

# Scientists and Teachers Hold Meeting Here Today

Scientists and science teachers from throughout the state will be flocking to the campus today for the regional meeting of the Texas Academy of Science, starting here tonight.

The gathering, which will last through Saturday, will feature speakers prominent in many fields of science. High school science teachers from throughout the state have been invited as special guests.

The meeting is part of the Arts and Sciences week observance which lasts through Sunday.

Initial meeting of the group will be tonight at 8 when Dr. Kurt Mendelsohn of Oxford University, England, speaks on "Aggregation of Matter."

Science Opportunities

Interested students have been urged to attend the symposia scheduled tomorrow and Saturday. The first of these, set for tomorrow morning at 9:15 will concern "Op-

portunities for Professional Careers in the Sciences."

Making up the panel will be L. L. Gee, Biology Department; J. R. Couch, Biochemistry and Nutrition Department; A. A. Price, School of Veterinary Medicine; R. O. Reed, Oceanography Department and L. T. Kent who will speak on Astronomy.

Contributed papers on physical sciences will also be presented at 9:15 a. m. tomorrow.

Electronic Demonstrations

At 11:15 tomorrow morning, C. N. Hoyer or RCA Research Laboratories, Princeton, N. J., will give an "Electronic Computing" demonstration lecture in the Physics Lecture Room. Hoyer appeared on the campus last year.

Vice president in charge of research for the RCA Labs, Hoyer was formerly a professor of physics at Moravian College. He at one time invented an electronic sewing

machine. He has also written a book and numerous papers on "Theory and Application of Radio-Frequency Heating."

A Friday luncheon will include conference on pre-professional and professional relations in medicine, dentistry and veterinary medicine.

Professional Opportunities

A symposium on "Opportunities for Professional Careers in the Physical Sciences" will be held tomorrow at 1:30 p. m.

This session will include C. H. Green, Geophysical Service, Inc., Dallas; H. T. Dowell, Chance Vought Aircraft Corp., Dallas; D. D. Lee, E. I. Dupont de Nemours Corp., Orange; Hoyer; Wayne Taylor, Denton High School; and S. R. Farris, Magnolia Petroleum Company, Dallas.

Contributed papers on research in biological and social sciences will be presented at 2 p. m. Friday.

Demonstrations and films on electron microscopy will be held Friday afternoon at 4.

# Church News Short Course Gets Started

The short course on church and religious news, publicity and public relations closes tonight with an address by Lynn W. Landrum, editorial writer for the Dallas Morning News.

Landrum calls himself the "most sworn at and sworn by editorial writer in Texas if not the entire United States."

Miss Ruth Tucker, news editor for the Baptist General Convention of Texas was the first speaker on this morning's program. She spoke on "Publicity and Public Relations for Church Groups."

Art Production Manager

At 10:15 this morning, Aubrey Streater, art and production head for Whaley Studios, Dallas, gave a talk on "Art and Production of Promotional Material for a Religious Organization."

Immediately following Streater's talk, J. Walter Creep, managing editor of the Lufkin Daily News, led a panel discussion of "Individual Church Publicity and Public Relations."

Following the panel discussion, the group adjourned for lunch in the Assembly Room.

This afternoon, Mrs. Harvin R. Lewis, church news editor of the Houston Post explained "Getting Cooperation between Newspapers and Churches."

Wendell Bedichek, publicity and public relations director, Abilene Christian College discussed "Getting Reader Interest into Religious News" at a later afternoon session.

Newspaper Editor

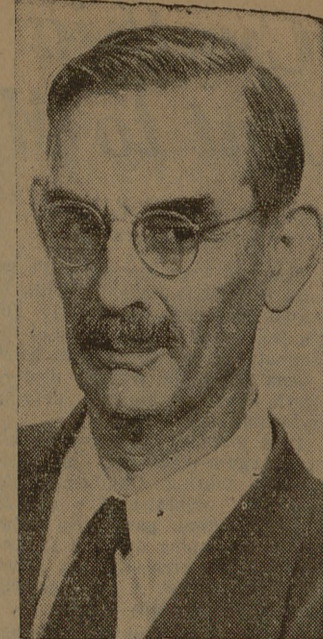

Later this afternoon, "What the Weekly Newspaper can use in Church News," will be discussed by J. C. Smith, Editor of the Liberty Vindicator.

