only one program should be made, but there was a difference of opinion in the type and size of program to be printed. After a lengthy discussion the decision was reached that the program presently planned was inadequate and a revision was necessary.

Plans were made for a sub-committee to meet with Dean Harrington to decide on the amount of space which will be necessary to adequately cover the activities of All-College Day. The R. V. representatives were asked to meet with Colonel Becker to see if a revision of the presently planned program was acceptable to the Ross Volunteers. After these groups meet, plans will be made for the printing of an enlarged program.

Before adjourning the all-college day committee decided to have another meeting on Wednesday, January 26, at 5 p. m. in Dean Barlow's office.

Traffic Rules And Penalties Being Reviewed By Senators

Editors Note—A committee from the student senate is currently engaged in making a survey of the automobile traffic problem at A&M.

Committee members have requested students to submit their opinions and ideas concerning the present traffic set-up to any member of the committee for consideration. As an aid to those students wishing to make recommendations to the committee, a list of the college regulations governing automobiles, and the policy followed in dealing with violators of those regulations is printed below.

Regulations
 Section 1. The Texas laws governing the driver, the vehicle and the streets are effective on the campus at A&M College, and will be enforced.

Section 2. Students are required to park their vehicles in assigned areas and walk to class. Special driving and parking privileges may be issued by the Campus Security Office for those persons where need is established.

Section 3. Students and employees will park in their assigned parking areas and will enter and leave these areas by the most direct route.

Section 4. No person shall drive a vehicle in such a manner as to endanger the person of a pedestrian.

Section 5. No person shall drive a vehicle at a greater speed than 20 miles per hour within the area of the campus. Twenty miles speed limit signs shall be maintained at all entrances to this area. Unnecessary sounding of horns is prohibited in this area.

Section 6. No student or employee will have in his possession a motor vehicle on or near the campus for a period of 48 hours without having it registered with the Campus Security Office. Operating an unregistered vehicle on the campus is a serious offense.

Section 7. No student or employee will drive a motor vehicle registered with the Campus Security Office to which there is not attached a campus registration plate or certificate.

Section 8. No person shall park in a space designated for "No Parking" such as in front of fire hydrants, loading zones, building and walk entrances or on the side of the street designated for no parking.

Section 9. U. S. Government, State and College owned motor vehicles are not required to be registered but are subject to all regulations.

Section 10. Motor vehicles operated on the campus must be effectively muffled. Scooters and motorcycles must be as effectively muffled as a modern automobile and will be inspected before registration is complete.

Section 11. A record of money accruing from reinstatements of permits will be kept and audited and at the end of each semester this money will be made available to a fund for the betterment of student life on the campus.

Pledge
 In making application for registration of a motor vehicle, each applicant signed the following:

"1. I agree to operate a vehicle in accordance with traffic regulations and to contribute my share to the safety and convenience of all.

"2. I agree to park the vehicle in a space provided for my convenience and assigned for my use.

"3. I agree to return the identification plate in case my driving privileges are suspended or revoked.

"4. I agree to allow my motor vehicle to be operated or parked on the campus only when it is covered by a valid permit.

Handling Traffic Violations
 First violation—The operator is warned by tagging his car.

Second violation—Driver will be called in and fined \$1 dollar for each violation incurred up to the time of his appearance.

Next violation—Operator will be called in and fined \$1 for each total number of violations recorded.

Exams Opened For Industrial Posts

 will faithfully execute the office of president of the United States and will, to the best of my ability, protect and defend the constitution... so help me God."
 The words were to be carried to all corners of the nation by every major radio network. And for the first time in history spectators at television screens hundreds of miles away could see the ceremony.
 Then, time out for the chief executive to snatch a fast snack.
 After that, the inaugural parade—two and a half hours of it with Mr. Truman himself leading the procession triumphantly down to the White House.
