A Man With A Swimming Plan . . .

About this time of the year when the weather starts getting hot, the student's thoughts turn toward getting cool, and naturally they think of going swimming-

An indoor swimming pool is fine, especially in the winter, but in the summer it doesn't quite fill the bill. So, for the A&M student it's the Bryan Country Club,

the clay pits, or Fish Lake.
In Fish Lake near Easterwood Airport may be found the ideal solution for the outdoor swimming problem. Although it is surrounded by lillies and underbrush, sweltering Aggies haven't let that stop them. Almost every day you will find several of them there enjoying the pleasures of the outdoor life. Other students take their wives and dates there for Sunday afternoon picnics.

All in all, it offers a pleasant spot, near the college, for students to have an outing. But the striking thing is, that with just a little effort, it could be a much more pleasant place.

The place could be cleaned up and made into an ideal picnic area. The weeds could

be taken away from around the edge of the pond and a platform built in the center and the result would be an excellent

"swimming hole." Since the college seems to be concerned with recreation, especially during the summer months, this would be a good place to spend a few dollars for improvements.

The initial cost of the operation would naturally be somewhat larger than the continued upkeep. A road of some sort would have to be constructed in to the area and the underbrush would have to be cut away. A few boats there would also provide an excellent form of exercise for relaxing students.

As it stands now, the place has unlimited possibilities. If the movement could get started, maybe the lake could be restocked with fish for those who like this

Combining all these we would have a place for swimming, picnicing, fishing, boating, and various other outdoor sports.

We feel sure that the student's are behind such a movement. So the only other question that remains is "Can we get it

Interesting Information from TSCW . . .

TSCW Daily Lass-O's front and editorial up. (front page quote).

Scheduled for Oct. 15 in Fort Worth, the Corps Trip will be a one-day affair to and from Fort Worth for the girls and

The main pre-game events will be an all-college dance here on Friday night, especially inviting Aggies, and a midnight yell practice on the campus following the dance. The students dates will be housed free of charge by the College that night and Saturday hight also if they desire.

In Fort Worth, the College will provide a large headquarters room in the Hotel where students may meet their friends and dates and leave their bags. The school will also reserve rooms where the girls can change their dresses. For returning to Denton, the chartered buses will start leaving Saturday night at convenient intervals, with the last ones coming back after the all-college dances there are over

Although students will not be compelled to return on Saturday night, the College will assume no responsibility for chaperoning a weekend trip. And the one-day plan, which was used until the Corps Trip

The Passing Parade . . .

This encouraging note from Atlanta once more restores our faith that no matter how wrong and inhumane and unthinking a people may be, they will eventually, by degrees, correct these faults. (AP

No longer will this capital of the Ku Klux Klan allow the hooded order to wear

The following are excerpts from the was resumed after the war, has the advantage of being less expensive, easier on pages concerning their new corps trip set the students and better for maintaining the standards of the College. (end quote).

(Editorial quote): The plan is not intended as a restriction on the students. It with activities planned here at TSCW for is not even made compulsory. It is worked Friday night and chartered buses running out for the benefit of the student body as a whole, and if carried out by the students in the spirit in which it was planned, the Corps trip will become a credit to the school more than a possible blot on its

The Corps Trip is a tradition which is one of the strongest ties with our brother school, A&M. The TSCW students welcomed the resumption of this special trip after the war, and the old one-day program was abandoned. Then the program began to get out of hand. After this year's trip to Dallas, parents and students complained about many of the things which went on in the hotels in Dallas. And the College realized that it could no longer take responsibility for a weekend of entertainment when it was clearly impossible to provide adequate chaperonage.

Each student must feel responsible for the reputation we want TSCW to have, for the whole group is judged by the conduct of its individual members. This plan will make it easier for us to uphold our standards and maintain a reputation which TSCW deserves. (unquote).

masks in public. The city council voted unanimously yesterday to outlaw masks except for holiday celebrations such as Halloween. (End quote)

Now just to help the KKK's along, we should let them wear their little bed sheets and masks for one holiday a year-All Fools day.

Turner Stages One Night Stands in 'Three Musketeers'

By ANDY DAVIS

The Three Musketeers (MGM) staring Lana Turner, Gene Kelly, June Allyson, and Van Heflin. (Guion Sat).

