## Chinese Reds Subpoenaed by UN . . .

THE Security Council of the U. N. approved by an 8 to 2 vote a resolution to call representatives of Red China to answer the blistering charges of U. S. delegate, Warren R. Austin. These charges were based on a recent report from Gen. Douglas MacArthur.

The U. N. Commander in Korea estimated that more than 30,000 troops have been thrown into the war alongside the remnants of the North Korean army. This "alien" assistance had been rumored for many weeks, but definite facts as to quantity are now available.

Austin has called for an immediate halt to this illegal aid, and demanded withdrawal of Communist Chinese forces. The action of the Peiping regime, Austin continued, has raised the danger that the present conflict may not be limited to the Korean area.

There is some speculation that a 20 mile "no man's land" may be established as a buffer, but this will depend on many unpredictable factors. Lack of cooperation on the part of the Chinese Communists, however, may force U. N. consideration of Gen. Mac-

Arthur's request for permission to extend the conflict by raiding Chinese supply routes and airfields.

### Harry Vaughan For Chief Justice

Contemplated cabinet, diplomatic and Supreme Court changes outlined by Drew Pearson in his post-election article this morning (Wednesday) will be taken with the grain of salt that is part of the standard equipment for readers of Washington key-hole columnists. Assuming, however, that Comrade Pearson has rooted out a pertinent prophecy from the Truman calculations, herewith is entered a protest.

McGrath to the court and Black to the Chief Justiceship! Addition of the current Attorney General would not, it is admitted here, alter the level of ability of the present highest court. But an even better opportunity exists for the President. Leave Hugo Black where he is and make Harry Vaughan Chief Justice.

To be sure, the general is neither a jurist nor a lawyer, but there is a widespread belief that he would find similar company on the court. By all means, Vaughan for Chief Justice!—The Dallas Morning News.

### From the City Desk . . .

## Petitioners Get Committee Action

... By Joel Austin

With only a cold norther to greet us as we go about trying to scoop up some hot story around the gutters of this city, we painfully see that on this corps trip eve all news of this fair city of College Station is in an unquestionable lull.

Not to be silent long, however, the walls of the city will be rocking during the late morning hours of the morrow (several hours before press time) with chants from members of the citizen's committee to discuss better means of fire protection in College Station as they meet in the office of L. P. Gabbard at 11 a. m.

In his Ag Building penthouse office, where the Agricultural Economics and Sociology Department makes its home, the group will meet for the first time since appointed late last August.

Gabbard told us today (Thursday) that the group will only outline their work at this first session and set about the task which was laid out to them via a petition presented to the city council by approximately 100 citizens wanting for better fire protection.

### What's To Be Done?

They didn't say in their petition exactly what they wanted the council to do, but maybe through the work of these fine people who give their time and effort, some things that need to be done can be found.

But in order to do something about fire protection methods in this city, there is only one way to work. And that way is toward enlargement of the staff and facilities of the department.

Naturally every town likes to have the best fire department possible. But with all the equipment made available to College Station partisans through the college, we wonder if questioning the department's adequacy is justified.

The biggest cry we have heard so far is for men to be placed on duty at the fire station 24 hours a day—with salary and living quarters, of course.

Now, we know the city council will do its best to obtain something of this sort if enough people in College Station ask for it. But let's get down to business and do a little figuring.

In the first place, to have someone on duty 24 hours a day would require three men working eight hour shifts, seven days a week. A salary that would certainly be minimum wages for a 56 hour week would be \$200 monthly. As we (See "IS FIRE", Page 4)

## Tessies Pleased With MSC

By JEAN CLOUD and HENRI BOB RUSSELL

Denton, Nov. 10—We of the Daily Lass-O staff ventured down Aggie-way last weekend to see how the Cadets behave on home ground . . . and we were very impressed with the newest part of the home ground—MSC. The "Shamrock" of College Station is the best we've seen in a while.

