

Still Building

Garden Club To Have Big Year

By PAT MORLEY
BATTALION WOMAN'S EDITOR

For the first time in the history of the A&M Garden Club, a classification called "by appointment only" will be included in a club flower show. In the Harvest Festival, the fall flower show, to be held in the MSC Oct. 5, the new division will include flower arrangements by anyone interested in making an entry, provided he calls ahead of time to reserve a place for his entry. Interested parties may contact Mrs. Marion Pugh, chairman, or her co-chairman, Mrs. Tom Taylor.

Already able to boast of two yearly flower shows, a Home Gardeners Forum, a yearbook which last year won second prize in its division in the state contest, and a member who is also a State Committee Chairman for Highway Beautification, Mrs. Armstrong Price, the social club is still "building," and invites interested gardeners and arrangers to contact any of the officers to become a member anytime before November 1. The purpose of the club is to promote an interest in horticulture, landscape art, flower arrangement, and conservation.

by drawing covers for student magazines while attending A&M. Dr. and Mrs. Armistead, parents of three children, married in 1938, while he was instructor in the VM&S Department.

The Armisteads were gone from College Station over three years during World War II, when he served in the Remount service, stationed in Ft. Reno, Oklahoma, and also in Italy.

Directs Flower Shows

Mrs. Marion Pugh, wife of an Aggie football star who graduated in 1942, will serve the Garden Club as 2nd vice-president this year, and will be in charge of the flower shows.

She, too, knew the life of an Army wife, and says, "We've lived here off and on since 1941." Her husband served in the Tank Destroyers, then the Pughs returned here in 1947 and opened a lumber company. Mrs. Pugh joined the Garden Club in 1948, and has been an active member since then.

A member of the community for fifteen years, and wife of the Chancellor of the A&M System, Mrs. Gibb Gilchrist is 3rd vice-president of the Garden Club. Well-known as a gracious hostess, petite Mrs. Gilchrist is serving her first term as an officer of the club.

Duties of the recording secretary will be dispatched by Mrs. Betty Jane Shaw, and Mrs. R. E.

Schiller, Jr., is the new corresponding secretary for the club.

Treasurer, Mrs. C. C. Doak, came to A&M as a bride in 1925, when her husband was a graduate assistant in the Biology Department. She taught for four years in local public schools. Dr. Doak, now head of the Biology Department, and his charming wife are a well-known faculty couple.

Three Years Ago

Mrs. Fred E. Weick, wife of the Head of Personal Aircraft Research at Easternwood Airport, is reporter for the Garden Club this year. Mrs. Weick, who came to A&M in the Summer of 1948, joined the club that Fall.

The second Friday of each month, at 2:30 p. m. in the assembly room of the MSC, approximately 100 ladies will meet to hear lectures and see demonstrations of good gardening and flower arranging techniques.

Plans are being made for Home Gardeners Forum No. 2, Dec. 5, 6, and 7, under the direction of Mr. A. F. DeWerth, sponsored by A&M College. Mr. DeWerth, Head of the Floriculture and Landscape Art Department, will also direct Home Gardeners Forum No. 3, Feb. 6, 7, and 8, 1952. The first of these forums, designed to be of benefit to everyone interested in gardening in the College Station area, was held last February.

Another feature of this year's

meetings is an all-day clinic in the Social Room of the MSC Dec. 14, when members will make Christmas wreaths, corsages, door decorations, and table and mantle arrangements, which will be on sale to the public at a time and place designated by Mrs. J. T. L. McNew, chairman of the Ways and Means Committee.

Question Period

A full program this year will feature a monthly Roundup and Question Period, which will be led by Mrs. Spencer J. Buchanan. This is expected to be one of the most active seasons the club has experienced, to date.

Formed in 1938, the A&M Garden Club was begun as an organization for both men and women gardeners. Mr. George B. Wilcox, Head of the Education and Psychology Department, was the first president.

Other charter members are Mrs. J. S. Campbell, wife of an Associate professor in the Agricultural Economics Department, and Mrs. A. B. Conner. Although no longer a College Station resident, Mrs. Conner is well-known here, and visits here frequently.

Now an organization of ladies, only, the club actively cooperates with other Garden Clubs in the state, and with the State Garden Club, as well. The officers predict the 13th year, 1951-52, to be the best the club has enjoyed.

Smokestacks Definitely Out

When you are attending a club meeting, do you lean back in your chair, blow cigarette smoke skyward, scream for attention, and nominate Joe Dokes for secretary? If you do, you are out of order, says Pete Hardesty, business manager for Student Activities, who together with four professors in the English department are planning a free course in parliamentary procedure.

The course will be designed especially for members of the Student Senate, Student Life Committee, and club presidents. Plans are to offer the class either two or three times a week for a two week period, Hardesty said.

Culpepper Plans Expansion In Oak Terrace Addition

Plans are being formulated for the erection of 40 rent units in the Oak Terrace Addition, formerly Tauber tract, belonging to J. C. Culpepper, Bryan-College real estate agent and financier.

The Oak Terrace Addition, covering approximately 109 acres in Bryan and College Station, may

someday surpass College Hills as a residential area.

The plat which Culpepper plans to file at the Court House in about a week, contains specifications for a business district extending along Farm Market Highway 60 from St. Mary's Chapel to South College Road. A section of land near the circle is not a part of the Oak Terrace Addition and will be bypassed.

