

## Over 2,000 Attend State 4-H Roundup Here

By L. O. THIEDT

More than 2,000 boys, girls, and adult leaders on the campus for the annual State 4-H Round-Up, began the second day of events this morning with a group breakfast in Duncan Hall. The clubbers, housed in dormitories in the New Area, began arriving on the campus Sunday afternoon for the three day Round-Up.

Of the group, 798 are boys, 826 are girls, 304 are county agents and assistants, 199 are home demonstration agents, 155 are women leaders, and 68 are men leaders, according to reservations made prior to opening of the encampment.

The clubbers, representing 4-H clubs all over the state opened their program with an evening song session in Guion Hall Sunday night. Billy Triggs of Wichita Falls, song leader for the entire encampment, led the singing.

Lamb County Wins Two

Contests, demonstrations, and dress review rehearsal filled the

clubbers agenda Monday morning. Matagorda County won the Dairy Cattle Judging contest. While Hopkins County placed first in the Dairy Demonstration Contest. The Entomology Judging and the Field Crops Judging Contests were both won by clubbers from Lamp County. Menard County placed first in the Grass Judging Contest.

In the Poultry Judging Contest, Guadalupe County had the winning team. The Tractor Maintenance Demonstration was won by Denton County demonstrators. Wool and Mohair Judging was won by clubbers from Sutton County. Cooke County won the Range Conservation Demonstration. Shooters from Randle County placed first in the Rifle Match.

Dairy Foods Demonstration winners were not available at time of publication.

### State Council Officers

Newly elected co-chairman of the Texas 4-H Council are Miss Beverly Randall of Brazoria county and G. M. Neasler of Tarrant county. Miss Marie Petty of Howard county and Harold Obenhaus of Wilbarger county were elected co-publicity chairman at the Council's meeting Monday morning. Miss Carolyn Curry of Nolan county was elected secretary for the Council.

Monday afternoon, those clubbers not participating in judging an demonstrations, or helping prepare for Round-Up Activities attended a free movie or a grading demonstration of slaughter steers and calves.

At 8 last night, a Jean and Calico Round-Up and 4-H party were held on the softball field. All games were led by various members.

### Personnel Introduced

This morning at 8:45, the clubbers were officially welcomed by G. G. Gibson, director of the Extension Service. A response to Director Gibson's welcome was given by the chairman of the Texas 4-H Council. The clubbers were then introduced to A&M System personnel by representatives of members of the club council, D. W. Williams, vice-chancellor for Agriculture, made a short address.

Introduced to the clubbers were R. D. Lewis, director of the Texas Agricultural Extension Service; Dr. M. T. Harrington, president of the

College; Dr. Ide P. Trotter, dean of the graduate school; J. D. Pre-witt, vice director and state agent; E. C. Martin, assistant state agent; Gladys Martin, acting vice director for women and state home demonstration agent; Dr. I. B. Broughton, dean of the School of Veterinary Medicine; and Dr. J. P. Abbott, dean of the school of Arts and Sciences.

At 10:00 a. m., a group picture containing all clubbers and leaders at the Round-Up was made outside Guion Hall.

At 6 p. m. today, the 4-H adult Leaders Banquet will be held in Duncan Hall. G. G. Gibson will give the address.

### Dress Review

Tonight at 8 p. m. in Guion Hall, over a hundred girls will exhibit dresses awarded first place in county competition as the State Dress Review get underway. Following the review, a Button's and Beaux Dance will be held in the Grove.

Wednesday morning, clubbers will hear reports of 4-H winners of 1949 trips to National 4-H camp, Danforth Foundation camp, and national club congress. IFYE delegates will also give their reports.

Dr. M. T. Harrington, president of the College, will speak to the 4-H boys and girls tomorrow morning at 10:30. Scheduled on the afternoon program are visits to the various departments on the campus.

The boys and girls encampment will close with the showing of "Our Promise is Green" at the North end of Kyle Field tomorrow night at 8 p. m. The picture will be presented by the 4-H Moving Picture Company of the State of Texas.

### Agents Conference

Following the 4-H clubs Round-Up will be a two day conference for extension agents. Thursday morning's program for the agents will be taken up by discussion groups on the problems of extension agents. Thursday afternoon the County Agricultural and Home Demonstration Agents Association will meet. At 7 p. m., there will be a joint banquet of Extension Agents Associations, followed by the Extension Agents Dance in Shibley Hall.