The final speaker on the afternoon program is DeWitt Reddick, Journalism Professor from the University of Texas who will discuss "Experiments in Religious News Reporting."

Landrum Principal Speaker

At 7:30 tonight in the Ball Room of the MSC, Landrum will give the principal address. His subject as yet has not been disclosed, but according to Professor Otis Miller of the Journalism Department, it will be on "some phase of church news and from the editorial standpoint."

Approximately 170 delegates from over the state have been in attendance at the short course. Miller expresses the hope that a much more extensive short course can be held in the future.

Lynn Landrum Church News Speaker

# Contributions Aid Experiment Station

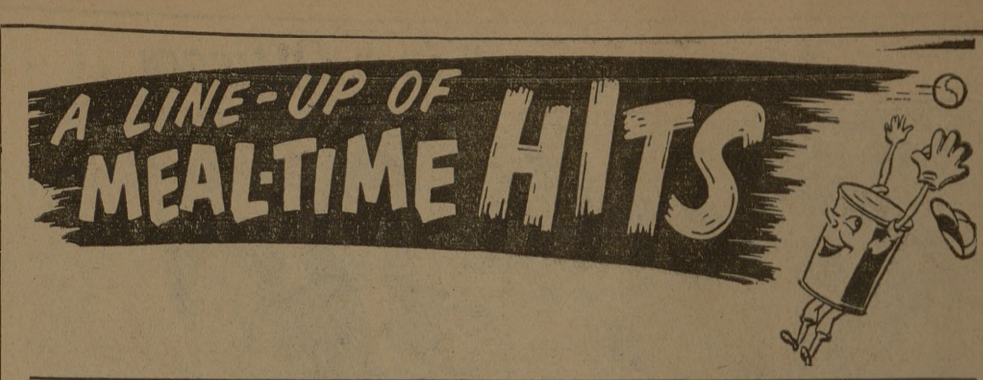

The Texas Agricultural Experiment Station, has received three grants totaling \$3,950 to aid the station's research, Dr. R. D. Lewis, director of the station said today.

A check for \$2,000 was received from the U. S. Public Health Service's research grants division for purchase of refrigeration facilities for use in connection with research on the nutritional requirements for embryonic development and growth.

Dr. I. W. Bales, director of field research on the nutritional requirements for embryonic development and growth.

Dr. I. W. Bales, director of field research, Chipman Chemical Company, Bound Brook, N. J., sent a check for \$450 to aid cotton defoliation studies at the Lubbock station.

A contribution of \$1,500 came from Stauffer Chemical Company for research with chemicals for controlling cotton insects.

# Specials for Friday & Saturday — April 6th & 7th

- SPECIALS ●
- Imperial Pure Cane Sugar . . . . . 5 lbs. 38c
- Crisco Shortening . . . . . 3 lb. 98c

VETERANS WIVES BRIDGE CLUB, Thursday, 7:30 p. m. MSC. Monthly business meeting.

# Atomic Speaker

Dr. L. B. Russell of the Oak Ridge National Laboratories will speak at a dinner Friday night at 6 p. m. Her subject will be "Radiation as a Tool in Mammalian Embryology." Colleague A. C. E. M. J. Brian Eby.

Saturday's session will open with a symposium on "High School Science Teaching."

Speakers will be Dr. C. C. Doak, head of the Biology Department; H. T. Jones of Prairie View University; R. H. LeRoy, Chemistry Department; and T. N. Hatfield of the Texas University Physics Department.

# Papers to be Presented

Contributed papers on research in earth sciences and geology and paper on research in biology and conservation will be presented Saturday morning.

Most sessions of the three-day meet will be held in the new Biological Sciences Building. Dr. Doak is president of the Texas Academy of Science.

# Fellowships Open For Grads Abroad

Two fellowship opportunities for American graduate students for a year's study in West Germany were announced today by the Institute of International Education in New York City.

The fellowships are made available by the Deutsche Akademische Austauschdienst in Bonn, Germany, and are 2,250 Deutschemark each, sufficient for the students' full maintenance for the academic year.

To be eligible, applicants should present proof of American citizenship, demonstrate academic ability and capacity for independent study, have a Bachelor's degree by November 1, 1951; show a good knowledge of German, and possess good moral character, personality, and adaptability and good health.

Students who believe they are eligible and wish to file applications or secure further information, may contact the Institute of International Education, 2 West 45th Street, New York City. All applications must be filed with the U. S. Student Program of the Institute by May 10.

