

Annual Conference of A&M Experiment Station Field Staff Workers in Second Day of Meeting

'Daily Texan' To Feature Stephens In Turkey Edition

The Daily Texan, student newspaper of the University of Texas, is planning to run a feature on Jim Stephens, A&M's head, will leader in a special Thanksgiving edition.

Kenneth Bond, co-editor of the Battalion, received a letter from Daily Texan Editor William H. Smith yesterday disclosing this information and asking for a picture of Stephens to use with the feature.

Art Howard, Battalion sports editor, received an invitation from the Daily Texan sports editor last week to send a column to be used in the Thanksgiving edition.

Howard has already sent his column to the Texan giving his angle on what the Aggies plan to do about Paul Campbell and Company in Memorial Stadium Turkey Day.

The Texan staff plans to run a 48-page Thanksgiving edition with 16 sports pages.

The annual three-day conference of the local and field staffs of the Texas Agricultural Experiment Station opened yesterday afternoon at College Station. Business meetings were held in the Chapel and other rooms of the College YMCA.

In attendance were research workers of 16 subject-matter departments in the agricultural set-up of the A&M College System, and the technical staffs of 22 substations, 12 field laboratories, and 10 cooperating U. S. Department of Agriculture field stations.

Chancellor Gibb Gilchrist opened the conference with a discussion of the challenge to research workers in the A&M College System. Other speakers on the afternoon program included T. F. Mayo, head of the English Department; S. E. Jones, vice director of the Station; J. D. Prewitt, vice director of the Extension Service, and J. S. Rogers, representing the Committee for Academic Training.

BILL KRAUSE of Houston Texas has been named to fill the role of Horace Giddens in the Aggie Players production of The Little Foxes which opens for a three day run in the Assembly Hall on November 18.

Reports on trips to foreign lands in the interest of research were made last night by three staff members. E. Mortensen gave his experiences in Greece. Meta S. Brown told of the Genetics Congress in Stockholm, Sweden, and J. W. Manning described crop explorations in Latin America.

Observations on research activities by Vice Chancellor D. W. Williams opened the program this morning. Station Director R. D. Lewis discussed the research program in general. Other speakers were Howard Goss of the Station Soil Conservation Board, Assistant Director R. E. Patterson and Executive Assistant Reed McDonald.

Judging Team to Be Named at Banquet

Members of the poultry judging team will be announced at the annual banquet of the Poultry Science Club November 19.

The team is composed of four senior poultry majors coached by E. D. Farnell. They will leave for Chicago on November 26 to compete in the National Collegiate Poultry Judging contest with twenty other college groups on November 30 and December 1.

The A&M team placed second last year in this contest.

Kramer Conducts Supervisory School

A. L. Kramer, instructor in the Industrial Extension Service, is currently conducting a two weeks course for supervisory members of the staff of the Abilene State Hospital. E. L. Williams, IES director said today.

Supervisory training is offered by the IES not only to Texas industry, but to the various tax supported agencies and institutions of the state, Williams stated.

A cash register may have as many as 250 gears.

MISS BETTY FULLBRIGHT, Sweetheart of the ABC Ball, and **E. H. PIETSCH** glide around Sbis Hall during the Ball. Miss Fullbright represented the Composite Regiment.

CYPRUS GOVERNOR RESIGNS—Lord of Cyprus, the British Island colony, Lord only in the eastern Mediterranean, Winster has resigned as governor the colonial office announced.

COPE'S CONFECTIONERY opened for business recently at the North Gate. The confectionery is wedged into the triangular space between the Campus Theatre and Weiss Clothing Store.

Nine Points Cost Ga. Tech \$125,000

NEW YORK, Nov. 15 (AP)—Just to show how tough this "amateur" football business can be, a little matter of nine points in two games probably cost Georgia Tech \$125,000. The figure may not be exact, but that's what we've heard the Sugar Bowl was offering each team. Tech was all set for the New Orleans bid until it lost 13-8 to Tennessee and 14-12 to Alabama. Now the best guess is that Tulane will get the bid—and the dough.

The most eligible bachelor in Bowl society at the moment seems to be Oklahoma U., which could go to almost any of them and be regarded as a first-rate attraction.

Penn State would take a bid for financial reasons — that is the dough to enlarge its field, which seats less than 15,000—but the

JAMES C. HART, president of the Ag. Education Club, presents **JAMES CATO**, center, and **ROBERT M. BAGLEY** prizes of \$60 each for selling subscriptions to The Southern Agriculturist. The prize money will defray expenses for the two students to attend the FFA Convention in Kansas City, Mo.

Trade Publications Made Available To Education Majors

Agricultural Education majors have access to 170 different publications E. R. Alexander, head of the Agricultural Education Department said today.

The purpose of these publications, said Alexander, is to help students keep up with the latest developments in the field of agriculture.

These magazines and journals are furnished by commercial concerns interested in agriculture.

All of these publications are placed on racks in the agricultural education department so that they are readily accessible to students with a few free minutes, Alexander added.

Upon graduation each Ag Ed student is provided with a package containing 60 bulletins which are samples of information that can be had free. "One important thing that a teacher of agriculture should know," Alexander said "is the available sources of free information."

Nittany Lions aren't likely to get one.

If you want to get an explosion out of Tony Savage, Fort Worth Hockey pilot, just ask him about the note he received between periods of a recent Fort Worth-Kansas City game. Tony was getting the boys ready for an all-out effort when an usher appeared with an epistle in neat feminine handwriting: "Tony will you please buy Jack Jackson of Kansas City? I think he's cute."

Cro-Magnon man was so called because the first remains of this prehistoric race were found in the cave of Cro-Magnon, France, in 1853.

A. H. Dept. Buys Lambs

One hundred and twenty feeder lambs have been purchased to be used in a feeding trial to determine how milo gluten meal and dehydrated hay will compare to grain-sorghum, cotton seed meal, and alfalfa hay, James A. Gray of the Animal Husbandry Department, announced today.

The lambs are to be divided into six groups of 20 each. Each group will receive a different ration.

Part of the lambs will be fed a ration of milo grain, cotton seed meal, and alfalfa hay, while the remainder will be fed on rations of milo gluten feed and dehydrated hogari hay.

The lambs will be weighed every 28 days for three months, to check individual gains.

At the end of the feeding period it will be possible to tell how the milo gluten feed and dehydrated hogari compare to the present feeds, Gray said.

Caudill Appointed To Planning Board

W. W. Caudill, professor in the Department of Architecture, has been appointed to a committee of the American Institute of Architects.

The special "Committee on School Buildings" is for the purpose of studying the principles of planning up-to-date school buildings. Ernest J. Kump, another school architect, is chairman of the committee of which Caudill is a member.

Caudill is serving as technical secretary and consultant on the "School Plant Study Committee of the Texas Society of Architects." Recently he was voted into membership of the National Council on Schoolhouse Construction.

"Building for Learning," a film produced by the Department of Architecture and sponsored by the Texas Engineering Experiment Station, was shown by Caudill recently in San Francisco.