We weren't the only Tessie crew to embark southward for the weekend. The college sent a boatload down to watch the Maroon and White squad practice on the "haws" and get ready to do the same to SMU on Corps Trip Saturday.

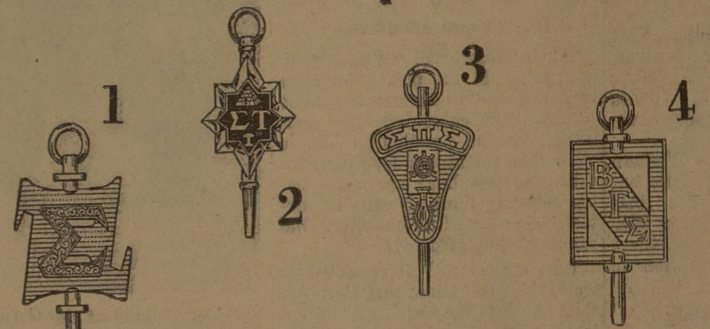

Yes, the Corps Trip. Preparations on this end of the line are in the final fast stages. Telegrams and phone calls saying "Where shall we meet?" are doubling in volume. Dates have changed for the first six times and the campus in general knows its almost here. There are facials, hair cuts and

creams especially for lovely "hands across the table." Seniors smile knowingly, juniors sigh, sophs chuckle and fish wonder as Aggie and Tess prepare to show off the brother-sister booster to all Dallas and pro- (See TESSIES, Page 4)

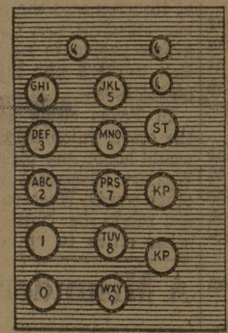

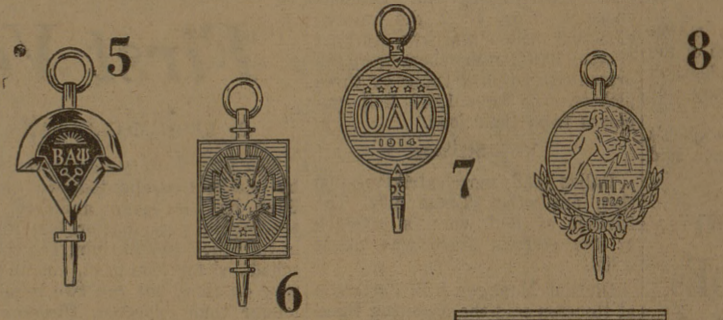

## LEGAL HOLIDAY

Saturday, November 11, 1950 being a Legal Holiday, in observance of Armistice Day, the undersigned will observe that date as a Legal Holiday and not be open for business.

## Recognize these keys?

Eight are the famous keys of national honor societies.

No. 9 is an important newcomer. It's the Bell System's new keyset for the direct dialing of Long Distance telephone calls. And, though not yet "national," it already has "chapters" in more than 900 cities and towns.

By pressing these keys, your operator can dial calls straight through to telephones in many distant places. Calls go through faster, more accurately.

Automatic dialing of Long Distance calls by operators, a development of the Bell Telephone Laboratories, is being extended steadily. This new method of putting through Long Distance calls is especially important right now, when the nation is counting on telephone service to help speed the job of defense.

### BELL TELEPHONE SYSTEM

Keys shown: 1. Sigma Xi (Scientific Research); 2. Sigma Tau (Engineering); 3. Sigma Pi Sigma (Physics); 4. Beta Gamma Sigma (Commerce); 5. Beta Alpha Psi (Accounting); 6. Blue Key (Service); 7. Omicron Delta Kappa (Men's Leadership); 8. Pi Gamma Mu (Social Science)

..these are the Arrow Collar Styles preferred on every campus

Surveys show Arrow to be the best-liked shirt of college men—from coast-to-coast. Famous collar styling, careful tailoring, fine Sanforized fabrics and laundry-defying buttons make Arrow your best shirt buy! \$3.65 up
