

### First Courtesy Talk Scheduled Tonight

Mrs. Fred Smith will give a lecture entitled "The Decency of Behavior" at 7 p. m. tonight in the Chemistry Lecture Room, J. Fred Davis, chairman of the Aggie Social Customs and Courtesies committee. This will be the first of a group of six lectures on the topic of "Aggie Personal Customs and Courtesies."

The talks of this series are primarily for the benefit of those corp seniors who are planning to teach the courses in manners to underclassmen. Both corp and non-corp seniors, however, are invited to the lecture, Davis concluded.

### ACS Will Meet Tuesday Evening

The ACS, Student Affiliates, will meet Tuesday, at 7:30 p. m. in Room 9 of the Chemistry Building, W. R. Oxley, president, has announced.

There will be a discussion of plans for All-College Day. A contest will be organized for original ideas of projects to be used for the All-College Day show. A duchess for the forth coming cotton pageant must also be suggested, Oxley said.

### Pre-Law Society To Elect Officers Tonight in YMCA

Plans for a party on Friday night and the election of spring officers are the main subjects scheduled for the business session of the Pre-Law Society to be held at 7:15 tonight in the Assembly Room of the YMCA, President Chuck Cabaniss has announced.

Pre-law students and their guests will attend the party to be given at the Fin Feather Club, Ben Lampken said. Lampken and other members of the party committee have arranged a schedule which calls for the party to begin at 8:30 p. m., February 11. Meals will not be served until 9 so that guests arriving on late trains will not be inconvenienced, Lampken added.

Persons attending the party will order separately and costs are expected to be between \$1.50 and \$2.75, the committee said. Guests of honor will include the co-sponsors and their wives, Mr. and Mrs. Phillip Goode and Mr. and Mrs. Arthur Stewart.

In addition to the election of officers for the spring semester, night typing classes, discussion of the selection of a Cotton Ball representative for the club, preparation of a pre-law student directory, and planning for the spring radio programs of the organization will be on the agenda, Vice-President Paul Landry reported.

RODEO CLUB, 7:30 p. m., Monday, A&I Building.

### - VARSITY -

(Continued from Page 3)

Little Jackie Miller probably set some kind of record in fouling out of a game when he entered the game in its last stages when Texas was trying to hold the ball. In his efforts to obtain the sphere for the Maroon and White, Jackie had to foul the Texas guard Madsen and soon collected five and had to leave the game.

### Kream, Kow Klub Will Meet Tuesday

The selection of a duchess for the Cotton Ball will be discussed by the Kream and Kow Klub at 7:30 p. m. Tuesday in the Creamery lecture room, according to Ralph Baumheart, president of the club.

Representatives of the Saddle & Siroloin Club also will be present to discuss plans for the Cattlemen Ball.

Baumheart asked that all members of the club be present since it would be one of the most important meetings of the year.

### NEW PHYSICS SECTION ANNOUNCED BY WEEKS

A class of Physics 407, Geophysics, has been organized and will meet on Tuesday and Thursday at 10 and on Wednesday at 1, Professor D. F. Weeks announced today.

### - EASTERWOOD -

(Continued from Page 1)

complete control of the field, acquiring from the Kadett Company the buildings and maintenance and shop equipment located on the airport. It also purchased some government surplus trainers and began operating Easterwood itself.

Two years later the college got a contract with the Veterans Administration for G. I. flight training for regularly enrolled vets in the college. The additional trainers acquired for use in this program brought the number of college planes to eleven, all training ships. About 650 veterans have received this G. I. Bill training at the college airport.

The college acquired its first passenger plane in 1946, a two-engine, five passenger, war surplus ship. This craft is used for transporting officials and members of the staff and A&M Research Foundation on official college business.

Another passenger ship was acquired last October. This single-engine, three passenger

plane brought the "air force" to its present strength of 13 planes. These two passenger planes, incidentally, have been used for 120,000 miles of passenger service for college officials.

A new hangar, obtained through the FPHA, was erected on the east side of the field in the administration building area in 1947. This new structure now houses the offices for the airport manager, college owned planes, and student owned ships as well as shops for aircraft maintenance and repair.

The latest improvements to the field came about last summer when the college, working on an inter-cooperative basis with the CAA, launched another grading and paving project. Airplane and auto parking lots were graded, and ramps and taxi-ways around the new hangar area were paved.

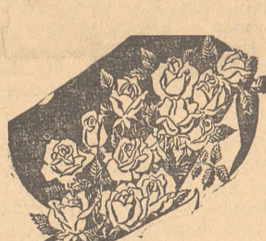

The airport went on a 24-hour operating basis at that time due to the installation of field lights for use in night operation. It currently offers every facility for transient aircraft including plane storage, gas storage, and repairs.

Manager of the field is H. G. Smith, a former general manager and vice-president of the Kadett Aviation Company, dissolved in July of 1944. Smith estimates that an average of 100 or more of the 400 transient aircraft landing at the field each month buy gas and oil there.

Steady customers at the port are army pilots with bases in this area. As many as 150 army planes have landed at the field in one day. The largest amount of civilian air traffic uses the field during weekends of football games, Smith said.

Thus in ten years the college airport has grown from a cow pasture to a busy air terminal. Who knows, they may establish an Aggie line out there in another year?

How rhythmic can a rhythm song be?

You'll know when you hear Blue Barron's new waxing for MGM Records—  
"Powder Your Face With Sunshine"

The Barron has a foot-tapping arrangement here—a combo of Dixie, shuffle and 2-4 time. It's sure-fire styling for a danceable hit tune. And on the flip, Blue puts "Cruising Down the River" into fast waltz time. Blue Barron likes to mix his rhythms—but in smoking, he sticks to one brand —Camel. Here at the right, Blue is telling his vocalist, Betty Clarke, about Camels.

How MILD can a cigarette be?

Make the **CAMEL 30-DAY TEST . . .**  
and you'll know!

Yes, make the 30-day Camel Mildness Test. See for yourself how mild Camels are. In a recent test of hundreds of people who smoked only Camels for 30 days, noted throat specialists, after making weekly examinations, reported

I KNOW HOW MILD A CIGARETTE CAN BE! I'VE SMOKED CAMELS FOR YEARS!

THE 30-DAY MILDNESS TEST CONVINCED ME.

CAMELS ARE SO MILD—AND TASTE SO GOOD!

**NOT ONE SINGLE CASE OF THROAT IRRITATION due to smoking—Camels**

**Money-Back Guarantee!**  
Smoke Camels and test them in your own "T-Zone." T for taste, T for throat. If, at any time, you are not convinced that Camels are the mildest cigarette you ever smoked, return the package with the unused Camels and we will refund its full purchase price, plus postage. (Signed) R. J. Reynolds Tobacco Co., Winston-Salem, N. C.
