#### CIO 'FOR TRUMAN' AGAINST 'REDS'

PORTLAND, Ore., Nov. 23 -- (P)—CIO President Philip Murray said Monday, the re-election of President Truman was a victory amount. over the Communist Party.

He told the opening session of the CIO Convention that "it is a definitely well established fact that the Communist Party about two years ago determined on exer-cising their might, through Mos-cow, to drive Truman out of the White House.

Murray declared "They didn't care whether Dewey was elected or the devil was elected. They wanted to demonstrate the potentialities of th Communist Party's power.

"But they were whipped. They were licked. They were defeated.

The people of the United States won the fight."

It was the second evidence at the very start of the convention that the right wingers were in full control. The first cheers of the day were given to the first mention of defeating Communism.

#### **A&M** Students Not Responsible For Vandalism

AUSTIN, Nov. 28—Evidence that Texas A&M students smeared red paint on Memorial Fountain Thursday night is not strong enough to warrant notifying College Station school officials, Jack Holland, dean of men, said Friday afternoon. Dean Holland said an enve-lope from a local drug store (Renfro's) which had been us-ed for a paint brush was found near the fountain.

The letters "AMC" were

painted on a corner post at the fountain, and the statue of the women had been splattered.

No request had been made to Austin police that they try to find the vandals.

Additional night watchmen have been assigned to the campus to guard Memorial Fountain, Main Building, and the Mustangs statue between now and the Thanksgiving game.

The defense army of Israel takes an extremely serious view of these actions," the Israelis told Brig. Gen. William E. Riley, chief of the U. N. team.

Previous reports in Tel Aviv have said the Egyptians were just about expelled from Southern Palestine except in the Gaza Coastal area. Israel informed the U. N. in Paris last week she had withdrawn from the Negev all troops not there before Oct. 14.

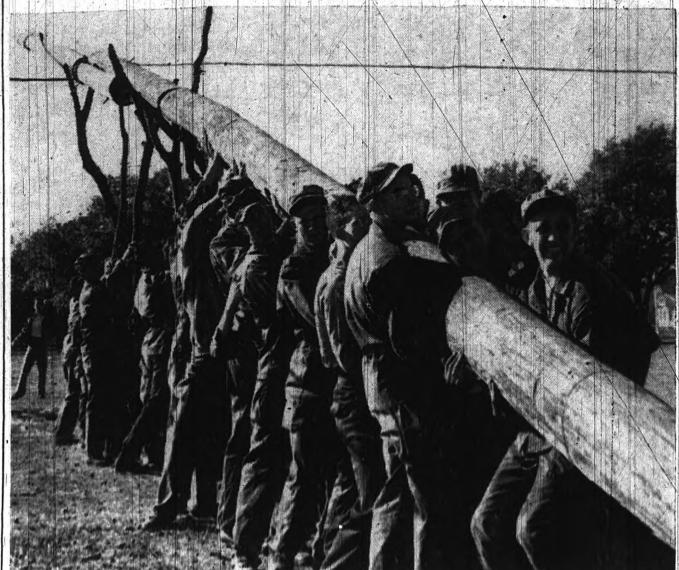

Israeli spokesman asserted the Egyptians took at least three heights east of Rafah—Tel Elfar, Tel Eljama and Khirbet Khutchan Heights. It was not said whether Jewish troops took counter action.
