Participants in the Boy Scout program in the Bryan-College Station community will have doubled by Jan. 1 if present goals are achieved.

On Jan. 1, 1948 there were 408 participants, including C u b s, Scouts, Explorers and adult Scouters, according to statistics compiled by District Chairman Dr. H. W. Barlow. A year later this number had increased to 486. It climbed to 660 in 1950, to 656 in 1951, and by January is expected to reach 838.

The total number of troop and den units has shown a similar increase, climbing from 15 in 1948 to an expected 31 at the close of the year.

"The dollar cost per boy is very low, and will even lower as the number as the low, and will even lower as the number of individuals increase,"
Barlow pointed out. "In 1948, with 408 participants, the cost for the year as \$22 for each boy. Last year this had dropped to \$16.70, and is expected to be only \$12.00 for 1952.

This low per capita cost is possible because bulk of the work is carried on by volunteer adult Scouters. Currently there are 243 adults spending some part of their time every month without compensation, and frequently at some personal expense, in order to render a service to the community Chest contributes to the work on a sustaining membership basis, paying a minimum of \$12 per year. Officers are to be elected, regular games scheduled, and arrangements for possible intercollegiate matches are to be discussed at the meeting, Wood said.

"We had twelve at our first meeting and we want to extend an invitation to all interested students, faculty members, and persons in the college community," said Dr. Barlow. "There seems to be no question of the importance of the work or the validity of the amount asked of the Community Chest."
