

Hand-Wrought Glass Show Being Prepared by MSC

By BRYAN SPENCER
Battalion Staff Writer
A show of hand-wrought American made glass is now being prepared for exhibition tomorrow to April 29 in the Social Room of the MSC.
As I walked in the door, one thing came into my mind. "This is going to be a you-name it, we-have-it-regardless-of-size, shape, color-or-what-have-you-in-the-field-of-American-hand-made-glass-situation."
This display, the second of its kind in colleges in the US—the

other being at the University of Omaha—is for the purpose of showing the American housewives that American handmade glassware is just as good, if not better, than European make.
The show is being slanted toward students who have an interest in beautiful glass (you are not always going to eat in a mess hall men, chances are you will probably have a better looking roommate at some later date also), and student wives who are beginning to collect glass for their homes.
Included in the exhibit, will be

a 30 minute color film on American glass.
All the glassware has been loaned by Blenko, Bryce, Cambridge, Duncan, Fostoria, Heisey, Imperial, West Virginia and Williamsburg glass companies. None of the glass is for sale.
Included in this display will be a complete set of dining room furniture, with the table set. The furniture will be furnished by Joske's of Houston.
Some of the glassware was shown in Life magazine in its article American Best Finest Home Furniture. Another magazine, Woman's Home Companion, carried another article on the Cambridge Arm, an epergne that comes with numerous accessory units with which unlimited arrangements of the epergne can be made.
The exhibit will include decanters, punch bowls, pieces of milk glass, amber glass, chartreuse glass and other colors.
Fruit boxes, figurines, cocktail glasses, and shakers crystal tumblers, ashtrays, candy boxes, compotes, and sherbert glasses.
Others are goblets, clarets, ice cream dishes, salad bowls, oyster cocktail cup, ice tea glasses, sau-champs, wine glasses and cordial glasses.

Resting in the sun on the spring board at the Shamrock Swimming Pool in Houston are Corkettes Mary Coy, left, and Lynn Holly. They will appear at the Aggie Water Carnival Friday and Saturday nights in the P. L. Downs Natatorium.

Did You Know

(Continued from Page 3)
Braves set an all-time record by hurling 26 innings to a 1-1 tie... softball sets the national pace in sports attendance by 50,000,000... in Stanley Woodward's recent publication Who's Who in Sport, fifty of the best basketball guards in the country are listed, including SMU's Freddy Freeman, but Jewell McDowell was excluded... in the same magazine, among 100 of the countries best

backs, Larry Isbell, Bruis'n' Bob Smith, Gil Bartosh and Bobby Jack Floyd were representatives of the SWC. Compare the last man with Glenn Lippman or Billy Tidwell... the "ironmen" of their sport are Lou Gehrig, Bob Mathias (track), Florence Chadwick (Swimming), Willie Hoppe and Jim Thorpe... the first Marthon runner, Pheidippides, (490 B. C.) did what all Aggies wish the Steers would do; he dropped dead...
Kentucky is the only basketball team to win the NCAA tournament three times... St. John's (Brooklyn) and Long Island U. are the only basketball teams to win the NIT twice... we might get a head football coach if we aren't careful... there are 246 shopping days left until Christmas.

Or Have You Considered That?

Emil "Dutch" Leonard and Sid Hudson are still throwing 'em past major league batters at the ages of 41... a woman will outlive a wolf by more than 30 years... that contrary to popular belief, Jane Russell's bust is not 38 but only a small 37 and 3/4 inches (Heck, that's sports)...

College Qualification Test

(Continued from Page 1)

The application will be self-addressed and will require a one-cent stamp. On the application form you will be given the choice of where you would prefer to take the test on each of the three dates. You may not choose the date on which you will take the test.
During the first test day, Saturday, May 26, most presently enrolled students concerned by the test will be at College Station taking final exams or studying for finals. Since the test will be given at A&M, you should probably indicate "1087 (the numerical designation of the A&M testing center), College Station." Numbers and locations of other testing centers in Texas will be furnished you with the application.
Your choice of testing centers for the other two dates will have to be determined by your plans for the summer. Students planning to attend the first semester of summer school would probably want to indicate the A&M testing center for all three dates.
Also required on the application form will be the applicants place of residence and selective service

number. In complete or incorrectly completed applications will not be considered. And no one may submit more than one application.
In due time a ticket of admission will be returned to you telling you where and when you are to take the test. You will not be allowed to take the test at any other time or at any other testing center. And no one without a ticket of admission will, under any circumstances, be allowed to take the test.
Reporting for Test
When reporting for your test you will be required to have the ticket of admission, an official document showing your selective service number and the exact designation, number and address of the Selective Service board having jurisdiction over you (your Notice of Identification or Notice of Classification will serve this purpose), and a fountain pen or number two pencil.
You will not be allowed to carry anything else into the testing center. That includes scratch paper, books, notebooks or other material. All of these will be forbidden in the center.
Reporting time for the tests will

be 8:30 a.m. Applicants arriving late will not be allowed to take the test. The examination itself will last from 9 a.m. to 12:30 p.m. All persons taking the test will be fingerprinted for identification purposes.
Questions on the test will be of the kind found in the college entrance examinations and ROTC qualification tests given students during their first year.
These questions will be comparatively difficult. In a sample sheet of questions received in The Battalions office, seniors of good academic standing recorded scores of about 82.
A grade of 70 on the test will be considered minimum for deferment purposes. However, a grade above or below this is no absolute guarantee of anything. The option still rests with your local board.
Decide on Test
Essentially, then, you must decide whether or not to take the test. You should be able to base your decision on the information contained in this article. And, should you decide to take the test, you should act immediately to get an application form from the local board.
Some of you may have read of the possibility that the College Qualification Test has met with disfavor in Congress and may be scuttled. These reports are true. However, at present there is no indication one way or another. Your safest bet is to determine your need for taking the test and to make arrangements now. You have everything to gain and nothing to lose.

USE BATTALION CLASSIFIED ADS TO BUY, SELL, RENT OR TRADE. Rates... 3c a word per insertion with a 25c minimum. Space rate in classified section... 60c per column-inch. Send all classified to STUDENT ACTIVITIES OFFICE. All ads must be received in Student Activities office by 10 a.m. on the day before publication.

Battalion Policy

(Continued from Page 2)

When we support or oppose an issue, we feel that we are doing so "in the interest of A Greater A&M College." Likewise, when you put your opinions into a letter, we expect your thoughts also to be in the interest of A&M.
Of necessity, if the college is to grow and prosper, your thoughts cannot be *only* in your interest, the interest of the Senior Class, the civilian students, the Cadet Corps, or any other segment of A&M. All of A&M and the years ahead must be considered.
Space has been taken to discuss these basic attitudes and policies because The Battalion wants its readership to understand how it thinks, whether they agree with what it thinks or not.
Keep in mind in your criticisms that when you lash out at the entire paper you are speaking to many students who are giving their time in your interest. Criticism of Battalion thinking should be defined as such, so that it will pertain only to the co-editors, who are responsible for receiving and considering such criticism.
