Personality Girl Sought by Column

By Vivian Castleberry

A shoe should be hung on every outside door of College apartments next Wednesday night. Occasion is the Mother's March of Dimes against polio. In the city of College Station front porch lights will be turned on by all who wish to contribute to the March. This is in keeping with the year's slogan "Turn On Your Porch Light, Fight Polio Tonight." In College apartments, in lieu of the porch lights, all families who wish to contribute to the drive should hang a shoe on the door knob. Mrs. Johnny Lyons of College Station is chairman for the drive in College View. Her assistant is Gwen Weddell, who has a personal stake in the polio drive, because her four-year-old daughter, Sherrill, was a victim of the dread disease. Sherrill, a sunny, happy child, is a remarkable example of a fight back against polio. . . . So hang the shoe Wednesday night and get into the fight.

Another candidate for proudest-papa-of-the-year: Walter Jackson, a two-day's growth of beard on his chin, was grinning broadly when we saw him recently on the campus announcing the birth of his and Mary's daughter. The heir-presumptive to the throne in the Jackson household has been christened Janice. Walter, Mary and Janice are Traylor-area residents. By the tone of the facial expressions one can almost read the lines of the letters along with students after early morning mail call. They take pink-enveloped, perfume-touched epistles into the MSC fountain room and promptly give themselves away by their facial expressions. More than once lately we've squelched an overwhelming desire to look over somebody's shoulder and query "Is that good enough to print?" . . . Our editor says that's the best way known to man to lose aspiring young columnists.

THERE AIN'T NO JUSTICE! Such is the belief of Aggie George Charlton, and we're inclined to go along with him. Seems the love-of-his-life, Mustang coed Nancy O'Byrne, while convalescing from an appendectomy recently, had the constant admiring attention of a Mustang-ed. This went on while George was tied in Aggeland with

finals, a Commentator publication deadline, officer-of-the-day duties and sundry other things that kept him pretty close to home base. The last we saw of George, who claims he'd just as soon NOT meet this "other fellow," he was headed toward Dallas to try to cut out his competition.

HOUSE PARTY. One of the nicest bids to friendliness we've heard about are the parties held twice monthly in the apartments at D-6, College View. Here the girls get together once every two weeks to promote the friendliness of an entire house. They bring along sewing or mending to be done, buttons to be sewed on, or some sort of handwork, ironing or any other chore that they would normally do at home. This they do while they visit. Monday night Ruth Stanford was hostess for the house party. Other members include Polly Frey, Maxine Dunlop, Pat Spauling, Elsie Pierce, Jean Gunn, Lois Hamilton and Helen Wingler. . . . More on these girls-with-a-magnificent idea later.

WHO IS SHE? This department is opening a contest. It's a simple thing, with no particular rules governing it. We want to find out what girl employed on the campus has the best telephone voice. By that, we mean who has the friendliest voice, the best "What-can-I-do-for-you?" tone. So we open this contest-of-a-sort to everybody who talks on the telephone around here. All you have to do to participate is send in your nomination of a girl and don't know her name, ask her. She'll be glad to tell you. . . . End your votes to Vivian Castleberry at the Battalion Office, and help us find out who has the nicest telephone personality around here.

TROUBLES?

If you think YOU got troubles, you ought to see Ole Lou! He's got a sad story that'll beat any you've got. For instance, he doesn't know, when he buys books this term, whether he'll sell 'em next term. And it's doubtful whether he can sell the books, next Fall, that he buys this semester. But he's willing to take a chance IF you'll come in and TRADE WITH HIM NOW!

And, listen, my friend. Lou made 2,000 mistakes which he'll sell at two-bits apiece. These are books you used in your courses within the past two years. Ole Lou bought 'em for resale but they've gone out of date. Buy 'em for reference books.

Campus Interviews on Cigarette Tests

Number 11... THE OPOSSUM

"Thereby hangs a tale!"

The class clown went out on a limb and tried to prove cigarette mildness by the quick-trick method! He tried the fast inhale, fast exhale test—a whiff, a sniff—and they still left him up in the air!

But then he got his feet on the ground. He learned that there is a reliable way to discover how mild a cigarette can be!

And that test is . . .

The sensible test . . . the 30-Day Camel Mildness Test which simply asks you to try Camels as a steady smoke—on a pack after pack, day after day basis. No snap judgments needed. After you've enjoyed Camels—and only Camels—for 30 days in your "T-Zone" (T for Throat, T for Taste), we believe you'll know why . . .

More People Smoke Camels than any other cigarette!
