Use Atomic Bomb? Most Answer 'NO'

By FRANK DAVIS

Should the United States use in Korea? That is a question being widely discussed today.

Yesterday a survey was conducted in attempt to get the opinions of some of the people on the A&M regarding the question, Should the Korean situation get worse, would you favor using the atomic bomb?"

Of 13 persons interviewed, nine ominions. Four people fails ed to reply because they had no opinion or didn't want to be quoted,

E J. Hatzenbuchler, senior neronautical engineering student from Dallas, believes we should use the bomb now. He feels prompt use of the atom bomb could not only end hostilities quicker, but would forestall or prevent Russia entering the

Dr. J. Q. Hays, professor of English who came to A&M in 1929, said, "If to prevent an-other Dunkirk, by all means use

Otherwise, Dr. Hays feels that the bomb should only be used if the OK comes from the UN. If it is used, we run the risk of making

Postponement of any action on price control and rationing a num-ber of members of both Houses took view they are not needed now and the economy will work smoother and faster without them, but others expressed disappointment.

Recess Still Planned

As for congress' own general rogram, the leadership is reported still planning a recess but only after the lawmakers have cleaned up Mr. Truman's present requests and the President has decided whether anything further is need

ed immediately.

Recess would run until after the election. After that the lawmakers would come back and the senste would start work on the Housepassed tax bill to convert it into a tax increase measure. As It stands now, without senate action t cuts more than \$1,000,000,000 off the wartime excise taxes and makes up the loss by boosting levies on big corporations, flugging loopholes, and other changes.

Senator Lucas (Ill.), the democratic leader, led the chorns for those who gave unqualified praise to the Truman program. He told the senate that the president was firm, courageous and superb
