

LIVESTOCK

(Continued from Page 1)
ship of horses event, Carl M. Cater of Waller, was named champion horse showman in this class for his superb exhibiting of Chapparita, Reserve Champion Showman of Horses for Saturday evening was A. Andrews, Anchor City.

James R. Stroebe, Waxahachie, carried off top honors in the Angus showing and Frank Sims of Stamford took Reserve. For the championship beef cattle contest, Jim Bob Steen received the title of Champion Beef Cattle Showman and was followed once more by J. R. Straus, chosen Reserve Champion for this event.

Frank Dyer, Del Rio, took first place in sheep showing and C. H. Olsak of Park Place received second place honors.

Calf roping was an up and down affair for the competing men. Four suffered from bad breaks or poor throwing to receive no time for the event. The winning time, held by Jack Kingsberry, was 15.2. The calf victim had barely gotten out of the chute when the rope settled about him and brought him to a quick end. Max Ward's calf had a little more space covered before he was laid low. Max took second place with the time of 23.9.

The loudest cheering of the evening accompanied the cutting horse event. Saturday's winner, stacked up exactly like Friday Clem Boettcher, East Bernard, on Luck Penny placed first both nights. V. O. Hildreth, Alamo, on Flying H. placed second. Sonny Bahner, Mackay, with the horse Vinesar, and Bob Woodard on Rocky took third and fourth respectively.

Boettcher's horse, Luck Penny, performed some neat dancing routines while convincing the calves they were to obey. Penny, who was Grand Champion Cutting Horse at the Harris County, Fort Bend County, Wharton County, and the South Texas Breeder-Recorder Show at Beeville, seemed to know what the calves were going to do before they did it. All the horses really put on a show for the folks.

The men entering this event with the exception of V. O. Hildreth, were not students of A&M. All are known throughout the state for the rides they turn in on their skilled horses. These individuals donated their time and traveling expense to give an added attraction to the show.

Saturday's night-winner in the Reining Horse event was Furlong with his rider Ted Holcamp. Furlong had not worked in Friday's contest and consequently placed last in the final rating. V. O. Hildreth carried off the final honors with Flying H. Hildreth had placed first in Friday's ride and second on the following night's. Jack Kingsberry had won second place Friday and third place in Saturday's ride.

A five-gaited exhibition was put on by Arnold Pessin, AH major from Longview, riding Squire McDonald, Squire shifted

A&M Represented In Rondelet Court

Representing A&M at the annual Rice Rondelet Saturday night were Aggie Sweetheart Pat Parker and Chuck Cabanis. The Rondelet, sponsored by the Women's Council of the Houston school, was held in the City Auditorium from 8 o'clock until midnight.

Began two years ago, the Rondelet replaced an annual May fete as the outstanding spring social event at Rice Institute. The king and queen of the festival were attended by a court of 44 Rice students and 14 representatives from other schools.

John Perlitz, of Austin, a senior pre-law student, was crowned king at the beginning of the 45 minute ceremony. The visiting duchesses and dukes were then

from one gait to another with flawless ease.

At the conclusion of the two-night show the awards were given to the deserving contestants. Grand Champion Showman of the Little Southwestern Livestock Show was Carl M. Cater because of his expert handling of his horse. Cater practically cleared the trophy table since he won the loving cup presented by the Saddle and Sirolo Club to the Grand Champion and also a trophy donated by E. P. Waggoner, Three D's Stock Farm, for the Champion Horse Showman.

Reserve Champion Showman was Frank Dyer. He was a double winner since he received the Loving Cup donated by the Saddle and Sirolo for being the Reserve Champion and a Silver buckle set and belt donated to the winner of the Sheep Showing event by Texas Delaine-Marino Record Association.

Herman C. Huddleston Jr. received a trophy given by the Texas Swine Breeder's Association. The Champion Hereford Showman, Jim Bob Steen was another contestant who pulled down two prizes. He received a check and a Parker Pen given by the Texas Hereford Breeders' Association and the American Hereford Breeder's Association respectively.

James Stroebe carried off two prizes also. With his crown of Champion Aberdeen Angus Showman went a trophy and a check, both donated by the Texas Aberdeen-Angus Breeder's Association.

V. O. Hildreth received a trophy given by Walter S. Britten for the Champion Reining Horse event and Clem Boettcher was given a trophy by the Saddle and Sirolo Club in recognition of winning the Cutting Horse Contest.

