## Cadet Draft Status Explained

(Continued from Page 1)

ious reasons are frequently subjected to misinterpretation and misquotation.

Cadets are again urged to be wary of rumors or oral statements concerning the current Selective Service law. They are especially cautioned against making decisions to terminate their college and cadet training at this time in order to enter the military service.

Mobilization of personnel for a World War is a long process and requires many, many months. Cadets should not delude themselves into the belief that they are doing more for their country by entering the service now as a private than would be done by remaining here in the Corps of Cadets and continuing the military training for which the government has already provided facilities and personnel to train them as officers in the Army or Air Force.

It is still my belief that any cadet whose academic progress is satisfactory to his Dean and himself will best serve the interests of his country by remaining in school so as to become a commissioned officer and obtain, at the same time, a college degree.

**THE CHURCH FOR ALL . . . ALL FOR THE CHURCH**

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For the children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.
