1925 telephone rates Won't Pay 1950 Wages IN COLLEGE STATION

Telephone rates have been reduced an average of 40% during the past 10 years! You say, "Well, my telephone bill is just the same as it has been, and I can't remember any rate reduction." You are right, you are paying approximately the same for telephone service now as you did in 1925... but the buying power of a dollar in those days would purchase at least 40% more than it will today.

The cost of rendering telephone service has gone up, up, and up. For instance, wages paid to telephone operators have increased more than 200% during the past 10 years. The Wage and Hour Law passed by the 81st Congress, makes it mandatory that the telephone company boost wages again as much as 25%. 1925 telephone rates will not pay 1950 wages.

Few things give you so much for so little...

note...
The telephone rates for College Station in 1925 were \$2.50 for single party line and \$4.00 for business telephone.
Today, the rates are \$2.50 for single party line, and \$4.00 for business telephone.
