# Presidential Cup Bound Aggies Leave Aboard C-47s

By JOHN WHITMORE

This morning over twenty students boarded three Air Force C-47s and started their trip toward Washington D.C. to form the nucleus of the yell section at the Presidential Cup Game.

The planes were manned by college Air Force personnel, filled by cadets and military personnel and will be greeted at Andrews Air Force Base in Maryland by Aggie supporters.

Representative Olin Teague has made arrangements for the A&M delegation to stay in Washington's Willard Hotel. According to Jackson Rayley, commander of the first Air Wing, dates will be available for the cadets.

Arrangements for the flight were made by Col. E. W. Napier, PAS&T, to transport twenty Distinguished Military Students to Washington. Air Force staff personnel are making the flight to maintain flying proficiency.

The planes will be piloted by Col. Napier, Major Ben Browder, and Capt. Leonard Calloway. Co-pilots for the flight will be Capt. Maxie Seale, Capt. Basil Hayle, and Capt. John Burris.

Other members of the flight will be made up of persons connected with the military department or in the reserve in this area.

A yell practice is tentatively scheduled to be held on Pennsylvania Avenue. Adding to the

festivities will be a party scheduled by the Capital City A&M Club.

According to Washington Correspondent Tex Basley, alumni of other Southwest Conference schools will cast their partisanship to the winds and back the Aggies during the game.

In a telephone call to the campus, Representative Teague said arrangements were being made for (See AGGIES LEAVE, Page 6)

# Favorable Results Noted In Christmas Seal Drive

By ALLEN PENGELLY

The 1950 Anti-Tuberculosis Christmas Seal drive is underway in Brazos County with seals already sent out through the mail and contribution boxes set up in several public places.

The drive, extending until Christmas Day, is conducted for the purpose of securing funds with which to carry on TB projects in the county. The Brazos County Tuberculosis Association issues pamphlets and posters for the purpose of educating citizens in the ways of preventing tuberculosis and recognizing the early symptoms of the disease.

In the Spring, the Association sponsors a mobile x-ray unit which goes to all the public schools, the college, and all towns in Brazos County, giving free chest x-rays. These pictures are studied by physicians and either positive or negative results are mailed to the individual. Many times treatment

can be given in time to prevent the actual disease.

The letters mailed out to the citizens of Brazos County contain two dollars worth of Christmas Seals and the individual is asked to keep any part thereof and remit the money for the seals kept plus all unused seals to the Association.

They are further asked to use the stamps that they've purchased to show they have purchased seals and to stimulate interest in the drive.

Brazos County will receive 82

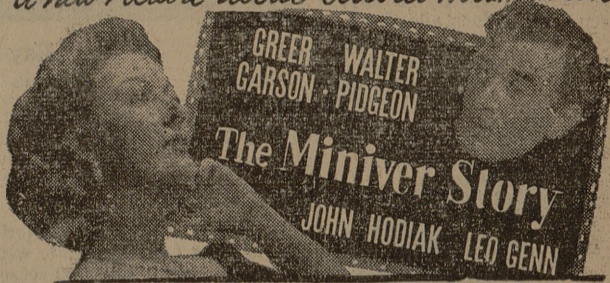

per cent of all the contributions turned in and the remainder will be divided between the state and national associations. So far \$1,892.92 has been turned in and more contributions are expected as the deadline approaches.

"I'm well pleased with the drive thus far because it is an indication that the people of Brazos County realize the importance of the campaign and are going all out to see that the drive goes over the top," Dr. E. E. Holt, president of the Brazos County Tuberculosis Association, said.

## Campus Interviews on Cigarette Tests

### Number 8...THE SEA GULL

"I'm not as gullible as I look!"

Maybe our little over-water friend is just fishing for a compliment. On the other hand, he may have reference to all these quick-trick cigarette tests you hear about nowadays. Well, he's not the only one who's been at sea. Frankly, how can you judge a cigarette by a swift sniff? Or another cigarette by one fast puff. What's all the rush about, anyway? When it comes to making up your mind about cigarette mildness, we think you'd like to take your time. That's why we suggest:

The sensible test—the one that you make on a day after day, pack after pack tryout for 30 days. It's the 30-Day Camel Mildness Test! Simply smoke Camels—and only Camels—for 30 days. Let your own "T-Zone" (T for Throat, T for Taste) be your proving ground. When you've tried Camels as a steady smoke, you'll know why . . .

More People Smoke Camels than any other cigarette!