Winners in the stock-judging contest held Saturday morning were also announced at the finish of the Livestock Show. Sophomore winners were J. R. Pavelka, Bellville, who took first place with 716 points; C. F. Price, Paris, 712 points and D. C. Messick, Memphis, with 708 points. Freshmen award-honors were D. L. Davis, Dallas first place with 732 points; M. M. Soyler, 719; Frank Prochaska, Robstown, 717; and R. M. Maddox, Alvarado, 707. Possible points to be gotten were 800.

Issues Class To Hear Suman

John Robert Suman of Houston, former vice-president and director of Standard Oil, will speak to the Great Issues Class at 8 tonight in the Chemistry Lecture Room on "The Worlds Over-all Oil Problem". He will be accompanied by D. B. Harris, who is vice-president of Humble Oil and an Aggie-ex.

Suman has had 30 years experience in the petroleum industry as an engineer, geologist, and executive, and is the author of a book, "Petroleum Methods", which has been a standard reference work for years.

He has been associated in the past with Humble, Rio Bravo Oil, and Roxanna Petroleum Corporation. A graduate of the University of Southern California. He has a son, Richard, who graduated from A&M in 1948.

Suman is credited with a major part in the development that made Humble Oil a leading petroleum producer. Suman will follow up his speech tonight with a question and answer session tomorrow morning at 11 in Bolton Hall. The public may attend both of the sessions.

Accounting Club To Meet Tuesday
The Accounting Club will meet Tuesday night, at 7:30 p. m. in the Agricultural Engineering Lecture Room, according to David Sharp, president of the club.

Purpose of the meeting is to elect officers for next year, Sharp said.

English Group To Hear Stadelmann
Dr. Joseph Stadelmann, of the Modern Languages Department, will address the English Discussion Group Monday night, at 7:30 in the South Lounge of the YMCA. Dr. Stadelmann will speak on Nietzsche.

Everyone interested is invited to attend, according to R. W. Barzak, secretary of the group.

AWARDS
(Continued from Page 1)
members of the rifle team, which placed second in rifle competition within the Fourth Army area. Those receiving this award were Cornelius C. Duff, James McCully, George Kent, Cliff Taylor, and Claude Buchanan.

B Engineers was announced as the outstanding engineer company and received the Troland Trophy, a silver cup. The award was received by W. E. London, commander of the unit.

The Wolters Trophy, a silver cup, was presented to A Troop Cavalry, commanded by J. A. Sand. This cup is presented annually to the best drilled cavalry troop.

Tom Reynolds was named winner of the Adcock Trophy, a cup and medal. It is presented annually by the Engineer Corps members of the class of 1949 in memory of the late Colonel T. A. Adcock, to the outstanding junior cadet in the Corps of Engineers.

David F. Schelski was winner of the Lucie Hughey Lane Scholarship Award, a \$200 cash presentation. This scholarship was presented by the Texas Society of the United States Daughters of 1812 and is given each year to a sophomore cadet enrolled in the School of Arts and Sciences.

The four best drilled units in the Corps were announced as being A Air Force, E Artillery, Maroon Band, and A Cavalry. These units will be awarded distinctive streamers which will be attached to, and become a permanent part of the organization guidons. Commanders of these organizations are Fred Hambright, Bob Smith, Hiram

Crops Damaged By Cut Worms

Dr. H. G. Johnson, Entomology Department, reports that several sections of Texas are heavily infested by cut worms. Heavy damage is being done to cotton and corn crops in the north central part of the state, ranging from the Arkansas line, south to Corsicana and the western part of the state as far as Hamilton County.

In some areas, according to Dr. Johnson, some farmers are having to replant crops because of severe damage by cut worms.

Dusting with 5% DDT applied at the rate of 20 to 25 pounds per acre is effective for control. Dr. Johnson said. However, duster nozzles should be adjusted so that the ground is thoroughly dusted.

According to a report Johnson received from the Dalhart area, cut worms are damaging wheat in the field.

Smith, and John Sanders.
A. D. Martin was named the outstanding cadet corporal of the Corps and received the Federated A&M Mothers' Clubs of Texas Award, a bronze cup and key.

The best drilled sophomores in each unit were announced as Berttram Beercoff, Maroon Band; Charles Neeley, White Band; C. L. Pence, A Infantry; W. D. Barnes, B Infantry; R. B. Naler, C Infantry; H. C. Atchison, D Infantry; Jerry King, E Infantry; W. C. Henkhaus, A Artillery; A. D. Martin, B Artillery; J. D. Hinton, C Artillery; M. J. Davis, D Artillery and F. L. Sheffield, E Artillery.

