

High School Students Offered Scholarships

Next Spring, some lucky student at Consolidated High School should be eligible to compete for one of three Science scholarships sponsored by the Bausch & Lomb Optical Co., at the University of Rochester.

At graduation, the school presents to the outstanding science student the Bausch & Lomb Honorary Science Award. This award is used in thousands of schools throughout the United States to stimulate the interest of students in the study of science and to recognize high scholastic accomplishment. Only winners of the Honorary Science Award can compete for the Bausch & Lomb

Science Scholarships. To be eligible to compete, the Science Award winner should be selected and notified early in the year. Upon notification, the student should immediately obtain application blanks from the Director of Admissions, Morey Hall, River Campus, University of Rochester, Rochester, N.Y. Applications must be filled out and returned on or before March 10.

During the following month, the University Scholarship Committee reviews all applications. Basing their judgment on the information contained, they select several of the most promising as finalists. These are notified of their selection late in March. Finalists are invited to Rochester for two days, with all expenses paid, for interviews and competitive tests.

Each of the three scholarships has a cash value of \$3,200. The University of Rochester also offers other scholarships of equivalent value. Several of these scholarships usually are awarded to runner-up in the Bausch & Lomb competition. At the present time, there are 23 students enrolled at the University under Bausch & Lomb Science Scholarships and 23 more who have received other scholarships, or a total of 46.

Any students who stand near the top of their class in science studies should check with the head of the Science Department early in 1951, to determine their eligibility for the Science Scholarship competition.

good men from last year's team but I know there are plenty back," Russell observed. "A championship outfit that plays in the Rose Bowl has a backlog of material. They are big and powerful and have the know-how. Anybody who picks us to beat Ohio State ought to have his head examined."

Russell was pleased with the showing of his team against Tech but he said the Mustangs accomplished what they did because they had the heart and the will to win. He added it would take more than that to lick Ohio State.

The Southern Methodist coach said his team wouldn't be in top shape for the game Saturday.

This measure was taken to prevent food and drink spillage of expensive furniture fabrics contained in other parts of the building.

Dr. W. H. Delaplane, faculty member, and J. T. L. McNew, student member, were appointed to the Constitution and By-Laws Committee to replace Herb Beutel and P. B. Goode, two former members of the Council.

James Is Baled In Oats

Aberdeen, Scotland—(AP)—Three-year-old James Riddoch rode through the machinery of a tractor-driven binder and emerged neatly tied in a sheaf of oats.

He was standing on the back of the binder at his father's farm. It hit a bump. James was tossed into the works. Within a few seconds he was carried down a moving belt and scooped up by mechanical arms. A cord was knotted around him and the oats. He was tossed out the rear—all in a bundle.

Hospital authorities said he suffered severe bruises and a punctured shoulder but will recover.

High School Adds Chaney to Staff

All high school students of A&M Consolidated who attend the 75th Anniversary celebration will be excused from class Wednesday, October 4, on condition they take an approved tour, announced L. E. Students will be credited with full attendance in accordance with a ruling from the State Superintendent of Schools. Regular classes will be held and school buses will run on schedule, he added.
