

## New Building Construction Starts Soon

By ALLEN PENGELLY  
Battalion News Writer

Bids have been let and construction should begin the latter part of this month for five new college buildings, said W. D. Locke, chief clerk of the Physical Plant department.

Largest of the proposed buildings will be the Engineering Building, to be located adjacent to Francis Hall.

This structure, three floors high and costing approximately \$492,000, will house most of the Engineering Schools offices. Within the building will be ten classrooms, ten laboratories, 25 separate offices, five shops and two darkrooms.

### Structure Lengthened

Designed by Adams and Adams, Dallas architects, and to be built by the Fisher Construction Company of Houston, the building will be 285 feet long. When the original bid was let, the structure was to have been 213 feet in length but the addition of six more units accounted for the increased size.

A new Texas Engineer's Library building will be located directly behind and across the street from the Cushing Memorial Library. Herbert Voelcker, Houston architect who designed the new Administration Building, is architect and the Fisher Construction Company will build the structure. They expect to have it completed within 300 working days from the time construction begins.

At a cost of \$178,000, the two story plus a basement building will house all volumes of the library now located in the Mechanical Engineering Shops.

The architecture will be similar to the new Administration Building. It will be 90 feet long, fifty-five feet wide, and contain 14,000 square feet of usable floor space. It will be built of masonry tile and veneered with face brick and stone.

### Agronomy Laboratory

The R. B. Butler, Construction Company of Bryan will build a \$140,000 laboratory for the Department of Agronomy. It was estimated that it will take approximately 150 working days to complete. College Architect Arch C. Baker has no information concerning the building at this time.

The Physical Plant department also announced that a classroom and greenhouse will be built for the Horticulture department. The \$47,000 structure will take 100 working days to complete. It also

## A&S Council Sets Meeting Monday Night

Three talks arranged by the advisory committee of the School of Arts and Sciences will be heard at the regular fall meeting of the school's faculty Tuesday night at 7:30. The meeting will be held in the Biological Sciences Lecture Room.

In addition to the talks, new faculty and a subcommittee of the advisory committee will make a report.

The 10 minute talks will be given by Howard Berry, F. W. Hensel, and Bishop Clements.

Berry will speak on the Photographic and Visual Aids Laboratory. Hensel will discuss the Placement Office, and the College Information Office will be discussed by Clements.

## Newspaper Clinic Set for Feb. 23

The third annual Texas Newspaper Clinic will be held at A&M on Feb. 23, according to Prof. Donald D. Burchard, head of the Journalism Department.

"The meeting was moved to late winter to fit in more conveniently with business obligations of the weekly and small daily publishers," Burchard said. "Tentative plans call for a program similar to other years, with emphasis on practical help, including a mechanical conference."

Discussion topics and personnel of panel groups are being worked out through the Clinic advisory committee, set up this year. Representative publishers from the various sections of the state serve on this committee to help make it as valuable as possible to the newspaper men of Texas.

### Date Ducats Gone

## 1,000 TCU Tickets Left

Approximately 1,000 student tickets for the A&M-TCU football game Saturday afternoon in Fort Worth will be on sale today until they are gone, Howard Nelson, ticket sales manager, said late Wednesday afternoon.

All student guest tickets for the game are sold, Nelson said, and there is no possibility of receiving any more from Fort Worth.

Advanced ticket sales for A&M's first Southwest Conference football game of the year indicate a sell out crowd of approximately 34,000 will be on hand for the tilt.

## Red Chinese Drop Series of Key Hills

U. S. 8th Army Headquarters, Korea, Oct. 18.—(AP)—Chinese suddenly abandoned a series of key hills in Western Korea to attacking Americans today. But they stiffened against allies crumpling forward toward their Kumsong stronghold in the center.

Troops of the U. S. First Cavalry Division overran four hills northwest of Yonchon almost unopposed. The Americans had been fighting for the ridge line for two weeks in one of the bloodiest small actions of the entire United Nations autumn offensive. Chinese deserted the Western hills during the night after beating off a series of flame-throwing attacks Wednesday.

In the center of the Korean front allied troops ran into stiff fighting before capturing two key hills south and southwest of Kumsong.

American and South Korean troops advancing along a 22 mile front toward Kumsong were within three miles of the town.

In rugged mountains to the east allied infantrymen attacked a towering, craggy peak. Their morning assault was unsuccessful.

South Korean troops on the East coast beat off two brief Red counterattacks south of Kosong with the help of the U. S. Destroyer Waller.

The Navy reported the Battleship New Jersey, flagship of the Seventh Fleet, killed more than 500 Reds Wednesday while supporting allied troops. The battleship sent 150 tons of high explosives hurtling from its big guns against Red concentrations 18 miles inland.

