Tragedy Only Pay In Driving Gamble

The motorists who lets the steering wheel of a car become a wheel of chance is gambling with injury or death:

If you don't want to gamble with accidents, the Texas Safety Association suggests that you observe the following safe driving rules: • Always keep your eyes alert; Always keep your hands on the wheel;

• Never light a cigarette or wave to a friend while driving. Constant watchfulness is a good watchword. One moment of inattention may mean tragedy!
