Indication of National Sentiment . . .

When a nation expresses such spon-taneous and sympathetic concern for the fate of a little child, as this country has recently shown for Kathy Fiscus, people throughout the world need not doubt the sincerity America is showing for the welfare of the people in other nations.

Competition and individualism may force many showdowns in the field of business but in the field of human emotions and human welfare the heart of America is good and kind and loving.

Of course the news story of this three year old girl, who had fallen into an open and abandoned water well tunnel, had strong human interest appeal. This was just the sort of story that newspapers like to get. But had the story not met with al-

many pictures and stories of rescue activities. Newspaper offices, radio stations and news bureau offices were swamped with telephone calls from interested people inquiring "is the little girl still alive?" Big, rich, brazen America loves little

most universal concern and sorrow the

front pages would not have carried so

children. Perhaps it is because we often act like little children. Whatever the reason, this love is something grand and noble -something our twentieth century life has not changed in us.

As long as this quality exists our country will continue to be brave and generous. And the world will know that If America is ever given the opportunity to say "yes" or "no" to a Belsen or a Buchenwald, American's answer will be "no."

One of our staffmen opined that if

the Army was really intending to clamp

down on dark market sales and this was

the first move in a series to stop it, every-

thing was okay. If, however, they only se-

lected a scapegoat at random and made a

token example of him, the staffer was of-

encouraging thought. If the latter is the

case, the offended lieutenant can make it

all back some night by doubling up on his

nicotine sales in Picadilly Circus.

A copyreader came through with an

fended about it all.

And Finally Someone Got Caught . . .

Members of our staff who were overseas during the late, great conflict read this notice from Burtonwood, England with mixed emotions: (AP quote)

The U.S. Air Force announced today tht First Lt. James C. Walker of El Paso, Texas, had been found guilty in a general court martial of selling American cigarettes to a British subject.

He was fined \$100 a month for six months and given an official reprimand, the Air Force said. (end quote).

Courtesy Pays," the TCU Skiff had this to say about this year's Sportsmanship Award winner, A&M:

The presentation of the Southwest Conference Sportsmanship Trophy to Texas A&M College was almost an unheralded event amidst the festivities of the Texas Relays last weekend at Austin. Only those who knew the real meaning of the award were aware of the honor bestowed upon the Aggies.

"Presence of the trophy at A&M means by their friends.

One consolation is that all those "best dressed men" look awfully uncomfortable. even on a sunny spring day.

Under the editorial head "Constant that in the eyes of the other conference schools the Farmers are the best in displaying true sportsmanship.

> "This decision was not made by a few. It represents the opinions of students, school and conference officials and team members. The fact that TCU was rated next to A&M is an honor in itself."

> We appreciate this attitude of TCU. Students bodies, like people, appreciate reading nice things about them written

SUPPOSE WE REALLY HAD A FIRE? Editor, The Battalion:

Last night we had what was apparently a small fire in Guion Hall. So far as I can determine nobody was hurt except my roommate; he was run over by two bruising tackles from Hart Hall while trying to beat the fire trucks to the fire. Incidentally he won that race by approximately four minutes. But the fire trucks came and jockeyed into position, the hose was yanked off in several knots, and then the fire truck proceeded to back over making it impossible to carry the hose to the fire.

I am not condemning the driver,

because nobody was giving him any instructions, and he had no way of knowing what was going on. Maybe he should be commended, be-cause after all he only backed onto the hose once. Fortunately the hose was not needed.

The point I wish to make is that something was lacking in organization. The spectators cheered wildly at the fumbling ineptitude of our famous fire fighters. Now A&M College has the technical know-how to fight fires, because it is famous for its fireman's short courses. Since this is a voluntary fire department, the firemen must come a long way to the station, and I suppose it is difficult to have an efficient organization at night. But the pathetic situation still remains that College Station is a thriving metropolis of 1,500, three fire

Letters To The Editor

have a man in charge of each group corps. with adequate training and a voice And, of command. We should study these things out in advance in-

pen to one of these areas some windy night at two a. m. in the morning, with no firemen answer-ing the call. It is my firm belief that if more authority and respon-sibility was placed in the hands of the capable students that A&M as a whole could be improved.

W. S. Dalby '48

UPHOLDS COLONEL BOATNER Editor, The Battalion:

I have followed, with a great deal of disgust, the letters concerning the action of Colonel Boatner. I am not very proud of these supposedly 100 per cent Aggies who wrote them.

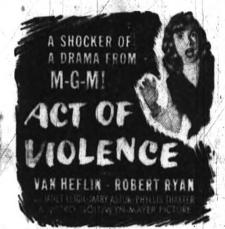

Everyone, these gentlemen in-cluded, agree that A&M is in a hell of a shape, but no one does anything about it. If action speaks louder than words, then most of us Aggies sound like Jane Wyman, in "Johnny Belinda,"

We bemoan the fact that the Fish are out at the Annex, and we brag about the great Aggie spirit "that we used to have." But, meanwhile, what do we do to keep this spirit alive? Practically nothing. The whole story is: We have fallen down on our job, and the Fish be-
