

Through the Hoop

Jack Gwynne, "Master of Magic," passes a hoop around one of his assistants to show there are no strings, during one of his finals. The magician will begin his show today at 5 p.m. in front of the MSC when he drives a car blindfolded on the

campus. He will also attempt to hypnotize several of the Aggie Students on the stage of Guion Hall. Sharing the show with Gwynne will be a team of West Point Cadets who will debate with the Aggie team following the 7:30 p.m. show.

Council Has Big Job

(Continued from Page 2) You who are considering a try for the office know whether you possess the interest and enthusiasm that is so vital. If you are interested, you may gain further insight into the job and its duties by talking with MSC Council President Joe Fuller or to J. Wayne Stark, MSC director. Fuller's office is located across from the Browning Library and Director Stark can be located in the Main Office at the end of the corridor.

Filing — Where and How

Under provisions of the Council Constitution, there are two categories for the two at-large posts. One is for students who are not now in later than their fourth semester of college. This provides for at least one junior or sophomore on next year's governing body. The second category is open to students of any classification, except seniors who will graduate in June, the Summer, or next January. Both categories require a grade point ratio of 1.00 or better and

membership in the MSC for at least one year. (This means candidates must have attended A&M for one year.) Petition blanks are provided and students may file for election with Miss Betty Bolander, assistant social and educational director. She is located in the MSC "front office" adjacent to the main desk in the front lobby. Deadline for filing has been set at 5 p. m. Friday and the student-body-wide election will be held Tuesday evening, March 20.

Rodeo Area Gets New Judges Stand

Members of the Saddle and Sirloin Club and Rodeo Club are nearing completion of the judges stand and south side bleachers of the newly erected rodeo arena. With the completion of these two projects, the arena will be one of the best constructed and facilitated arenas of its type in Texas. The arena was first used last November for the intra-collegiate rodeo and will be used for the inter-collegiate rodeo in the early part of April. All of the construction has been done by students with the able assistance of some of the interested animal husbandry professors.

Ag Honor Society Hears About Korea

R. C. Jaska's talk on his experiences in Korea and Japan last June highlighted a meeting of the Agricultural Honor Society recently in the MSC. Slides of some of the first action in Korea were shown. Dean Shepardson gave an invitation talk to the prospective new members of the society.

Picking Best Prof Tough Job, Decide Ag Councilmen

The best professor in the School of Agriculture. Who is he? To find this man would be quite a job, it seems. But members of the Ag Council have decided to try to find him and give him the recognition he deserves. They are not forgetting the difficulty of this job. In fact, when this project was first presented to the Ag Council, the first question was, "can it be done?"

Charley Modisett, an engineering major who graduated last June, presented the subject to the Council at its final meeting last Spring. Modisett suggested the Council present an award or plaque to the

Garden Club Vetoes Show

A&M Garden Club members met Friday afternoon in the MSC for a corsage clinic. Mrs. O. K. Smith presided at a short business session. Members voted not to have a Spring flower show. Mrs. R. E. Snuggs, program chairman, introduced Mrs. R. E. Lyle who in turn presented Mr. and Mrs. J. R. Odum. Odum demonstrated points in corsage making while his wife explained the procedure to members. He made corsages of gladioli, Dutch iris and daffodils. After the demonstration, the group divided into sections, each with an instructor, and made corsages. Mrs. Lyle, Mrs. W. Fred Farrar, Mrs. E. D. Parnell, Mrs. Abbie Stevens, Mrs. G. B. Wilcox, Mrs. Smith and Mrs. Ralph Lee assisted in instructions. Hostesses for the afternoon were Mrs. Carl Landiss, Mrs. R. E. Schiller, Jr., Mrs. H. T. Kennedy and Mrs. Dona Carnes.

faculty man in the School of Agriculture who does the best job of putting over his material. No definite action was taken on the subject at that time. It was discussed pro and con by the Council members, and Dean John Bertrand, who met with the Council, expressed the opinion that such an undertaking certainly merited consideration. With the general consensus of opinion among the students that the project was worthwhile but difficult, the subject was referred to the 1950-51 Ag Council for further consideration. At the December, 1950, meeting of the Council, the recommendation for a "Best Professor" award was again discussed. Arguments for and against making the award were in about the same vein as when the subject was introduced the spring before. However, the Council members decided to appoint a committee

Game Sidelights

(Continued from Page 3) the worse record in basketball history—not by a long shot, or even a crisp shot. Odds and ends on this former jinx: A&M hadn't defeated Texas in basketball, football or baseball in Austin since 1943—until last night. The Cadets hadn't turned the trick on the Gregory Gym hardwood since 1934. During that year, such notables as C. G. "Spike" White, Taylor Wilkins, and W. G. "Breezy" Breazeale were A & M cage sharpshooters. The last football victory for A&M in Austin was in 1922, the last in baseball in 1943. One jinx down, two to go.

What's Cooking

- AG COUNCIL, Wednesday, 7:15 p. m. Senate chamber.
- ARCHITECTURAL WIVES SOCIETY, Wednesday, 7:30 p. m. South Solarium of YMCA. Mr. Hal Moseley, design professor, will speak.