### Red Guns Silenced

A belated naval report told of a brief battle Tuesday between Red shore guns at the East coast port of Wonsan and besieging warships. Before the Red artillery was silenced, six large caliber salvos straddled the U. S. Destroyer Stormes. The navy made no mention of damage to the destroyer.

Twenty-two B-29 superforts rained their big bomb loads on three Red air fields and two other North Korean targets Thursday. The air force said Red jets made no attempt to challenge them.

### Wounded Transported

A big C-124 Globemaster carried 165 wounded men of eight nationalities from Japan to Korea today. It was the largest number of wounded ever carried on a single flight. With the 35 crew members, nurses, and medical technicians the plane had a total of 200 aboard, another record for Korea-Japan flights.

The wounded were American, French, Belgian, Turkish, Canadian, British, Greek, Colombian and Puerto Rican.

The air force reported 1,040 sorties were flown Wednesday, "with fighters continuing a relentless campaign against main Red supply routes in northern Korea."

The Fifth Air Force sent Mustangs and marine corsairs on 110 flights in support of front line troops. They rocketed, fire-bombed and strafed the Reds.

## No Lights In Bizzell Hall

The Bizzell Hall regiment couldn't believe it. The world stopped for them—and at the same time passed them by. It seems that the electricity went off in the dormitory for one hour and a half.

One foreign student got up at "7 a.m." to go to his "8 a.m." class. From the Dormitory he went to the MSC for coffee—all of the clocks there said it was 9:30 a.m.

All of the men who "cut" their 8 and 9 a.m. classes were gathering in the halls saying "Wha hoppin'."

# A&M Cadet Corps Embarks On Fort Worth Trip Friday

By JOEL AUSTIN  
BATTALION MANAGING EDITOR

Corps trip number one for the 1951 football season is on tap for this weekend, and 4,600 members of the A&M cadet corps will embark for Fort Worth Friday for the bi-annual parade and grid contest with TCU.

It will be the big weekend for A&M's "sister school" TSCW also, as the Tesses get a holiday Saturday to join the Aggies in Fort Worth for the parade, football game, and other corps trip activities.

The cadet corps will parade down the streets of Fort Worth Saturday morning at 10 a. m. in its second public appearance of the year, and the first outside of College Station, the units will be reviewed and graded at a special reviewing stand set up in front of the Texas Hotel on Main Street.

Members of the Corps will meet to form the parade at 9 a. m. at the Texas and Pacific Railroad Reservation on Main Street which is adjacent to the Pittsburg Glass Company building.

## Marines Have Openings For More Officers

The Marine Corps recently announced immediate openings for 1,000 college graduates in its greatly expanded officer training program.

College graduates 20 to 27 years of age are sought to meet the increased requirements for junior officers caused by expansion of the Marine Corps, together with the release of Reservists to civilian life.

Selected applicants will receive 10 weeks of intensive training as officer candidates at Quantico, Va. Those successfully completing the course will be commissioned second lieutenants and will then receive an additional five months of specialized military schooling.

In Houston the Marine Corps office is located at 316, Federal Office Building, Franklin and Fannin Streets.

## Leland Returns From Atlantic City Meet

Dr. T. W. Leland, head of the business administration department, has returned from a meeting of the American Institute of Accountants which he attended in Atlantic City, N. J.

Parade Commences At 10

The parade will commence and move down Main Street promptly at 10 a. m.

Passing the Texas Hotel on Main, the line of march will turn west on block north of the reviewing stand and then turn back again north on Houston Street to the Court House where it will turn east and advance to the dismissal area at Grove Street.

Color bearers and members of the Maroon and White and Freshman bands will fall out beside the court house where vans will be waiting for them to load their instruments and equipment.

On the entertainment side, in addition to the football game Saturday afternoon at 2 p. m. in Amon Carter Stadium, two sets of activities will be provided. Probably receiving the largest attendance of A&M students will be the program planned on the TSCW campus. An all-college dance in the Union Building from 9-12 p. m. will be held there Friday night.

Informal Dance at TCU

At TCU Friday, a small, informal dance will be held on their campus for Aggies as well as TCU students. Saturday night Russ Morgan and his orchestra will play for a dance at Lake Worth Casino. A&M students were cordially invited to attend both events by Dick Ramsey, president of the TCU Student Association.

Half-time activities at the football game will feature a salute to TCU and TSCW, and the presentation of Aggie Sweetheart Wanda Harris by Cadet Colonel of the Corps Eric Carlson. Carlson will present Miss Harris with a bouquet of flowers and the traditional kiss from the corps commander.