During the course of Friday's program for the extensionists, there will be discussions on community work and improvement, extension service work, and other topics.

Carpenters are removing the forms on the fourth floor of the new wing addition to Francis Hall. When completed, the new wing will be used to house the Business and Accounting Department. The addition will contain 12 classrooms, designed to accommodate 30 students each. Business and accounting students will continue to use the "shacks" to some extent for classrooms next year.

### The Twelfth Man

## Now We've Got His Number-Officially

By DEAN REED

A&M now has a new president and he's numbered. In fact he is now officially number 12.

The twelfth president of the college—Dr. M. T. Harrington. The Battalion's heading on Nov. 18, 1948 read "Dr. Bolton Installed as Fifteenth President" Retrospection.

A story in the June 1 edition this summer read "Dr. M. T. Harrington to become A&M's eleventh president. A letter to the editor" one week later pointed out that the count could be 18.

But now it's 12. The dozen num-

eral won out after a discussion among college officials whether Dr. Harrington should be number 12 or 16.

Thomas S. Gathright started the confusion. He was first. No one argues that. But after Gathright came a series of presidents, acting presidents-pro-tem, faculty chairmen, and various other titlists.

The records indicate there have been actually 20 administrations of the college. Two men, President Emeritus Frank C. Bolton and the late R. H. Whitlock, served on two occasions each.

So that means only 18 men have held the college's top position. But Dr. Harrington is the twelfth man to carry the title of president. And his successor will be number 13.

The complete list of actual "presidents" of the college as prepared by R. H. Shuffler, A&M System Director of Information, is as follows: Thomas S. Gathright, 1876-1879; John Garland James, 1879-1883; Lawrence Sullivan Ross, 1891-1898; L. L. Foster, 1898-1901; David F. Houston, 1902-1905; H. H. Harrington, 1905-1908; Robert Teague Milner, 1908-1913; William Bennett Bizzell, 1914-1925; Thomas Otto Walton, 1925-1943; Gibb Gilchrist, 1944-1948; Frank Cleveland Bolton, 1948-1950; Marion Thomas Harrington, 1950-.

## Mexico Trip Scheduled For 17 Wildlife Students

To gain experience in collecting plants and vertebrate animals will serve as the basis for a six weeks summer field trip to Mexico, Mexico for 17 wildlife students. Leaving here July 19, the group will work in cooperation with the Mexican game officials in their survey of flora and fauna in the state of Morelos.

The students will survey the region approximately 80 miles south of Mexico City near the city of Cuernavaca and Quautla. Cuernavaca, known as the "Holywood of Mexico," is an important resort and home of wealthy Mexicans as well as American families, writers, movie stars, movie producers, and other prominent people.

Cuautla is internationally celebrated for hot sulphur springs to which remarkable curative properties are ascribed. Winter is unknown because this city lies between the high Mexican plateau and the tropical sea coast.

## Four Profs Inspect Isle Bird Colony

Four A&M professors returned Sunday night from a trip to Vingt et Un Island in Galveston Bay.

Making the trip were Dr. Sherman W. Bilsing, professor of entomology; Dr. C. C. Doak, head of the Biology Department; Dr. Sewell H. Hopkins, professor of biology; and Dr. Charles LaMotte, professor of biology.

Purpose of the trip was to inspect the roseate spoonbill colony located on the island. The trip was made possible by the Texas Academy of Science, the National Audubon Society, and the Dow Motor Company of Houston who furnished the boat to reach the isle.

Dr. Doak, who is president-elect of the Texas Academy of Science, is now visiting off-shore bird sanctuaries around Austin as the guest of the National Audubon Society.

## Man E Department Sponsors Courses

Industrial Management Short Courses will be held here June 12 through July 21. V. M. Faires, head, Management Engineering Department, is chairman of the short courses.

Five courses will be offered including Job Evaluation and Merit Training, June 12 through June 16; Methods Improvement, June 19 through June 30; Works Simplification, July 10 through July 14; Elements of Manufacturing Costs, July 10 through July 14; Cost Estimating, July 17 through July 21.

The Management Engineering Department is sponsoring the short courses.