D. L. Hopkins A Air Force; P. C. Murray, B Air Force; Dale Keelan, C Air Force; Burt Bailey, D Air Force; Jack Raley, E Air Force; W. C. Nutt, F Air Force; Tom Flukinger, A Engineers; C. C. Taylor, B Engineers; John McFall, A Cavalry; and Noble N.

DU PONT Digest

For Students of Science and Engineering

TEN UNIVERSITIES TO BENEFIT BY GRANTS FOR UNRESTRICTED FUNDAMENTAL RESEARCH

With a view to stock-piling basic knowledge in science, the Du Pont Company has announced a program of grants-in-aid for the college year 1949-50 to 10 universities for unrestricted use in the field of fundamental research in chemistry.
The grants-in-aid of \$10,000 each are to be used for research that has no immediate commercial goal. The universities themselves are to select the projects in which the grants will be employed, and results of the research are to be freely available for publication.
HOW FUNDS WILL BE USED
Du Pont's purpose in offering the grants is to help insure the flow of

fundamental knowledge in science upon which the future industrial development of our country is so dependent. It is intended that the funds be utilized for such expenses as employing additional research personnel or lightening the teaching load of a professor who is eminently capable of research of a high order. They may also be expended for the purpose of obtaining supplies, apparatus or equipment.
GRANTS ARE EXPERIMENTAL
This program of grants-in-aid is largely experimental. However, it is Du Pont's hope, should the program work out satisfactorily, to continue each grant for a period of five years.

Four of Many Outstanding Du Pont Fellowship Winners

Dr. Wendell M. Stanley, at University of California, is Chairman of the Department of Biochemistry in Berkeley and in the Medical School at San Francisco. Director of the Virus Laboratory. Bachelor's degree at Earlham College, 1926; M.S. at Illinois, 1927 and Ph.D. in Organic Chemistry, 1929. Honorary Doctor's degree from five prominent American universities and the University of Paris. Has received more than 10 medals and awards for distinguished work in chemistry and biochemistry; co-reipient of the Nobel Prize in Chemistry in 1946. Du Pont fellow at Illinois in 1928-29.

Dr. Carl S. Marvel, Professor of Organic Chemistry at the University of Illinois since 1950, received his A.B. at Illinois Wesleyan University in 1918; A.M. at Illinois, 1916 and Ph.D. in Organic Chemistry, 1920; Sc.D. (honorary) at Illinois Wesleyan, 1946. President American Chemical Society, 1945; Director 1944-46. Has received numerous honors

such as the Nichols Medal and memorial lectureships at outstanding universities. Du Pont fellow at Illinois in 1919-20. Consultant on Organic Chemistry to the Du Pont Company at present.

J. Frederic Walker is a Research Supervisor on formaldehyde products in the Electrochemical Department. Trained at Massachusetts Institute of Technology. Received Bachelor's degree in Chemistry, 1925; Master's degree 1928, Ph.D. in Organic Chemistry, 1929. Author: "Formaldehyde Chemistry"; "Organic Chemistry of Sodium"; "History of Chemistry." Du Pont fellow in 1928-27.

Frank S. Fawcett is now doing synthetic organic research with Du Pont's Chemical Department. Received Bachelor's degree in Chemistry, Pennsylvania State University, 1940; Master's degree, Pennsylvania State University, 1944; Ph.D. in Organic Chemistry, Massachusetts Institute of Technology, 1948. Du Pont fellow at M.I.T. in academic year 1947-48.

J. Paul Sheedy* Switched to Wildroot Cream-Oil Because He Flunked The Finger-Nail Test

NO cock-of-the-walk was poor, sad, seedy Sheedy when he found loose dandruff on his comb. Now that he's a Wildrooter, he has something to crow about and so will you. Wildroot Cream-Oil gives you neat, well-groomed hair all day long without a trace of oil or grease. Makes it easy to keep that favorite chick in your coupe forever! It relieves annoying dryness and removes so much loose, ugly dandruff that you really have to scratch to find it! Peck on down to your favorite drug counter and bring back a hen full of non-alcoholic Wildroot Cream-Oil containing Lanolin. Always ask your barber for a professional application! And set on this thought—Wildroot Cream-Oil is again and again the choice of men who put good grooming first.

* at 327 Burroughs Dr., Snyder, N. Y.

Wildroot Company, Inc., Buffalo 11, N. Y.
