Amazing Meeting

AST NIGHT the class of 1952 continued the policy it be-

gan at its first meeting of the year.

That policy is essentially this—Seniors realize the necessity of getting somthing done which will be both profitable to the class and to the student bodies of A&M in future years. ing the team's 12th Man is dead. Willfully murdered by the Senate. The lethal weapon used was the new seating arrangement, whereby every member of the student body (comprist to the class and to the student bodies of A&M in future years. ing the team's 12th Man is dead. Willfully murdered by the Senate. The lethal murdered by the Senate is a senate when the senate when the senate is a senate when the Whether these policies bear fruit is something only time will regated according to whether he is tell; however it is a step in the right direction.

Officers of the class, such as the class president and Officers of the class, such as the class president and members of the various committees, especially the Traditions senior or junior going to any foot-committee, deserve a great deal of praise for their efforts. ball game would necessarly feel many people are only now beginnig to realize the difficult from their friends, who are corps

task facing these groups.

But, no one person or group is responsible for the excellent work of the class. Little could have been accomplished without cooperation from the class as a whole.

I have heard it said that, "the Corps is A&M," I beg to disagree. As a foreign student, I feel that I am as much of an Aggie as any member of the Cadet Corps. This remainder of the year, they will undoubtedly leave their mark the feeling quoted above. remainder of the year, they will undoubtedly leave their mark in the pages of A&M's history.

In yesterday's editorial concerning the Senior Class Tradition
Tradition
It seems that nugget waving is being encouraged in the non-regs the editor, made several assertions which we don't think can be proved.

The main gripe which we have is concerning the wearing of senior tunate enough to be a member of the corresponding to the cor

in this opinion?" Certainly not a representative number of the corps was asked this question and we don't believe anyone who has spent three years at A&M, one of them at the Annex, would make a remark, even joking. As we see it, only someone who didn't care to uphold practically the oldest tradition of A&M or someone who transferred from another college could have made a retargent of the corps was a smed through that we who have been in the corps was a deserving of our class privileges as any cadet. When we first entered A&M we were told that it was our class which determined our privileges. When we first entered A&M we were told that it was our class our scholastic marks. The lack of a contract or a senior ring a senior ring in the corps was a saked this question and we don't believe anyone who has spent three years at A&M, one of them at the Annex, would make a remark, even joking. As we see it, only someone who didn't care to uphold practically the oldest tradition of A&M or someone who transferred from another college.

J. W. Trouddle Jr. 73 transferred from another college could have made such a statement.

We aren't criticising the trans-We aren't criticising the transfer students for coming here, we simply feel that there should be some distinction between four year A&M students and the two semester A&M students. We think that if a poll were taken among the transfers alone, a majority, left to vote using their sense of right and wrong as a guide, would say, "no, we aren't really qualified to wear the senior boots."

Ambiguous term number two: "The men qualified to wear senior boots." Just exactly what does the word "qualified" mean? We know what the College Regulations read. However, who established the qualifications for the College Regulations Book? Was a poll taken to determine this? Was an impartial Since when do freshmen

As a foreign student, I feel that I am as much of an Aggie as any member of the Cadet Corps. This seating plan, however, emphasizes the feeling quoted above.

I suggest that section of the seats be assigned where all AG-GIES holding ID cards be admitted whether they are in uniform or not.

(Editor's note—We think you job of representing us. If there's going to be new laws governing the student body, lets all make the student body, lets all make for you to consider. Naturally every old army man knows a transfer student isn't as good as a regular student. They didn't have the trials and tribulations of the and are doing a very poor job of representing us. If there's going to be new laws governing the student body, lets all make them fair.

Does the Student Senate think that we (non-regs) are going to watch field goals while our classmates are watching the football game?

We go to yell practices, we attrials and tribulations of the annex while they were a freshman—so we would like to make this suggestion. All transfer students who are classified seniors should wear are active in Student activates. We've been in the corps Mazen Abdel-Hagi are classified seniors should wear boots the color of the school they transfer from. That way they will be branded and at the same time they will have their boots.)

You, after presenting excerpts from one of his congression speeches, label him "completely unfit" for his position and then proclaim that he is in office because "you and I and the Jones down the street are too lazy and indifferent to get out and exercise our rights at the polls." Exactly how then did he get into office? I have always been under the impression that Congressmen in Mississippi as in the other states, are elected by the people in the districts they