Housing facilities for A&M students staying on the TSCW campus Friday night are capable of taking care of the anticipated number of students from here who wish to stay there. A rough count in the corps area last night indicated 375 Aggies wanted rooms in the special dormitories opened for guests. These facilities can house 400 visitors.

Special Buses

One hundred seventy-five Aggies also indicated they wished to ride in special buses from Denton to Fort Worth Saturday morning.

In the reviewing stand Saturday morning in front of the Texas Hotel will be officials from A&M, TSCW, and TCU, as well as city leaders of Fort Worth. Military personnel from A&M and the Fourth Army headquarters have also indicated they will be present for the review.

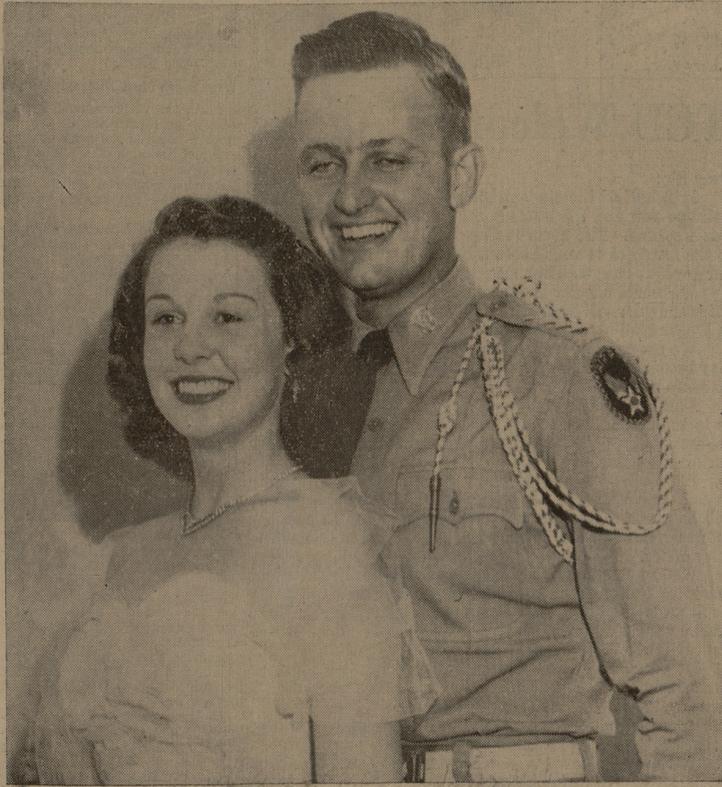

Sweetheart Wanda Harris will (See CORPS, Page 3)

A&S Committee Advisors Meet

Election of officers and consideration of possible projects will highlight the year's first meeting of the Arts and Sciences Council Monday night at 7:30. The meeting will be held in the Senate Chamber of the MSC.

Officers to be elected are president, vice president, and secretary-treasurer.

Departmental clubs within the School of Arts and Sciences will elect junior representatives to the council, Dr. J. P. Abbott, dean of the school, said.

Wanda Harris

Eric Carlson

## Russ Morgan Show Featured After Baylor Game Oct. 27

By WILLIAM DICKENS  
Battalion Feature Editor

Russ Morgan and his "Music in the Morgan Manner" will highlight the weekend activities of the Baylor-A&M game, when the nationally-known orchestra leader will give a concert in Guion Hall and play for a dance in Sbisia on Oct. 27.

Following the Saturday afternoon game, the Russ Morgan Orchestra will then move to Sbisia Hall to play for an all-college dance from 9 to 12.

Tickets to the two events, which are now on sale in the Office of Student Activities, are 70 cents for all seats to the concert and \$2.50, stag or drag, for the dance.

Included in the "Music in the Morgan Manner" theme, the evening concert will feature individual performers, such as "Manon," "The Morganaires," Al Jennings, Eduardo Aguilar, a Spanish cancionero; the "Satin String Sextette"; and the "Pete Fything, known as the "Puppet Trumpeter."

Born in the coal fields of Pennsylvania, Morgan's rise to stardom first took shape when he saved enough money to buy a trombone when he was 12 years old. As a side line to being a coal miner, he began playing the piano in a movie house when he was 14.

For four years he studied musical instruments as much as he could, and when he had mastered the piano, trombone, vibraphone, celeste, marimba, and organ, he left the coal mines to arrange music for John Sousa and Victor Herbert in Philadelphia.

Desiring to play the trombone, Morgan went abroad on a successful musical tour. Upon his return to the states, he arranged and directed the Goldkette Swing Band, which consisted of such well-known stars as Tommy and Jimmy Dorsey, Joe Venuti, and Fuzzy Fesser.

