

Tessies Await Annual Corps Trip

(Continued from Page 2)
bably most of Fort Worth. If any of us knows anyone at SMU we are forgetting it for this week. Also UT, TCU, Rice and the rest must take a rear perch. Here on the rolling plains we have already purchased tickets to the game and begun planning a Friday night dance to entertain Ag-

gies on our own campus. For those scheduling Corps Trip as a one-day affair, the college will serve breakfast before dawn Saturday and send the sorties to "Big D" in special buses. For you Ayjize bringing vehicles to the weekend party, please watch out for Tessies. A recent campus survey pointed out that we are careless about observing stop lights and will jaywalk at any given time and place. Freshmen scattered and tumbled Monday as a few seniors—completely intelligentsia—sprinted to the Dean's office to apply for February diplomas.

Come to think of it, that's only two and a half months till they graduate. Such luck! They must have worn Confederate pennies in their shoes since first sighting the far end of dormitory row. This is also "Study for Your Mid-Term Final" Week. The girls are active studying and revising notes, making a first reading of the 583 pages of textbook assigned since the first week of school and

buying black ink with which to border the pages of letters home. It is the week of black coffee, aspirin and shaggy nerves.

Since the onslaught of the norther last week Tess has fought her way into the closet and tossed out winter clothing—rabbit-lined T shirts, rope-knitted sweaters and linoleum wind-breakers. We've tried to wear these garments since school started, but the heat wave was just too heavy.

More trouble erupts from Stoddard's elevator, a self-operating mechanism with personality. This personality consists of stopping between floors and refusing to budge. When two Stoddardites are trapped in the conveyance, the situation is quickly remedied since one can boost the other up to open the trap door.

But if the load is singular, she can only press the emergency button to inform the office of her plight, then settle down to read her pocket edition of "Henrietta Stromgold, Girl Riot Squad."

Meanwhile, the office calls a repairman out to coax the elevator from its pouting. As often as not, he sends to Dallas for more help. It's a long wait while classmates stand on the floor and harmonize on funeral dirges. Thought you'd like to know what impresses a freshman Tessie most on her first trip to an Aggie football game.

Freshmen returning from the A&M-Arkansas game agreed that they will remember longest the traditional kiss Aggies give their dates after each A&M touchdown. Score: A&M 42, Arkansas 14.

Griffith to Coach Ag Wrestling Team

A member of the 1948 Olympic wrestling squad from Oklahoma A&M, James W. Griffith, will soon organize a wrestling squad at Texas A&M and urges all interested Aggies to join his group. Griffith was graduated in physical education from Oklahoma A&M in June of 1949.

Annual Pet Show Slated Next Week

A&M Consolidated School District will hold their eleventh annual Pet Show Nov. 14 at 6 p. m. in the A&M Consolidated football stadium Sidney L. Loveless, publicity chairman, said yesterday.

In case of inclement weather, the show will be held inside the Consolidated Gymnasium, Loveless said.

Dogs and other pets must be brought to the entrance of the stadium before 6:15 p. m. and registration for the pets will begin at 5:45 at the stadium entrance.

Judging Follows

Entries will parade at 6:45 p. m. and judging will start immediately afterward. A prize will be given to the parade winner and ribbons will be awarded winners in the first four places in each class.

A&M Agronomist Honored by ASA

Dr. J. E. Adams, head of the Department of Agronomy for A&M System, was elected a Fellow by the American Society of Agronomy at its annual meeting October 30-November 3 in Cincinnati, Ohio.

He is the sixth Texan to be so honored. The others are: Dr. R. D. Lewis Director, Texas Agricultural Experiment Station, 1937; Dr. I. P. Trotter, dean of the Graduate School, 1938; Dr. Howard B. Sprague, head of Agricultural Research, Texas Research Foundation, 1941; R. E. Karper, head of the Texas Agricultural Experiment Station's sorghum investigations, 1947; and E. S. McPadden, agronomist in small grains, jointly for the U. S. Department of Agriculture and the Texas Agricultural Experiment Station, 1948.

Coordinated personnel and activities in agronomy in research, extension and resident teaching have been headed by Dr. Adams since 1946.

Grooming and handling will be stressed in the judging, Loveless said.