## Gladys Cooner Named Reporter for TU Club

Gladys Jean Cooner, daughter of Mr. and Mrs. Irvin P. Cooner of College Station, is the new reporter of Kappa Epsilon at the University of Texas.

The Board of Trustees for the A&M Research Foundation met on the campus Friday. Members of the board pictured are (left to right), D. B. Harris, vice-president and treasurer of the Humble Oil and Refining Company; S. C. Evans, president of the Federal Land Bank of Houston; Dr. Frank C. Bolton, president emeritus of the col-

## Council Votes Proposal For City Parking Meters

By JOEL AUSTIN

The College Station City Council, meeting in regular session last night, voted unanimously to order the city attorney to draw up an ordinance which would provide for installation of parking meters in the North Gate shopping area.

The recommendation was made after the council heard a complaint from Tom Taylor, North Gate variety store operator, who said that many people were parking their cars in front of the places of business all day long, making it impossible for customers to find parking space.

### Over-Parking Blamed

The all-day parking situation was attributed to the fact that many college students unable to park in the area designated for their use and employees of various places of business were leaving their cars in spots vital to store-owners for transaction of business.

The parking meters were said to be the best way to regulate parking in this area.

Council men decided the meters should be placed from the College Station State Bank on the east end of the street to the Boyd Apartments on the west end. A special stipulation was made to charge from one cent for twelve minutes to five cents for one hour on the north side of the street and assess five cents for a period of two hours on the south side of the street.

Also to be included in the parking meter area was the distance from the signal light at the Post Office to the church buildings on main street.

### Special Loading Zones

The council decided that special loading zones should be marked off in each block to enable merchants to receive and ship goods without traffic congestion.

Councilman Joe Orr made the

motion to give the City Attorney authority to draw up the ordinance, which will be acted on at the next council meeting near the end of this month.

Other discussions arose on the traffic and parking problem. City Manager Raymond Rogers mentioned that several cars and trucks had been parking in the North Gate area all night. The council instructed Rogers that the city had an ordinance making it unlawful to park in the North Gate business area between the hours of 1 and 4 a. m.

Also discussed and requested by several councilmen was that parallel parking be required in the block in front of the Baptist Church. No action was taken on this request.

### Annexation Asked

A petition asking for the annexation of a plot of land adjoining the southeast corner of the city which includes a negro school was presented with only two signatures against adding the area to the city.

The council decided to withhold action on the petition until a new one could be drawn up which would include some land belonging to people next to those who were seeking annexation to the city. Action will probably be taken on adding the new section at the next council meeting.

## Quisenberry Speaks To Vet Med Group

The United States produces nearly one-half of the world's supply of poultry products. D. J. H. Quisenberry told the Texas Conference for Veterinarians meeting which closed here Friday afternoon.

"A better idea of the magnitude of this industry," Dr. Quisenberry, head of the Poultry Husbandry Department, said, "may be obtained by visualizing the production of a carload of eggs (five hundred 30-dozen cases) every

three minutes day and night, 365 days of the year."

The speaker pointed out that the poultry producers were the "first of the agricultural groups to face realistically the necessity for a post-war adjustment of production efficiency." He said that they have been able "through the elimination of wasteful and inefficient methods to take grains supported at 90 per cent of parity and feed it to their hens and continue to make a profit on their eggs supported at 70 per cent of parity."

The administrators accepted a proposal to have the current city power system investigated and to find out whether or not it would be more economical to buy power or construct a city power plant.

### Engineering Consultants Ready

J. H. Brenlen and C. H. Heisey, of Gilbert Associates Inc., a consultant engineering firm from Houston, were on hand to offer the services of their company for the survey. They were asked to send a written agreement as to what work they would do and the actual length of time it will take to complete it.

A. L. Hogan Jr., consulting engineer from Houston, has also made application for the job, according to City Manager Rogers. The council plans to name the firm to do work at its next meeting.

### Bus Route Change

Representatives from the Bryan College Traction Co. appeared before the council to present their plans for discontinuance of shuttle bus service to the route running through the south side and College Hills areas.

The councilmen suggested that service be limited to two or three trips a day, but they did not favor a total discontinuance of the run. The council voted to give Mayor Ernest Langford power to make some sort of settlement with the company not later than June 19.