While directing and arranging the swing band, he was also arranging the music for the Detroit Symphony Orchestra of 102 pieces. Continuing his musical career, Morgan began to feature his own songs when arranging music and playing for the George White Scandals, the Cotton Club, Biltmore Hotel Phillip Morris programs, and the Capitol Theater.

His talent as a composer has been shown in some of the nation's hit tunes, such as "So Tired," "Someday Else Is Taking My Place," "So Long," and "You're Nobody Till Somebody Loves You."

As a recording artist, Morgan's songs sold over 10 million records from 1949 to 1950. Such songs as "Forever and Ever,"

"Bye Bye Blackbird," and "So Tired" sold over a million records last year.

"Bye Bye Blackbird," and "So Tired" sold over a million records last year.

## Texas Engineers Meet Here Today

This afternoon mechanical engineers from all over the state will meet on the campus when the South Texas Section of the American Society of Mechanical Engineers hold their monthly meeting.

Scheduled to start at 4:30 p.m. the engineers will register and then student members of the association will take them to a tour of the engineering facilities of the campus.

The meat of the meeting will be in technical session to be held after the banquet in the Assembly Hall. Members will meet in small groups and hold an informal forum, led by an outstanding engineer in various phases of mechanical engineering.

Prof. H. G. Rylander of the University of Texas will lead a discussion on the effects of solid inclusions in the oil supply to sleeve bearings. In the same meeting, R. C. Brooks, of Cameron Iron Works in Houston will talk on the mechanical development of the "Cameron Lift-Plug Valve."

Members of the ASME who are interested in the process industries will hear Bert N. Haas, assistant engineering manager of the Texas Division of Dow Chemical Co. talk on "A View of Process Industries Problems."

Charles F. Lewis, metallurgical engineer of Cook Heat Treating Company of Houston will talk on "Hardensability, a Basic Tool."

Formal discussion will be conducted by Lloyd G. Beryman, A&M's ME department.

The meeting is open to the public, Charles E. Jones, professor Mechanical Engineering Department, announced. Ten students from Rice, Texas University and A&M has been invited. The student members of the ASME who are interested in the process industries will hear Bert N. Haas, assistant engineering manager of the Texas Division of Dow Chemical Co. talk on "A View of Process Industries Problems."

The Army ROTC team won the Fourth Army match, but was unable to compete in the national competition because of a lack of personnel at the time.

The varsity team, composed of both Army and Air Force cadets, will fire their first match of the year here against Baylor the morning of the Baylor-A&M game Oct. 27.

## AF Rifle Team Receives Medals for National Meet

Members of the Air Force rifle team were presented medals Tuesday by Col. E. W. Napier, PAS&T, for placing sixth in the National ROTC Intercollegiate Rifle Match last March.

James A. Blackaller, Douglas W. Benson, Earl W. Bryant, Russel G. Durrill, Bob N. Dobbins, Lester Owen Hill, John G. Rowe, and Guy W. Shown are members of the team.

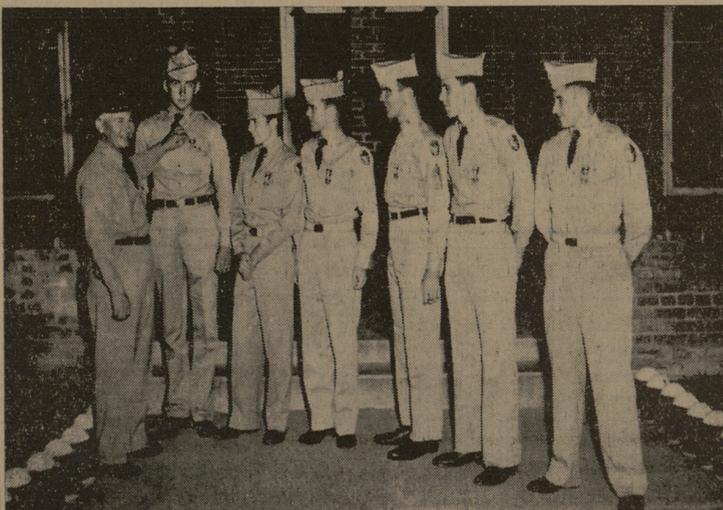

Medals were awarded to members of the ten highest scoring teams in the match, which included all eligible teams from ROTC units of the Army, Navy, Marine Corps, and Air Force, a total of 36 entries.

A&M's squad was eligible to compete because of winning first place in the 14 Air Force match, held here last year.

All but three members of last year's Air Force team are back this term.

The Army ROTC team won the Fourth Army match, but was unable to compete in the national competition because of a lack of personnel at the time.
