White hand fagoting adds importance to a cool summer wash dress of silky gray chambray, another Hannah Troy original.

Cool as a trellis is the self-fabric latticed bodice of this iridescent chambray dress. It is one of a collection by Hannah Troy which features hand detail.

## Summer Cool Achieved By Crisp Cotton

It's always cotton first for summer, although a new type of crinkly nylon taffeta will give it a run for its money. At present, the dresses and suits made of the nylon are a little too expensive to become a mainstay in the summer wardrobe, but their convenience (washed and dried overnight with NO IRONING) bids fair to make nylon the coming dress fabric.

For casual, crisp beauty, though, there's no substitute for cotton. One designer, Hannah Troy, has added the feminine hand-work touches which were so popular in grandmother's day, to achieve a dainty effect certain to please prospective buyers. She employs medallions, lattice work, fagoting, and tiny pearl buttons to add their

## Fatigue Accounts For Many School Failures

"When a child is naughty, cross, restless, or hard to manage, the trouble may be that he is physically and nervously tired out." So reports David Taylor Marke, special AP feature writer on child care.

"It is unwise and generally useless to try to discipline

the child when he is tired. Junior can play so strenuously and continuously that he will not eat at mealtime or will burst into tears at the slightest provocation.

Marke obtains this information from the Metropolitan School Study Council, an organization of more than 70 metropolitan school systems. The council has prepared a pamphlet, "Parents As Teachers," to act as guide for parents of elementary school children.

The problem, says the council, is to see that the children get enough rest. Movies, radio, television, swing bands all stimulate and intensify their reactions. Many children think they cannot sit down to do their homework without the radio blaring beside them.

An only child or one who has no playmates his own age living nearby tends to be overstimulated when he goes to school and associates with large numbers of other children. More sleep than parents realize may therefore be needed. A happy disposition is hardly possible without adequate sound sleep, they say.

The amount of actual sleep (not just hours in bed) required by the average child varies, says the council. For the 2-5-year old, 13 to 15 hours (including daytime sleep) is a fairly safe rule. For

How's Your Appetite?...

## 'Burgers' n Berries Make Meal Perfect From Start To Finish

Economy and extravagance are woven together into a summer meal which should brighten any winter-jaded appetite. The economy is hamburger meat; the extravagance is strawberries. Here's the menu for tonight, madam.

Hamburger grill garden vegetables, tomato salad, mixed baby strawberries, ring, cold tea.

For Hamburger Grill use the following ingredients: 1/2 pound ground beef, 1/2 teaspoon salt, 1/2 teaspoon pepper, 1/4 cup milk, 1 teaspoon finely grated onion, 6 thin slices bread. Lightly mix all ingredients and spread on bread slices, making certain that the meat is right up to edges. Place on baking sheet and broil 4 inches below heat unit for 6 to 10 minutes, or until done to desired degree.

Follow this tasty dish with a delectable sauce — the strawberry ring. Use 2 eggs (separated), 1-3 cup sugar, 1-3 cup sifted cake flour, few grains salt, 1/2 teaspoon cream of tartar, 1/2 teaspoon vanilla, rum syrup, strawberries, and whipped cream.

Beat egg whites stiff; add sugar gradually, beating constantly. Beat yolks until extremely thick; fold into egg whites. Mix and sift flour, salt, and cream of tartar; fold in gradually. Add vanilla. Bake in greased ring mold (9 inches in diameter) or a small size coffee cake pan, in a moderate (350° F.) oven for 25 to 35 minutes. Pour the following rum syrup over the

cake: Mix 1-3 cup sugar and 1-3 cup water together in a saucepan. Stir over low heat until sugar dissolves; simmer about 3 to 5 minutes. Cool slightly. Add 1/2 teaspoon rum flavoring. Fill center of cake with sliced sweetened strawberries and whipped cream. Makes 6 servings.

If you feel the strawberries are a little too extravagant for the summer budget, top off your meal with special peach sherbet, instead. Drain a number 2 1/2 can of peaches. Place the peach halves in the refrigerator to keep chilled until serving time. Pour the peach syrup into a freezing tray of the refrigerator. Freeze syrup into a mushy stage. Scrape into a chilled bowl and whip with a rotary beater until light, but not melted. Return to freezer and freeze until firm. For individual servings, allow 2 peach halves topped with the peach sherbet.

You can make peanut candy at home quickly by melting a cup of sugar over low heat, stirring as you do so, then adding a cup of chopped peanuts.
