Chinese Reds Get 'Pick up' From Cease-Fire Proposal

Tokyo, June 26—(AP)—Chinese Reds swarmed to battle in Korea's choking dust today after the Peiping radio advanced Russia's cease-fire proposal as China's own.

The hardest fighting raged in the rolling hills. Fire bombing planes swooped in close to the lines and blasted Chinese attackers.

For the 131st consecutive day U. N. warships bombarded Wonsan, east coast port and transport center.

Reds mustered a force strong enough for a major attack north of Inje on the east-central front.

Hit Northeast Sector

The Reds also smashed into allied lines northeast of Kumhwa on the central front. Doughboys withdrew under cover of a heavy artillery barrage after a bitter seven-hour battle through the early morning hours.

Peiping radio had barely finished a long broadcast saying the Chinese people were behind the cease-fire move advanced by Russia's U. N. delegate Jacob Malik when Communists slammed anew into allied outposts.

And as fighting sharpened in Korea general headquarters in Tokyo issued a memorandum saying Washington officials looked with caution on Malik's proposal.

"Responsible officials in Washington were fearful that the cease fire part of Malik's proposal might

dividing line between Red North and Republican South Korea.

"There is always the danger of a counterattack and the breaking of an armistice," the memorandum noted.

"The idea of a demilitarized zone is not rejected as such and it is recognized that this part of Malik's proposal has some validity, but not necessarily a withdrawal from Parallel 38."

Allies are operating as much as 20 miles north of the 38th Parallel, have been a cover for military advantage," the memorandum said.

"If, for instance, the Malik proposal were accepted and U. N. forces withdrew from Parallel 38, it raises the military question whether such a move would be just a shift in battle lines to place the enemy in a better position militarily."
