

# Czechoslovakia's Porcupine Back on News Stands--Again

New York, Sept. 13—(AP)—Dikobraz, Czechoslovakia's "Porcupine" has done it again.

For the second time in less than a year, the Prague weekly satirical magazine Dikobraz—it means porcupine—appeared on the Czechoslovak news stands filled with a fistful of underground barbs at the Red regime.

Somehow, underground editors managed to publish an edition in April with a cover that looked complimentary to Czechoslovakia's Communist bosses. But just inside and for six more pages, the magazine was filled with cartoons and stories that mocked and derided

Russian, Czech, Slovak and every other kind of Communist they could pack into the pages.

There were cartoons that pointed up the Prague gossip about President Klement Gottwald's drinking habits. There were jokes about the heads of the government. There were digs at Stalinism and shock-workers, jibes about the whole Red structure of the new Czechoslovak bureaucracy.

Dr. Jan Papanek, former Czechoslovak delegate to the U.N., who was bounced by the Reds, received one of the two copies known to have been smuggled out of Czechoslovakia. He is still trying to find

out what the regime did about it. But underground reports from Prague are slow after a feat like this is pulled off.

Papanek is a member of the National Committee of Free Czechoslovakia, formed by Democratic Czechoslovaks in New York from among those who managed to escape the Communists.

Papanek said Dikobraz' circulation is about 300,000 copies a week but he did not know how far the fake issue had gotten. He did hear, though, that the people in Prague were offering as high as \$20 a copy for the magazine which normally sells for 6 cents.

## Military Wheels

Heads of the military department get their heads together to make plans for the coming year. Left to right they are Col. Shelly P. Meyers, PMS&T, Col. E. W. Napier, PAS&T, and Col. Joe E. Davis, commandant and coordinator of military affairs. This year the position of commandant has been separated from that of the PMS&T. As Commandant, Col. Davis will coordinate the plans of the military department, both the Air Force and Army.

Minister Jackson continued his education abroad as he attended the University of Edinburgh in Scotland, working towards his Ph. D. In the next seven months he visited Europe and spent three months in Palestine.

Returning to the states, he married the former Miss Helen Thompson of Swainsboro, Ga. She has a

Minister Jackson joined the South Georgia Methodist Conference and was assigned to Lumber City, Ga. where he spent two and a half years. He then went to Eastman where he rebuilt and dedicated a church.

From Eastman, Mr. Jackson was transferred to Houston and became assistant minister to Minister Paul Quillian, at that time pastor of the Houston Methodist Church in the largest Methodist Church in the world with over 7,500 members. He then moved to Carthage where he remained two years before coming to College Station.

atomic bomb stockpile is a closely guarded secret.

McMahon also declined to say whether there was any connection between his statement and President Truman's San Francisco speech last week in which the President spoke of "fantastic" new

weapons that could "wipe out civilization."

Mr. Truman made it clear that what he had in mind was something else than what he called the weapon "we all fear the most"—an apparent allusion to the projected hydrogen "hell bomb."

Since Mr. Truman's disclosure, there has been a rash of congressional hints about weird and shuddery new weapons. Among these, Senator O'Mahoney (D-Wyo) told the Senate Monday the United States is acquiring "fantastic instruments by which man now conquers the atmosphere itself."

O'Mahoney is a member of the Senate Appropriations Committee which often hears top secrets in its consideration of requests for military funds.

Two other members of the same committee—Senators Maybank (D-SC) and Young (R-ND)—have also come up with hints about new weapons.

Senator Ellender (D-La), another member of the Appropriations Committee, commented in a radio broadcast:

"There are new weapons that will be used shortly in the Korean war."

Ellender was understood to say that all the talk about terrible new weapons was part of a "nerve war" against the Communists, rather than leaks of secret information.
