

## AWARDS

(Continued from Page 1)

ing Foundation, Cleveland 1, Ohio. The contest closes May 15, 1950.

The purpose of this series of annual programs is to encourage the study of the science, technology and application of art welding, according to Dr. E. E. Dreese, chairman of the Board of Trustees of the Foundation.

The rules Committee which formulated the rules for this year's contest consisted of the deans of engineering from the eleven leading technical colleges in the country. H. W. Barlow, Dean of Engineering at A&M, was a member of this committee.

Last year's first prize was won by Robert K. Allen and Alvin H. Kasberg of the University of Wisconsin's department of Mining and Metallurgy. Their report was entitled "A study of the Welding Characteristics of Aluminum Bronze Electrodes."

Lewis F. Cheek of Texas A&M was awarded \$50 for his submission on the "Design of Arc Welding Fixtures for War Production". Cheek, who lives in Abilene, wrote his entire paper from research rather than actual experience.

## CHECK LIST

(Continued from Page 3)

Kansas Traveler sent its North Texas ballot in with last week's names.

### Hix Still Stars

Porker Sports Editor Vic Holt-hoff was impressed with the performances of three of his own players and another trio of Bruins. Razorback nominees were end Billy Hix, up for his third award, tackle Dave Hanner, and fullback Gene Mazzanti.

Bears James Parker, halfback, J. D. Ison, end, and Adrian Burk, quarterback, won Holt-hoff's nod for their fine play in the 35-13 victory of the Wacoans.

For the North Texas fray that opened the season for the Hawgs, John Ferguson, end Billy Hix, and guard Theron Roberts were named.

Gov. Allan Shivers of Texas (far left) and Frank Grandstaff, Tennessee convict composer, are shown above as they photographed articles at Big Spring recently. Grandstaff, serving a life term as an habitual criminal, was given a furlough to

attend Big Spring's centennial celebration. He wrote a cantata, "Big Spring" on his prison cell wall, later transferred it to paper and it was sung as a feature of the celebration. Other persons in the picture are unidentified. (AP PHOTO)

### VM 51 Wives Club Meets in YMCA

The second meeting of the VM 51 Wives Club was held last Wednesday, in the YMCA Solarium.

Mrs. Faulkenberry, the club president, conducted the business session. Following the business meeting, the members played card games.

The hostesses, Mrs. Faulkenberry and Mrs. Ryan, served refreshments. YMCA Solarium. All wives of the Junior Veterinary Medicine class are invited. Mrs. Faulkenberry said.

### Haines Attending Soil Short Course

P. G. Haines, extension soil and water conservation specialist of A&M college left Sunday for New Orleans, Louisiana, to attend a conference of soil and water conservation specialists from the Southern States.

Director G. G. Gibson of the Texas Extension Service, in making the announcement, said the meeting is being called by the Federal Extension Service for the purpose of discussing with the specialists problems relating to the operation of soil conservation districts.

### Doctor Explains Why Beer Gushes

Los Angeles, (AP)—Ever wonder why your beer gushes over when you open the can or bottle?

Dr. Philip Gray, here for the Master Brewers' Association of America convention, today gave this explanation:

Laboratory studies indicate that wildness is primarily physical in character. Colloidal particles, acting as nuclei, are responsible for the liberation of carbon dioxide gas from the unstable, super-saturated solution of carbon dioxide existing when the container is opened.

Now you know why your beer gushes over when you open the can or bottle.

## Committee To Hear Air Force Reply

WASHINGTON, Oct. 13 (AP)—The House Armed Services Committee agreed today to hear the Air Force next week in reply to the Navy's bitter criticism of its B-36 bomber program. Secretary of Defense Johnson also will testify then.

Chairman Vinson (D-Ga.) and Secretary Johnson held a long conference this morning. Afterwards, Vinson announced the schedule for the next phase of the committee's inquiry into military policy.

Vinson said that beginning next week the committee will hear Gen. Dwight D. Eisenhower, Gen. Omar Bradley, Secretary of Air Symington and Air Force officers.

Then, he added, "Secretary Johnson will give the committee and the country" his views.

Johnson, as civilian boss of all the armed services, is caught squarely in the cross-fire of the angry controversy over military policy.

He also has come in for harsh words from some congress members because, by executive order, he has cut back appropriations that the lawmakers made for the Navy.

Vinson publicly accused Johnson yesterday of making "a grandstand play" by economizing on Navy funds. He said the committee "is to have a lot to say about this."

Rep. Bates (R-Mass.), a committee member, expressed strong hope that the hearings into defense policy will cause the jinking of Johnson's bitterly-disputed decision to halt construction on a Navy super-carrier.

As these storm warnings were raised on Capitol Hill, the Navy arrayed the last of its top brass before the committee (9 a.m. CST) to wind up its case against what it terms an "unbalanced" defense policy too heavily weighted in favor of strategic bombing and the B-36.

Topping the Navy witness list were Fleet Adm. Chester W. Nimitz, Wartime Pacific Commander in Chief; Adm. R. A. Spruance, Pacific Task Force Commander; Adm. Louis E. Denfeld, Chief of Naval Operations; and Adm. Louis de Florez, top Navy researcher.

First, however, Vinson ordered Vice Adm. Robert B. Carney to tell the committee who signed the Pentagon order that directed an \$800,000,000 (M) slash in defense appropriations for the fiscal year ending next June 30—before Congress had even approved them.

Carney is a deputy chief of naval operations, and also chairman of the Joint Chiefs of Staff Budget Advisory Committee.

The appropriation in which the cuts were made is still awaiting a House-Senate decision over the

## 130 Students Want Teaching Papers

One hundred and thirty Aggies are seeking to get their Smith-Hughes teaching certificates. Henry Ross, professor of agricultural education, said today.

Some have already begun practice teaching for one week in forty-five Texas High Schools.

Two or three students are being sent to each high school. Ross said, and the Aggies will teach one class for a week and will aid the school's vocational agriculture teacher in his program.

To obtain a Smith-Hughes certificate, students must have two weeks of practice teaching. The custom is for students to teach one week each semester during the senior year, Ross concluded.