Approved by the Federal Housing Administration, the subdivision contains a system of roads which will connect a restricted residential section with the business district.

The rent units, duplexes, will be located one block behind the business district. Culpepper plans to erect a group of two bedroom FHA houses in the same area. The houses will cost in the neighborhood of \$8,000 to \$9,500, FFA financed.

Architects for the subdivision are Milam and Roper of Dallas.

Workmen are presently cutting streets in the area. Water and sewerage lines will be installed in the near future, Culpepper said.

Work will not commence on the rent units until a commitment is received from the FFA, said Culpepper. The boundaries of the Addition extend to Borderland Farm in Bryan.

A section of the Oak Terrace addition, near St. Mary's chapel, was sold about a year ago to Ben Ferguson. Ferguson died the same year, and the land was obtained by A. P. Boyett. A drive-in theater is scheduled to be erected on the plot.

Bryan - College Rotary Club Holds Lunch

Principal speaker at the weekly noon luncheon of the Bryan-College Station Rotary Club held at the Maggie Parker Dining Room in Bryan yesterday was Spencer Buchanan, professor of civil engineering at A&M.

Buchanan, who recently completed a tour of duty in Japan and Korea for the Air Force, spoke on "Conditions and Observations in Korea." The speaker discussed the agricultural and economic conditions of Korea as he saw them on his recent visit.

"War has had little effect on the conditions of the farms in Korea," Buchanan said. Agriculture is the main occupation in Korea, and all the work is done by hand. A farmer owning one bullock is considered an aristocrat, he added.

In contrast to agriculture, the speaker said war had dealt the industries of Korea a hard blow. He stated that the women work as hard or harder than the men in Korea. "No highway system as we know it exists, their roads being simply short community roads to the railroads," Buchanan said.

Diarrhea Leads Morbidity Report

For the week ending Sept. 15, the Brazos County Health Unit reported 47 sick cases, with diarrhea heading the list, in the Bryan-College Station area.

Eleven cases of diarrhea were reported last week. Eight of the eleven cases were in College Station. Septic Sore Throat was second on the list. Eight cases were reported in Bryan, and two in College Station.

Other illnesses which the unit reported were dysentery, three in Bryan; gonorrhea, five cases in Bryan and one in College Station; and one case of influenza in College Station.

A sole case of malaria was reported in College Station. Three cases of the measles broke out in Bryan, and a like number of mumps cases.

Winding up the morbidity report, there were four cases of pneumonia in Bryan, one case of syphilis, and two cases of whooping cough in Bryan and a like number in College Station.

Registration Opens For Dance Classes

Students wishing to take dancing lessons this year may register now in the Directorate Office in the MSC, Miss Betty Bolander, assistant social director, announced this morning.

Classes are conducted in the evenings and a schedule will be set up after men register for the classes, she said. Most of the classes are kept fairly small and are taught by experienced dancing instructors.

New Officers

Above, left to right, are the officers for the A&M Garden Club for 1951-52. Mrs. R. E. Snuggs, president; Mrs. Marion Pugh, 1st vice-president; Mrs. R. E. Schiller, Jr., corresponding secretary; Mrs. C. C. Doak, treasurer; and Mrs. Fred E. Weick, reporter. This picture was made of the officers as they stood in the receiving line of their first social, a tea held in the Assembly Room of the MSC, last Friday. Not pictured is Mrs. Betty Jane Shaw, recording secretary.

Purple Award Winner

President of the club, Mrs. R. E. Snuggs, compiled and submitted a club scrapbook which won the Purple Award in the State Garden Club in 1950. A resident of College Station since 1925, when she came here as a secretary in the extension service, Mrs. Snuggs married R. E. Snuggs, a young chemistry teacher. A longtime faculty wife, and active member of the First Baptist Church, the new president is a comparative newcomer to the Garden Club, having been a member for only about 10 years.

First vice-president, Mrs. W. W. Armistead, who also serves the A&M Consolidated Mother and Pads Club as president this year, has compiled and edited the club yearbook, "The Round-up." Dr. Armistead, a professor in the Veterinary Medicine and Surgery Department, assisted his wife by drawing the cover for the book.

E. L. Williams Has Leave Until Oct. 6

E. L. Williams, vice director of the Engineering Extension Service, has been granted leave from his duties from September 17 to October 6 to conduct the second in a series of training programs for the Health and Safety Division of the Bureau of Mines at Norton, Virginia and Barbourville, Kentucky.

He conducted the first training program for the Bureau in August. Williams' work consists of holding instructor training and conferences leading courses for the Bureau's coal mine inspectors and instructors so that they may better hold conferences on job analysis for accident prevention, accident analysis to determine the cause and responsibility, and the reporting on inspections.

Mr. Williams will work with the Bureau at other periods throughout the year.

What's Cooking

ABILENE CLUB MEETING: Thursday, 7:30 p. m. room 3-D MSC. Officers will be elected. COMMENTATOR STAFF, Monday, 7:30 p. m., 3a MSC.

FORT WORTH CLUB: Thursday, after yell practice, Room 107 new Science Hall. Will elect officers.

JOURNALISM CLUB: Thursday, after yell practice, Journalism building. Will discuss plans for the year.

Junior Auxiliary AVMA To Meet

An organizational meeting of officers of the Junior Auxiliary of The American Veterinary Medical Association will be held at 8 p. m. today at the home of Mrs. Harold Redmond in College Hills. Mrs. Redmond is sponsor for the group.
