting in San Antonio, the executive board of A&M Mothers' Clubs voted to give a large silver cup to the outstanding second-year cadet. Competition will be based on character, military proficiency, attention to duty, and leadership.

On the cup will be engraved the legend indicating the nature of the award and the sponsors, and each year the name of the winning cadet will be added. It was stated. The cup will remain on display either at ROTC Headquarters on the campus or in the trophy case of the Academic Building. A scroll engraved with the same legend as the cup, will be presented to the cadet.

Mrs. Charles Tate of San Antonio is president of the State Federation of A&M College Mothers' Clubs.

YMCA CABINET, 7:15 p. m., Monday, Cabinet Room, YMCA.
47TH COMPOSITE GROUP ORGANIZED RESERVE, 7:30 p. m., Thursday, Petroleum Lecture Room.

Tau Beta Pi Society Will Be Installed Today in Sbis Hall

By B. F. ROLAND
The Texas A&M chapter of Tau Beta Pi Society will be installed and 86 alumni and undergraduate candidates will be initiated into membership today at 5:30 p. m. in Sbis Hall.

The initiation and installation will be conducted by the National Officers of the Society assisted by A&M staff members who are members of the Society.

The President of Tau Beta Pi, M. M. Gory of Michigan State College; R. H. Nagel, secretary-treasurer, University of Tennessee; Charles H. Spencer, University of Michigan; K. W. Spencer, University of Maryland; R. C. Matthews, University of Illinois; and H. W. Barlow, Dean of Engineering, will participate.

A banquet at 7 p. m. will follow the initiation and installation. W. Lynch, class of '22, Executive Vice-President of the Texas Power and Light Company, will be the principal speaker.

The officers of the new chapter are Howard R. Oliver, president; Ralph L. Shannon, vice-president; Marvin G. Simmons, recording secretary; Billy J. Shields, corresponding secretary; Elmo C. Livingston, treasurer; and William B. McDaniel, Jr., cataloguer.

The Faculty Advisory Committee consists of Howard W. Barlow, Dean of Engineering; Norman F. Rode, Electrical Engineering Department; Spencer J. Buchanan, Civil Engineering Department and W. E. Street, Engineering Drawing Department.

The local chapter will be known as Texas Delta and will be composed of 48 members of the senior and junior classes in the School of Engineering. In order to be eligible, candidates must exhibit qualities of leadership and character and have a grade point ratio of 2.00 for seniors and 2.75 for juniors.

Tau Beta Pi is the oldest, most respected, and best known scholastic honor society in the country and has a total of 82 chapters in the United States. Other Texas chapters are at Rice Institute, Texas Tech and the University of Texas.

B. D. Marburger Ex-BCU Head Dies in Hospital

B. D. Marburger, 66, former head of building and college utilities of the A&M College of Texas, died in a hospital at Bryan yesterday. He had been ill several months.

Marburger was a graduate of A&M in the class of 1904. A civil engineer, he was employed by the Southern Pacific and Missouri Pacific lines and at one time was division engineer for the Katy Lines.

Having been with A&M 28 years, he was a professor of the civil engineering department, and did research in railroad matters. Later he became head of building and college utilities in 1930 and retired two years ago.

Physics Majors To Meet Tomorrow

All A&M students majoring in physics are to meet tomorrow at 5 p. m. in Room 36 of the Physics Building. Dr. J. G. Potter, head of the Physics Department, has announced.

The purpose of the meeting, according to Potter, is to fill out placement office forms for those men who will graduate this year and to plan advanced physics courses for the spring semester.

members are asked to devote some of their free time to the erection of chutes and preparation of the arena. Work will continue each afternoon until opening night. Tickets are available in all dormitories from Saddle and Sirolo Club members or from Earl Guthrie, Room 128 Dorm 8.
