Spivak Scheduled For All College Dance Here Nov. 18

By B. F. ROLAND

Charlie Spivak, who reputedly plays the "sweetest trumpet in the world" will bring his orchestra here Nov. 18 for two performances following the Rice football game.

At 7:15 p. m. in Guion Hall, Spivak will begin an hour long concert. Following the concert he will take his orchestra to Sbsa Hall where they will play for the All College dance from 9 p. m. until 12 midnight.

With the present vogue for sweet music gaining favor each day, Spivak and his band are among the most popular orchestral groups of the day.

Spivak plays his famous horn soft and smooth which reflects his sentimental and philosophical personality. He places emphasis on soft, danceable melodies but plays plenty of licks for the trained ear.

Notches in Spivak's musical belt are 20th Century Fox's "Pin-Up Girl," and "Follow the Boys" for

Universal and a flock of box-office records created at the Paramount Theatre in New York, the Hotel Statler, New York, the Paladium in Hollywood, and other top spots.

Winners of the coveted Downbeat poll for the top sweet music band, Spivak features his trumpet practically all the time which means that when you pass by the door, you know whose band is in the room.

One of the highest paid free lance trumpeters in the country at one time, Spivak tossed this security aside to form his own band. His new organization was an immediate success and soon came to be rated as one of America's top bands on records, in the movies, at theatres, and hotels.

Featured vocalist with the Spivak orchestra is Bill Black, who has been working to establish himself as a big time vocalist ever since he won a singing contest at the age of six.

He secured one of his earliest long run engagements with Olsen and Johnson. He later sang in a series of operetta presentations of the Municipal Opera Company of St. Louis.

Black was with Gene Krupa's band for a year before joining the Spivak organization.

Tickets for the concert will sell for 70 cents and dance duets will sell for \$2.50, stag or drag, according to Grady Elms, assistant director of student activities.

Campus Groups May Reserve Annual Space

Beginning today, campus organizations can make reservations for space in the Aggieldand 1951, Editor, Roy Nance, reported. All religious groups, honor societies, professional groups and home town clubs will have to pay an increased fee in order to appear in the annual this year, he said.

Reservations for space in the annual must be made before December 15, and all pictures will have to be made before February 1, Nance continued. Pictures can be made anytime between now and the deadline.

Organizations will have to pay \$55 for a full page or \$35 for a half page. Material used on the full page will be the same as in the '50 annual; a group picture, individual head pictures of three officers, and a roster of club members. A brief summary of club functions is being considered for the full page, he added.

Half pages will have the group picture, a list of officers, and either a roster of club members, or a roster of those in the group picture. Club rosters will be used unless the size of the club is so great that space limitations prevent it.

Club representatives can reserve space in the Aggieldand 1951 and make arrangements for their group pictures at the Student Activities office on the second floor of Goodwin Hall, he concluded.

Venezuela Sewage Engineers Arrive

Two sanitary engineers from Venezuela have arrived at College Station to begin a study of water and sewage plant operation with the Texas Engineering Extension Service.

They are Carmelo Arismendi and Benecio Torres, who were awarded a 15-month scholarship from the Instituto Nacional de Obras Sanitarias of Caracas, Venezuela.

Arismendi will spend most of his time traveling with W. A. Bandy, chief of water and sewage plant operation. He will visit Texas cities and towns with Bandy and observe operation and maintenance of water and sewage plants.

Torres will study laboratory methods and practical operation of water works, treatment plants and sewage disposal with J. H. Sorrels, research engineer for the Engineering Experiment Station.

Last Chance On ID Cards

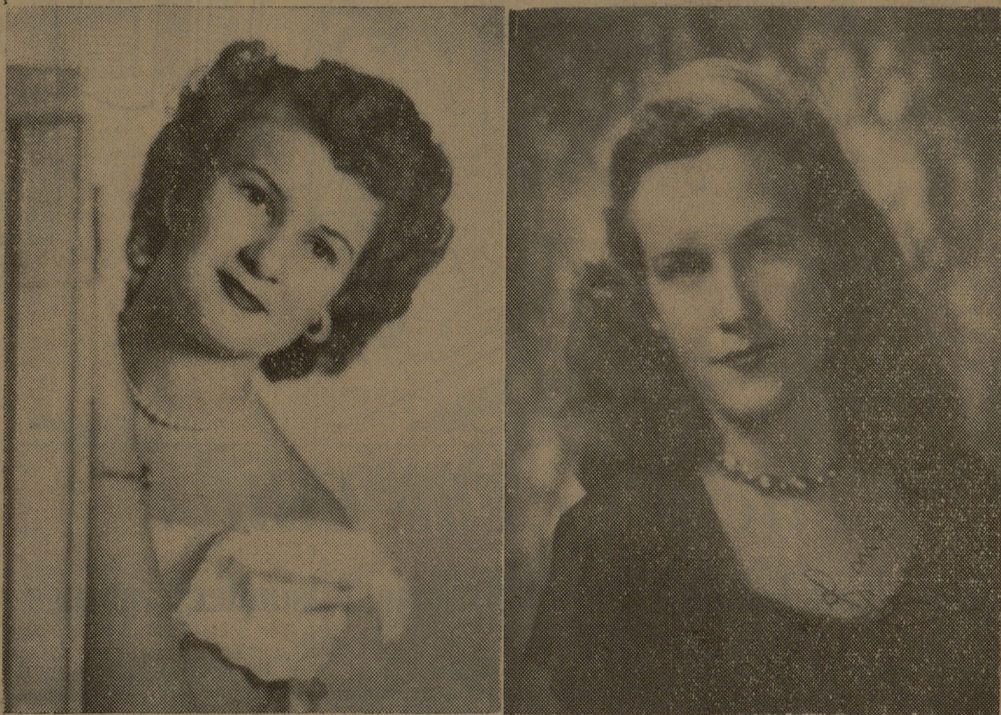

Today and tomorrow are positively the last days for having ID card made, Bennie Zinn, assistant dean of men, announced this morning.

