

Batt Writer Aided—

(Continued from Page 2)
 suggestions were for having more Basic Division personnel; 3 percent wanted a more definite probation policy; 3 percent wanted more authority for the company commanders; 3 percent wanted the freshmen to be with the rest of

the Corps, and 10 percent of the suggestions were of a miscellaneous nature such as: Provide religious counselors, sell program to the freshmen, stop "babying" freshmen, more military drill, etc.

My conclusions after examining the above-mentioned, objectively-

obtained opinions about two of the points made by The Battalion writer are:

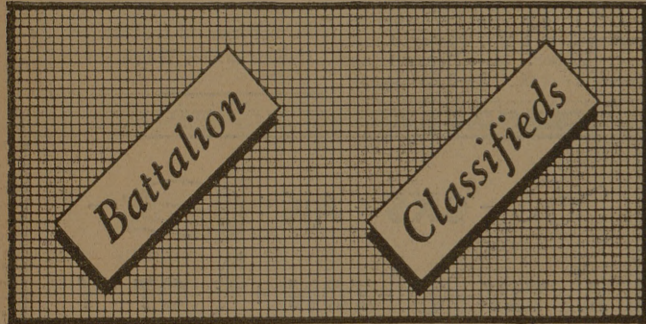

● There has been almost complete cooperation between military counselors, the Commandant, the personnel assigned to the Commandant's office, and the cadet officers assigned to the Eighth Regiment.

● The cadet officers assigned to the Eighth Regiment were extremely well-chosen for their work.

Effectiveness Counts

Of course it is true that some cadet officers were more effective than were others. It is also true that some teachers, some administrators and some college students do more effective work than do others. Regardless of an improved criterion and procedure for the selection of Basic Division personnel, it undoubtedly will always remain a truism that some persons in the Basic Division will be more effective in their work than are others.

In its series of articles the Battalion has helped the Basic Division to look back at some of its failures as well as some of its accomplishments this year. The Basic Division will always welcome critical analyses of its program from various persons who have observed it closely. It feels that constructive criticism is a real contribution to the building of a sound program. For this, our thanks go to the Battalion.

Campusology

President Rupert N. Richardson of Hardin-Simmons University in Abilene, has awarded "Tuffy" an honorary degree in "campusology." The dog has been around the campus for four years. He belongs to John Ford (left) and Gene Offield. "Tuffy" may stay with his owners to work on a master's degree. All three friends are from Breckenridge.

Harrington Speaks

Officials Dedicate Adjunct at Junction

The Texas A&M College Adjunct at Junction was dedicated last week, with many officials of the College System being on hand in Junction for the program.

Dr. M. T. Harrington, A&M president, praised former Gov. Coke R. Stevenson and the late Weaver Baker of Junction, State Board of Control chairman, and Junction and Kimble County officials for their efforts in making the adjunct possible. Baker, Junction attorney, helped conceive the idea of the adjunct on the 411 acres in the Matta P. Ricks Estate. Kimble County provided the 60,800 needed to purchase and improve the adjunct site.

Farmer Presides
 J. S. Farmer, Kimble County ranchman and Texas livestock leader presided as master of ceremonies. He is former trustee of the property deeded to the college by Kimble County. He introduced Dr. Harrington. Members of the board of directors headed by Brady Ranchman G. R. White were introduced along with Gibb Gilchrist, chancellor of the A&M system.

Others introduced included Dr. John Bertrand, director of the adjunct which will open June 4, and also dean of basic education at A&M; C. H. Ransdell, assistant director, E. L. Angel, assistant to

Former Students

(Continued from Page 1)

New district vice-presidents named at the meeting are as follows:

1. O. L. Byrd, Lubbock; 2. William Fields, Sonora; 3. J. Lockett Shelton, Abilene; 4. Ernest Bruss, Dallas; 5. Roy Willoughby Paris; 6. L. L. David, Corsicana; 7. James Forsyth, Houston; 8. Thomas A. Murrain, San Antonio; 9. J. T. May, Bishop; Louisiana district, W. L. Hiller, Lake Charles; and out of state district, Olin E. Teague, Washington.

Remedial Reading Courses Due 1st Term

Two courses in Remedial Reading will be offered the first term of summer session, today said Dr. Albert J. Kingston, director of Remedial Reading for the Basic Division. One course will meet daily from 7 to 8:15 and the other from 9 to 10:15, Kingston stated.

Marked improvement in reading speed has resulted from Remedial Reading courses in the past, according to Kingston. He cited last semester's students as an example. The mean average speed of the 172 students at the beginning of the term was 215.32 words per minute. At the end of the term their speed was 332.18 words per minute.

A college student should be able to read at a speed of 300 words per

Ellwood Will Head Rural Sociologists

Burke C. Ellwood has been elected president of the Rural Sociology Club.

Ellwood is a junior Rural Sociology major from Bryan. Donald Martin, a sophomore R. Soc. student from Corpus Christi, was elected vice-president. Robert C. Tate, who was elected secretary-treasurer, is a junior R. Soc. major from Crystal City.

Campus Interviews on Cigarette Tests

Number 21...

THE PELICAN

"How much do they think I can swallow?"

OUR easy-going, big-billed friend has learned to say "No" to these hurry-up, one-puff, one-sniff cigarette tests! "Why", says he,

"they don't even give you time to finish the cigarette before you're supposed to decide which is mildest!" Millions of smokers have come to the same conclusion—there's just one real way to test the flavor and mildness of a cigarette!

It's the sensible test . . . the 30-Day Camel Mildness Test, which simply asks you to try Camels as a steady smoke—on a pack-after-pack, day-after-day basis. No snap judgments needed! After you've enjoyed Camels—and only Camels—for 30 days in your "T-Zone"

(T for Throat, T for Taste), we believe you'll know why . . .

More People Smoke Camels than any other cigarette!