The Ladder Of Advantages

Yes, the advantages offered by Texas A&M College to the prospective student are the first steps up the ladder of success in life. You, a student at A&M, should help your home-town friends to climb this ladder.

A&M needs top-quality men as students, so it can continue to turn out top-quality graduates. And a reputation for top-quality graduates means that your degree is worth more, both in money and in other, less easily measured values.

A boost from you may help the undecided young high school senior settle on A&M as the college of his choice.

So give him that boost! Talk to him now about A&M, and SELL him on enrolling here.

Russian Embassy Joined In Atom Bomb Spy Ring

New York, March 14—(AP)—The Russian embassy in Mexico City was linked in testimony yesterday to a spy ring accused of stealing some top United States atom bomb secrets. Former Sgt. David Greenglass, 29, a confessed member of the ring, described the embassy as the key point in an escape route for spies when the FBI got too close. Greenglass said he was instructed specifically by his brother-in-law, Julius Rosenberg, an accused spy, in contacting the Russian ambassador in Mexico last June. Rosenberg, 33, an electrical engineer, is on trial in federal court with his wife, Ethel, 35 (Greenglass' sister), and radar expert Morton Sobell, 33, on a charge of conspiring to spy for Russia. The witness said Rosenberg be-

came alarmed after the arrests of Dr. Klaus Fuchs in England and Philadelphia chemist Harry Gold in the United States on espionage charges. Greenglass, who previously was employed on the atom bomb project at Los Alamos, N. M., said Rosenberg told him to leave the country "as soon as possible." Greenglass said Rosenberg gave him these detailed instructions: Go to Mexico City. Write to the Russian ambassador. Say something favorable in the letter about the Soviet position in the United Nations and sign it "I. Jackson." Three days later go to the statue of Columbus in Mexico City with a travel guide. You will be approached by a "contact" man. Comment to him that "it is a magnificent statue" and add that you are from Oklahoma. The contact will identify himself by saying there are more beautiful statues in Paris. Then he will give you money and a passport. From Mexico City you will go to Vera Cruz, then to Sweden. In Stockholm you will follow the same procedure at the statue of Linnaeus and make contact with a man who will arrange transportation to Czechoslovakia. In Czechoslovakia, write to the Soviet ambassador, this time signing your full name. Greenglass said he told Rosenberg he had decided "to stay right here and do nothing." Ten days later FGI agents nabbed him.

Williams Named Community Head

D. W. Williams, 416 Throckmorton, has been appointed community chairman of College Station for the East Texas Chamber of Commerce, officials of ETCC announced Monday. Other Brazos County community chairmen are R. I. Bernath of Bryan, C. W. Fisher of Kurten, and Ward Mooring of Steeles Store. The ETCC reported these men were selected to help raise the county's quota for the regional chamber, and to help keep its citizens informed of the work being carried on. Community chairmen will serve as contact men for the ETCC and will head the community's delegation to the regional chamber's convention in Waco April 19-20, they said.

Talent Bureau to Hold MSC Auditions Tonight

Auditions will be held tonight by the MSC sponsored Talent Bureau from 5-6 p. m. in the social room of the MSC. The talent bureau is looking for dancers, according to Miss Betty Bolander, assistant social director of the MSC.

Fish-Game Club To Hear Marsh

Members of the Fish and Game Club will hear Ernest Marsh, assistant director of the Division of Wildlife Restoration of the Game, Fish, and Oyster Commission speak tonight at the regular meeting of the club. Marsh, who is stationed now in Austin, will be honored by the Fish and Game Club at a dinner tonight in the MSC. Following the dinner Marsh is scheduled to speak at 7:30 to the club on the third floor of the agricultural engineering building. His topic is unannounced as yet.

Put Spring In Your Stride

Always travel with that spring in your stride that comes from the assurance that you will arrive well groomed. With the Tawn travel kit you can do just that. This new travel kit is the answer to your prayers—nothing is left out, everything is there just as though you had selected the items yourself.

The Tawn kit has a waterproof plastic cover, and folds into a very small package. You will be surprised to see how complete these kits are. Come in today and see us for one of these kits.

THE EXCHANGE STORE
"Serving Texas Aggies"

TEXAS A&M

Excellent Recreational Facilities

Tell your home-town friends about the fine facilities for swimming, tennis and other sports. Tell them about the new Memorial Student Center and all it offers for leisure activities.

The comradship of Aggies is well-known everywhere Aggies go. The feeling of belonging, of being part of a highly-thought-of group, is a characteristic of A&M students.

In comparison with other schools, an education is inexpensive at A&M. From the standpoint of both living costs and educational costs, you can't lose by attending A&M.

Most of the population of Texas is concentrated in the region east of the Pecos river. And A&M is located in the central part of this region. So, wherever you live, you are within easy distance of the Agricultural and Mechanical College of Texas.

Wherever an A&M graduate goes, his degree is held in high esteem because of the high standards enforced at A&M. Top-quality graduates come from A&M, because the college demands top-quality work from its students. You'll be proud of your degree from A&M.
