nerve cells was announced here yesterday.

The report was made at the opening session of the second international poliomyelitis conference. The five-day meeting, attended by some 500 doctors and researchers from scores of nations, is sponsored by the National Foundation for Infantile Paralysis of New York and the Danish National Association for infantile paralysis.

In the main, however, the treaty is expected to be signed as is, daying been drawn after months of diplomatic exchanges designed to avoid what the Russians are trying to produce, a big climactic debate.

Present plans call for the usual round of speechmaking, whereupon the treaty will be laid on the table on strike to return to work.

ralysis.

The report showed that it is possible to get drugs to penetrate the nerve cells to attack the polio virus. All medicines thus far have failed because the polio virus that causes the disease inside the nerve bassador of the Czechoslovak Communist puppet government, has been in Washington only a few days, but already he "has seen get in to work on the virus.