Photos will be made from 1:30 to 5 p. m. today and tomorrow in the photographic and visual aids department in the basement of the Administration Building.

Students will not be admitted to the Arkansas game this weekend unless they have an ID card, Zinn said. The same regulation will hold for all future athletic contests, he said.

Cards made this afternoon or tomorrow may be picked up in room 100, Goodwin Hall Friday afternoon or Saturday morning.

Speedy Red Jet Fighters Meet US Resistance

Seoul, Nov. 1—(AP)—Russian-made jet fighters with swept-back wings and speed nearly that of sound battled to a draw today over northwest Korea with slower American Mustangs.

A U. S. Fifth Air Force spokesman said apparently neither side lost any planes.

Earlier Wednesday, American F-51 Mustangs and B-26 light bombers shot down three Russian-made yak planes. These apparently were the conventional propeller craft,

not the 625 mile per hour jets.

The aerial dog fights raged as American ground forces drove within 30 miles of the Communist Manchurian border. But fiercely fighting Red Korean forces checked the tank-led thrust.

Red Cavalry

Red Korean resistance along most of the northern battlefield was stiff, Communist cavalry swept down on allied forces.

Cavalry had not been used to any

extent earlier in the war. The Red Koreans who invaded South Korea June 25, were equipped with Russian-made tanks, field pieces and automatic weapons.

The use of cavalry in the Orient dates back to the Mongolian hordes that swept across the Asian plains centuries ago.

A second Chinese Red regiment officially was reported in action in Korea. U. S. 10th Corps headquarters said the regiment had been identified in northeast Korea.

Aerial Scrap

The biggest aerial scrap since the first weeks of the war started Wednesday morning five miles southeast of the Manchurian border city of Sinuju.

Flying through smoke-streaked skies, American F-51 Mustang fighters rescued an unarmed T-6 observation plane from six Russian-built yak fighters. Four of the Mustangs shot down two of the yaks, without a loss.

A rear gunner in a B-26 bomber shot down one of two other yaks that jumped four of the light bombers west of Sonchon.

Visibility was hampered by smoke rolling from artillery-ignited forest fires. But six enemy jets were spotted flying south toward a U. S. 24th Division tank column west of Sonchon.

World Situation At A Glance

France Asked for Concessions

Washington, Nov. 1—(AP)—The United States has put its foot down and apparently let France know she must make some concessions in her unyielding attitude toward German rearmament before there can be agreement on a supreme command for forces in Europe.

The defense ministers of the 12 North Atlantic Treaty organization deadlocked over the German question and believing that it involved major political as well as military questions, last night turned the complex problem over to two planning committees. They had given up after three days of meetings.

Color Television Debate Continues

New York, Nov. 1—(AP)—The color television race is proceeding full speed in laboratories despite government approval of the method developed by the Columbia Broadcasting System.

Rivals of CBS hope to make a showing sufficiently good to win new consideration from the Federal Communications Commission before the CBS method can gain a foothold.

Second Red Regiment Reported

U. S. Tenth Corps Headquarters in Northeast Korea, Nov. 1—(AP)—A U. S. 10th Corps spokesman said today a second full Chinese Red regiment has been positively identified in action against United Nations troops in the northeast Korean front.

The spokesman said the newly identified Chinese Communist regiment was fighting against the Republic of Korea (ROK) 26th Regiment south of the Changjin (Choshin) reservoir. That is about 30 miles north of Hamhung, industrial city on the Sea of Japan coast.

G. B. Shaw Near Death

Ayot St. Lawrence, Eng., Nov. 1—(AP)—George Bernard Shaw lapsed into unconsciousness today and was believed close to death.

His doctor called on the 94-year-old playwright at 8:55 a. m. (3:55 a. m. EST). Later he told reporters Shaw had lost consciousness.

An earlier doctors' bulletin, issued at 8 a. m., said Shaw had a peaceful night "but his condition is worse."

First Negro Enters LSU

Baton Rouge, La., Nov. 1—(AP)—For the first time in its 90-year history, Louisiana State University has opened its classes to a Negro.

Thirty-year-old Roy S. Wilson registered as a law student at LSU yesterday, and planned to attend his first class today.

A Federal court ordered the University to accept Wilson and other qualified Negroes as students, but left the way open for a direct appeal to the U. S. Supreme Court.

Guests will be admitted to their rooms at 4 p. m. Friday and rooms must be vacated by 11:30 a. m. on Sunday.

Mrs. Victor Schember and Miss Betty Bolander have asked persons who have attended Michigan State College or who know Dr. Hannah and are interested in the reception to contact them by calling 4-4184 or 4-1270.

Seats Set Up Inauguration

Bleacher seats have been set up on the drill field in anticipation of the Corps review honoring the Inaugural Ceremonies Thursday, Nov. 9.

Working in cooperation with the Athletic Department, the 75th Anniversary Committee has moved 1,000 seats from the end zone of Kyle Field to the main drill field. These seats are for the convenience of visitors and guests of students who wish to attend the review, J. J. Woolket, committee chairman, said.

If the seats prove satisfactory the 75th Anniversary Committee will try to have them set up again for activities in the spring, Woolket added.

The present bleachers are nine rows high and in two sections one on either side of the main reviewing stand, with passage space in between, Woolket said.
