

# Odd Weather in Washington

Washington, Sept. 28—(AP)—Hot air and merry-go-round winds over Washington—strictly non-political, of course—helped keep the capital hazy these past few days.

So says an expert of the U. S. weather bureau who reports that while the hot air now has gone, the merry-go-round winds linger on—keeping some smoke from Canadian forest fires milling around above most of the Eastern Seaboard.

Meanwhile, the official says, the main current of smoke may have been swept eastward to Europe, thus accounting for a "blue" sun observed in Northern England, Scotland and Denmark.

Dr. Harry Wexler, chief of the weather bureau's scientific services division, discounted other theories advanced to explain the peculiar sun observed by the Brits and Danes.

Those theories are that peculiar formations of high clouds, haze

from a big atomic blast somewhere in the world, dust blown high by a storm, or ash from a big volcano could have given the sun the blues.

"We've had lots of high-cloud formations without a change in the color of the sun," Wexler told a reporter.

# Reds Invent 'Bonus Babies'

Berlin, Sept. 28—(AP)—East Germany's Communist government has offered bonuses for more babies, to build up the Soviet zone's waning population.

The bonus system—similar to the scheme used by Hitler—was included in a new law giving women equal political and economic rights with men, offering protection to

mothers and children and tightening restrictions on abortions.

Communist Prime Minister Otto Grotewohl, speaking for the law, demanded more babies as "proof of the optimistic spirit prevailing in the east German democratic republic." The east zone has a population of about 18 million com-

pared with 45 million in the west zones.

The law give a bonus of 100 east marks (\$25 at the official rate but only \$5 at the actual rate against the west German mark) for each third baby in a family, 250 east marks for each fourth, and for each baby over that 500 east marks.

# 10th Anniversary Sale

We are indeed grateful for the business that has been given us during these ten years.

The retail grocery business is a tough racket. During the past ten years, twelve food stores have come and gone, for one reason or another, right here in College Station.

That we have been able to survive and enjoy a measure of success, indicates that our constant efforts to give our friends, institutions, and customers bigger and bigger values in quality foods have not gone completely unnoticed.

Yet, we feel that our prices still are much "cheaper than you think."

To put across to our customers and potential customers the "honest truth" about our prices is the sole reason we are giving away absolutely free next Tuesday, Oct. 3rd at 3 o'clock P.M. a \$269.95 Youngstown Kitchens Automatic Dishwasher. You do not have to buy anything or to be present to win.

We just want you to spend up to 20 minutes of your time studying and recording our grocery prices on a prepared list available at the store. We know after you have done this that you will be much more aware of just how cheap we are offering you high quality foods.

If after 20 minutes you have not completed the list, we will give you "A for effort" and declare you eligible to win the Dishwasher.
