Present telephone rates now charged in Bryan and College Station became effective on January 1st, 1921: THERE HAS BEEN NO RATE INCREASE SINCE THAT TIME!

SAME SERVICE IN 1950.

poles are up over 100%. Telephone cable prices have increased aver 75%. Copper wire over 50%. In fact the cost of providing telephone service to Bryan and College Station has practically doubled yet rates remain the same as in 1921.

some \$400,000.00 increase in Telephone Co. capital investment during past 10 years in Bryan and College Station

During the past few years, the Telephone Company has increased its capital investment in Bryan and College Station by some \$400,00.00 to provide more and better telephone service. An even larger investment is planned. Present telephone rates fall far short of making this tremendous outlay of investment a paying proposition. With investment per telephone and operating expenses rising rapidly, net revenue per telephone is dropping at an alarming rate!

Almost Twice As Many **Telephones In Service Today!**

There are almost twice as many telephones in service in Bryan and College Station today as there were 10 years ago. New telephones are being installed in Bryan and College Station at a sizeable rate each month. There has been a net gain of almost twenty five hundred telephones in service in Bryan and College Station since the year prior to Pearl Harbor.