# Marauders Morbid, Snitch Headstones

Pekin, Ill., Jan. 15—(AP)—Who would steal tombstones, and why? The Tazewell County Sheriff's staff was searching for the answers to those questions today. So was Bernard Abel, proprietor of the Abel Vault and Monument Company.

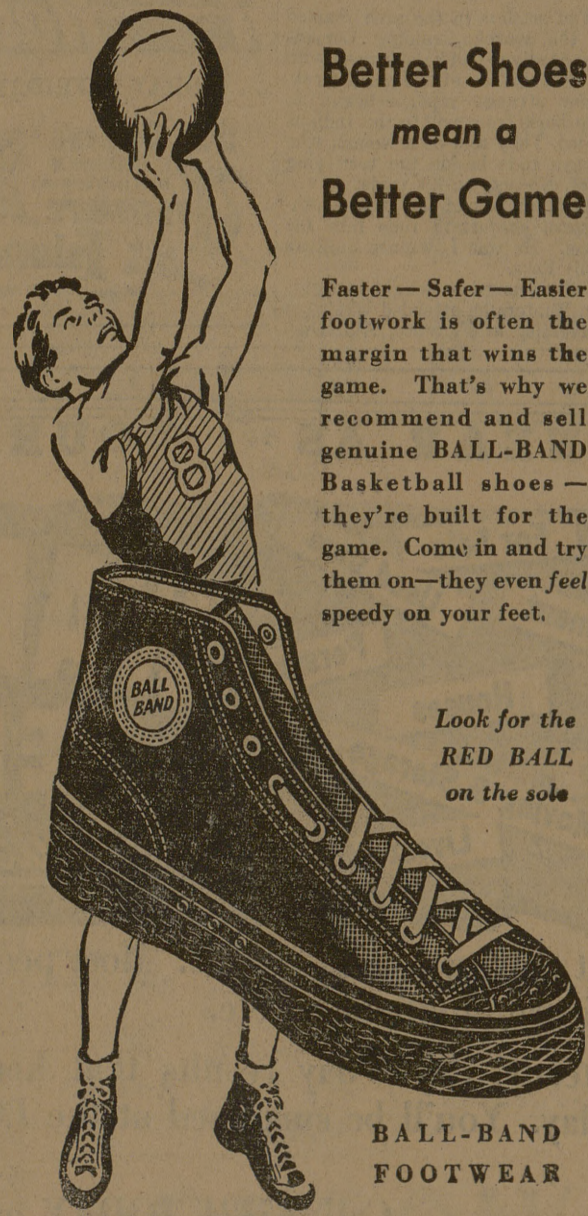

Abel says one stone was carted away in the night last fall. He noticed Thursday that a 300 pound stone was missing from its usual place. Then Friday he discovered A 150 pounder was gone.

- S. R. Wright, W.M. N. M. McGinnis, Sec.

# Official Notice

Senior ring orders for the class of 1952 will be accepted in the Registrar's Office after May 1. These rings will be delivered at the Registrar's Office to the owners after August 5, 1951. They may be mailed to the student for an additional charge of 25 cents. These rings can not be mailed to summer camp addresses. All rings must be paid for in full when the order is placed. The ring window is open each week day from 8 a.m. to 12 noon.

H. L. Heaton Registrar

The School of Military Science and Tactics is studying the advisability of offering one semester for credit of MS II and AS II to be completed during the two summer school terms of twelve weeks total to only those cadets who will be academically qualified for advanced contracts next fall except that they lack only one semester of Basic Military Science. Accordingly, any student in this situation is requested to report in writing to his MS or AS instructor by 9 April 1951 whether he (1) will probably take or (2) will definitely take such a course, if offered. The report should also include expected academic standing (hours, grade points, ratio, classification, and major course) and completed Military Science semesters as of the end of the present spring semester. The feasibility of offering such a course can only be determined from a study of these reports.

It must be borne in mind that the spirit behind the offering of summer school ROTC work is to bring into step the academic and military instruction of our students or to shorten the duration of their college careers. The operation of the Selective Service Act and the reputation of this college makes us look with disfavor upon any innovation in our Military Science instruction which would prolong the college career of any individual beyond the normal duration.

H. L. Boatner Colonel, Infantry Commander PMS&T School of Military Science
