

Yearbook Lacking Three Vet Photos

The Aggieland 1949 has activity cards for three students for the senior veteran section but no pictures to accompany the information, according to Truman Martin, co-editor of the annual.

John W. Gupton, Herbert Rogers and Joseph L. Weatherford have turned in information on their activities. Martin said that if these students were still in school, they should come by the yearbook office immediately to see him about a picture.

Campus Regulations Announced For New Car Owners on Campus

Campus traffic regulations for the benefit of new students who may own cars have been announced by Fred Hickman, chief of Campus Security.

College regulations require that each vehicle must be registered with the Campus Security within 48 hours after it is brought on the campus, he said. At this time an identification plate will be issued which should be attached in a visible position on the front of the vehicle.

Parking areas have been assigned for vehicles belonging to students and employees and for all other vehicles on the campus. If the student is in doubt about the correct parking area for his vehicle, he should consult a member of the Campus Security Police. Employees are provided with parking areas in the vicinity of the buildings in which they work.

Proper parking areas for students are listed below.

Day students: Parking area north of Petroleum Engineering Building, Parking area west of Temporary Classroom Buildings

Dorms 1-3-5: Parking area east of Dorms 3 and 5

Dorms 2-4-6-8-10-12: Parking area behind Dorm 12 and Trail Street

Dorms 7-9-11: Parking area south of Dorm 11

Hart: Parking area behind Hart Hall

Purveyor, Law, Leggett, and Mitchell: Parking area west and north of Law Hall

Milner Hall: Parking area north of Milner and east of Sbis Hall

Walton Hall: Parking area north of Walton Hall

Dorms 15-16: Parking area east of AAA Building, east lane only

Dorms 14-17: Parking area west of Dorm 17.

No person shall drive a vehicle at a speed greater than 20 miles per hour within the area of the campus or its entrances. Unnecessary sounding of horns is prohibited, Hickman said.

Students are not allowed to drive to classes since there is only one parking area allotted for any vehicle on the campus. Students are required to park their vehicles in assigned areas and walk to classes. Special driving and parking privileges may be issued by the Campus Security Office for those persons who have special needs.

Motor vehicles operated on the campus must be effectively muffled. Scooters and motorcycles must be as effectively muffled as a modern automobile and will be inspected before registration is complete.

U. S. Government, State and College-owned vehicles are not required to be registered but are subject to all regulations. All Texas laws governing the driver, the vehicle, and the streets are effective on the campus and will be enforced, Hickman said.

A record of the money accruing from reinstatements of permits is kept and audited, and at the end of each semester this money is made available to a fund for the betterment of student life on the campus.

CHICAGO, Feb. 3 —(AP)—The principals in the lengthy railroad wage-hour dispute Wednesday asked the presidential fact-finding board to re-enter the dispute and "try and work out a settlement between us."