Dogs and other pets must be in leash. Other pets must be in cages or otherwise under control and in the property of children exhibitors in grades one to eight.

Classes Listed

The competitive classes for school children are large, long-haired pure-bred dogs over 20 pounds; large, short-haired, pure-bred dogs over 20 lbs.; small, long-haired, pure-bred under 20 lbs.; and small, short-haired, pure-bred dogs under 20 lbs.

Other classes include large, long-haired "Heinz Variety Dogs" and large, short-haired "Heinz Variety Dogs" over 20 lbs.; small, long-haired "Heinz Variety Dogs" and small, short-haired "Heinz Variety Dogs" under 20 lbs.

Cats, of all varieties, rabbits, and miscellaneous animals such as birds, fish, turtles, etc., may also be shown, Loveless said.

Classes are also open for pets weighing over 100 pounds. All pets will be eligible to compete in the special tricks class, Loveless added.

Health Group Donates \$7,350

The US Public Health Service has notified the Texas Agricultural Experiment Station it will provide a research grant of \$7,350 for continuation of a research project on nutritional requirements for embryonic development and growth. The grant will cover the calendar year of 1951.

Work on the project is under direction of Dr. J. R. Couch of the Biochemistry, Nutrition, and Poultry Husbandry Departments.

According to Dr. R. D. Lewis, station director, a grant of similar amount was received from the Public Health Service for initiation of the research this year.

Is Fire Petition Justified? --

(Continued from Page 2)

said, this figure is, in our estimation a bare minimum. Each man would receive roughly \$2,500 a year, amounting to a total expenditure for the city of \$7,500.

Housing Facilities Necessary
Next on the list would be facilities for quartering the firemen

Motheral Elected Board Member

Joe R. Motheral, associate professor of Agricultural Economics, was elected vice-chairman of the board of directors of Texas Rural Communities, Inc. at a special board meeting held in Dallas Oct. 31.

The corporation, with assets in excess of three and a half million dollars, provides funds for rehabilitation loans to farmers.

L. P. Gabbard, head of the Department of Agricultural Economics and Sociology has served as a member of the same board since 1939.

Garden Club Meets In MSC Friday

The A&M Garden Club will meet Friday at 3 p. m. in the Memorial Student Center, according to Mrs. Marion Pugh, reporter.

Guest speaker will be Mr. A. W. DeWorth, head of the Department of Floriculture and Landscape Architecture. He will speak on "The Botanical Classification of Garden Flowers."

All members are urged to bring any horticultural specimen, Mrs. Pugh said.

LOUPOT'S
Where You Always Get A Fair Trade

in the firestation. We have no idea what the capacities of that building are for providing housing, so add the cost of constructing a place for the men to stay.

Need we say more? The taxpayer will have to pay for these expenditures in increased taxes. Everyone likes to have the city provide them with up to date facilities, but they sometimes forget that there is always the troublesome question of money.

The most important obstacle to consider in employing a full time crew at the fire department is the possibility that the college, who owns all the equipment, may object to the idea.

Certainly the people who signed the petition don't expect the City of College Station to finance a complete fire department of its own. It is great to have those things, but the agriculturists at A&M have failed to find a way to grow money on trees—so far.

The committee has our blessings for the work which they will take upon themselves in the morning. The job is certainly a big one if they can find a way to provide College Station with a more efficient fire department than we already have and still not cause the taxpayer to moan and groan about increased taxes.

BOY ON THE CARPET
The lad in this picture has been into some kind of mischief, and his dad has called him "on the carpet." His drooping head and downward gaze suggest a consciousness of wrongdoing.
These are always tense moments in parent and child relations, because they involve a meeting of personalities in a situation which might easily serve to strengthen or weaken the parental tie.
This is no occasion for parental anger, arrogance, or bluster. The situation calls for a sympathetic understanding, a calm appraisal, and good judgment based on the moral and spiritual elements in human conduct.
Parents need the wisdom of God and spiritual guidance in dealing with the behavior problems of their children. Mistakes made in these circumstances often lead to unfortunate results.
The counsel of the Church and the inspiration of the Scriptures is offered to every parent who seeks divine guidance in meeting the responsibilities of parenthood.

THE CHURCH FOR ALL... ALL FOR THE CHURCH
The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.