### Call for Bids

The council voted to call for bids on a 150 foot lot in the College Hills section. The property which has belonged to the city for quite sometime is in lot one of block eight in that part of the city.

Final act of the council was to notify all tax payers who were behind in payments that the names of delinquent taxpayers will be published on or immediately after September 1.

## Wally Anderson Enters Academy

Wally S. Anderson, son of Mr. and Mrs. Frank Anderson of College Station, will leave today for Annapolis, Maryland where he will report for the Annapolis Naval Academy.

Anderson is the son of "Cal Andy" Anderson, A&M track coach. The Anderson family plans to drive to Annapolis with Wally. Coach Anderson will attend track meets in Minneapolis, Minnesota and Washington, D. C. and Mrs. Anderson will visit her sister in St. Louis, Missouri.

Anderson has been taking physical checkups this week after returning from Bandera where he and his family spent several days vacationing with friends at the Last Valley Dude Ranch.

Anderson will report to the Naval Academy on July 1.

## Leipper in California

Dale F. Leipper, head of the Department of Oceanography, left Saturday for the Scripps Institute of Oceanography at La Jolla, Cal. where he will study new types of equipment.

## At the Grove Tonight

Buttons and Beaux Dance, as part of the entertainment for the State 4-H Round-up.

## A&M Research Names Trustees For Foundation

Five trustees were elected to the board of the A&M Research Foundation at the sixth annual meeting of the foundation councilors Saturday.

J. D. Rogers, president of the Brehm-Gottion Oil Manufacturing Company, Navasota, was elected agricultural representative. W. R. Cook, agricultural agent of Missouri Pacific Railroad, Houston, was re-elected as the A&M alumni representative.

H. W. Barlow, dean of the School of Engineering, was re-elected college representative. R. H. Hertenstein of Dallas, president of Wyatt Metal and Boiler Works, was elected industrial representative. Public Service trustee is E. A. Craft of Houston, executive vice-president of Southern Pacific.

Terms of all newly-elected and re-elected trustees will expire in June, 1953.

The board of trustees Friday accepted the resignation of councilors E. J. Kyle of Bryan and R. C. Kuldell of Houston.

Several contracts for the Foundation were also approved by the trustees at the meeting. A two-year renewal with the Texas Gulf Sulphur Company was approved, along with a contract with the U.S. Wildlife Service for placing observers on the ship Alaska, to be operated in the Gulf of Mexico.

## Magnolia Renews A&M Fellowships

Renewal of research fellowships at A&M have been announced by J. L. Latimer, president of Magnolia Petroleum Company.

The fellowships, sponsored by the company, carry an annual grant of \$2,000 each, and are in the fields of petroleum engineering, geology, physics, chemical engineering, and physical chemistry respectively.

Fellowships have been established by the company at A&M, Louisiana State University, Rice Institute, Texas University, and the University of Oklahoma. They are a part of a research program sponsored by three companies—Socony-Vacuum, General Petroleum, and Magnolia.

The program involves the expenditures of some \$40,000 each year to support 20 graduate research fellowships established at various universities throughout the country.

Recipients of the fellowships are selected from university students who have completed at least one year of graduate work.

## Teen-age Party Hour Wednesday

Plans have been completed for this week's Teen Age Party Hour. Miss Elizabeth Miller of the planning committee announced. The party will take place as usual at the Patranella Slab behind Consolidated High at 7:30 Wednesday night.

During Wednesday's party, plans will be made for a hayride or watermelon feast, the committee chairman said. The party will be informal and refreshments will be served during the course of the evening. Miss Miller added.

Each week a new committee for the following week's party will be chosen. Committee for the week is composed of Misses Judy Oden, Carolyn Landiss, Eleanor Price, and Elizabeth Miller. All four girls are students at Consolidated High. Othel Chafin, summer recreation director is sponsor of the group, Miss Miller said.

## Baby Boy Born To Westfalls

A baby boy weighing 7 pounds 9 ounces was born to Mr. and Mrs. Elmer D. Westfall of College Station, the hospital staff announced.

The Aggeland Combo, members of the Aggeland Orchestra attending summer school, furnished music for the first summer All-Cotton dance. Held Saturday night the dance is a weekly feature of the Grove.
