

AF Reserve Officers Still Being Recalled

Fort Worth, Sept. 29—(AP)—The Air Force is still recalling reserve officers and men under the 50,000-man recall program announced some two months ago.

This was the information gleaned from guarded statements by Maj. Gen. Charles T. Myers, deputy commanding general of the Continental Air Command today at the Air Reserves Association Convention here.

The Continental Air Command, with headquarters at Mitchell Air Force Base, N. Y., is charged with the responsibility of recalling reservists.

"Air Force headquarters in Washington tells us how many men it needs and we call them from our files," General Myers said.

"The recall program is coming along in good shape," General Myers said. He then indicated that men were still being recalled and would continue to be recalled, adding "for all we know we may be given new quotas."

Delegates today heard representatives of two other reservists organizations, Col. Charles Skeele, national president of the Reserve Officers Association, and Maj. William P. McCall, executive director, Marine Corps Reserve Officers Association.

Colonel Skeele called for a merger of the Air Reserve Association with the Reserve Officers Association "in the face of the Korean situation and the probability of World War III."

Expansion of the Air Force Reserve training program and more intensive training for M-day readiness were urged by Brig. Gen. J. Lafeton Whitney of Chicago, ARA president at the convention's opening session.

"At a time when the regular service must rely upon reserve components for large numbers of trained officers and airmen, it is unthinkable that anyone should suggest any curtailment of reserve training," Whitney said.

Eisenhower May Head Western Europe Army

Washington, Sept. 29—(AP)—Speculation increased today that President Truman may appoint Gen. Dwight D. Eisenhower to command the projected international army to defend Western Europe.

This talk is based in part on what Mr. Truman said about Eisenhower at his news conference yesterday and in part on the fact that Washington officials believe a man of outstanding reputation and proved ability should get the supreme command post.

The mere naming of such a man, high officials say, would help to create in non-Communist Europe a new sense of confidence and progress toward real security.

Indianapolis, Sept. 29—(AP)—President Truman and Secretary of Defense Marshall, says Senator Capehart (R-Ind.), "are conspiring to oust" General MacArthur from his Far East command after the Nov. 7 election.

"Government circles in Washington are conscious of the bitter animosity held by President Truman and General Marshall against General Douglas MacArthur," Capehart told a Republican rally in suburban Southport last night.
