

Second Floor Poured As Center Work Progresses

By BOB LINDHEIM

The second story concrete floor in the new Student Memorial Center is already being poured, and next week K. R. Simmons, the general superintendent, hopes to pour the roof on the west end where the hotel will be located.

Already one can see piles of Austin Shell Stone, a limestone with many sea shells imbedded in it, which will be used as the outer covering for the first floor. The stacks of yellow bricks are to be used for the facings of the upper floors.

Actually, three buildings will be constructed, although they will be connected so that the hotel in the west will look as if it is the same building as the main student center, and the game building behind and east of the main center, where pool tables and bowling alleys will be located, will be connected by a covered passageway.

In the main center there will be a kitchen, coffee shop, dining room, PX, post office, fountain room, general lounge, three meeting rooms, and the outdoor dancing terrace will be on the second floor. The twelve chair barber shop and mechanical service rooms will be in the basement.

The hotel will have meeting rooms, a card room, the Student Senate chamber, a music room, and a general office. Thirty-four regular hotel rooms will be located in both the second and third floors. Each room will have its own bath.

Three elevators will be in the hotel and student center besides a dumb waiter for use by the waiters in bringing up food to the second floor from the kitchen.

Eight lanes for bowling and 11 pool tables will be in the game building. Galleries for people in-

terested in watching the contents, will also be constructed.

The sidewalk in front of Guion Hall will be extended to the west through the block in which the Student Memorial Center is being constructed, and another will be built along the parking way which will be parallel to Lamar Street, which is in front of the center.

Simmons said the yard in front of the Student Memorial Center will be terraced and all buildings now on the block will be torn down.

- TEAGUE -
(Continued from Page 2)

WANTED

of 65 or over, regardless of need, naturally involves the operation of the Social Security Act. Some opponents said passage of the Rankin bill would complicate chances of legislation broadening social security coverage.

Teague's war record won him three silver stars, two bronze stars the Purple Heart with two clusters, Croix de Guerre, Combat Infantry Badge, Presidential Unit Citation, and army commendation ribbon.

Teague got a reserve commission upon finishing A&M in 1932. He is married and has a young daughter and two sons. Mrs. Teague is the former Freddie Dunman of Fort Worth.

Although he has to use an especially built shoe and walks with a limp because of an ankle shot away by German gunfire, Teague keeps in trim by playing a fast hand-ball game in the House gymnasium with various Texas colleagues.

Lloyd Gregory, business manager of the Houston Post and former managing editor, addressed a group of journalism and publications students last night.

Gregory said that curiosity and a desire to write were the important essentials for good journalists.

Approximately 40 students heard Gregory's talk.

The names of thoroughbreds must be approved by the Jockey Club.