This technicolor version of Alexander Dumas' classic has everything one could ask for, including action, suspense, romance a la Turner, and humor a la Kelly.

With Gene Kelly as the acrobatic swordsman, D'Artagnan, Lana Turner, as the notorious Lady de Winter, Van Heflin as Athos, and June Allyson as Constance, "The Three Musketeers" get off to a start with a

The Kings men or the musketeers take it upon themselves to keep Richelieu, Vincent Price, from dragging France into a bloody war with England. But with Lady de Winter in the game, mixing businight stands, their tasks are made

Lady de Winter is finally captured in England, but manages to escape, after murdering Constance and the Duke of Buckingham, the Queen's lover. D'Artagnan swears revenge for Constance death, and makes good his threat, when Lady de Winters head is sheared from her body from the blow of a sharpened axe. After Richelieu is removed from office, the musketeers are given free range of France to do what they please.

The sword play and roof top jumping is fast and furious, with Gene Kelly supplying most of the action. The cast is outstanding and the film is tops from start to fin-

Letters To The Editor

OUTFIT BLOC VOTING

TO the Class of '51: Sometime next week the sophomore class will hold an election of officers for next year's junior class. The object of this election, as is the prime importance of every election, is to choose the best man for the job. Many outfits, however, have banded together with the idea of putting their men into office regardless of who else is nominated. As a result, the whole class is divided into three or four "blocs. butting their heads against each

It matters not if the man wears Air Force brass, marches with the Cavalry, or lives in Bryan, he's still an Aggie—an Aggie in the Class of '51!!! If he can take the pieces of our disunited class and mold them into what we wantthe best class that has ever gone through A&M-he's the man for the job and the man we want!

The vote should be made by secret ballot and not by count of heads in a mass meeting where everyone sits with his outfit and votes the way the outfit does. The

Blue Bonnet Farm The Largest . . **Funds Not Okeyed**

The State of Texas will not grant A&M the necessary funds to continue operations on its vast 17,000 acre Bluebonnet Farms near Mc-Gregor, according to State Senator James E. Taylor, finance committee chairman.

The legislature plans to refuse to grant any money whatsoever, according to Taylor; the House and Senate have already refused the necessary appropriations for the new proposed experiment sta-tion facilities of which the Bluebonnet Farms is one.

A&M accepted the deed to the vast Bluebonnet spread from the War Assets Administration, promising to develop it into a manysided crop and livestock experiment

Secretary of Agriculture, Charles Brannon visited the farm yesterday, and it is believed that the Federal Government is considering furnishing the necessary money for keeping the farm in operation.

Mrs. Crocetti talketi shyly of she took over the business.

how as a widow she had mide a success in an industry dominated by men.

"Being a woman is no handicap," she smiled, "because I have such such she smiled, "because I have such such she she work. I like to do the collecting. It's more fun," she said.

Those in the industry say, however, that Mrs. Crocetti is a shrewd

every detail of tile contracting.

"One of the biggest problems is to keep the tilesetters happy," she said. They are skilled craftsmen. and they are as temperamental as

They work in teams—a tileset ter and his helper. And we call them 'husband and wife.' A good team is something like a happy marriage. They want to stay to-

But if the team quarrels and the two men don't work well with each other—well, one of them has to take a trip to Reno."

About 75 per cent of the tile setters are of Italian descent. She has three children. One son-teaches sociology. Another is a graduate student in psychology. Her daughter, Emma, 17, is in col-lege here.

"The only one in the family who wants to go into the tile business is my three-year-old grandson," she said. "He wants to drive a truck for me."

LAST DAY

culation with a four-tiered formula after squaring equations (8) and (9). The plane is lost in a cross wind with the pilot eating a lettace and tomato sandwich, or something.

Not to leave out the lighter vein peop, page eleven darries the introduction to "Smollet and the Powerful Serum," One bemuddled Aggie student (presumably an en-Powerful Serum." One bemudded Aggie student (presumably an engineer) has just failed another Physics quiz. But one of the profs has a solution for his troubles. His magic serum will give Smitlet power to work all math, physics and chemistry problems. In fact he will even be able to "square the circle," so the prof tells him. Smollet drank the magic potion and practically drove the dean mad. He passed a quiz. But it was too much for him, so he prevailed upon the potion mixing prof to give him the antidote. TECHNICOLOR!
