## Road to Hell

THE ROAD to hell is paved with good intentions. This old saying is true of the residents of College Station. They all say they are going to put up mailboxes and street numbers ... tomorrow for sure.

In a large number of the cases, too large a percentage, this statement is just so much hot air. The people are just a little too lazy to make the supreme effort needed to go down to the five and dime and spend 59 cents for numbers

Certainly it takes a lot of effort to go into town to one of the variety stores and tell the clerk what numbers are needed and what size a mail box will do. Then it takes a lot more energy to take a hammer and nails and tack the num-

might well rot or rust off the house before the other citizens of the city go down and do their bit.

But remember oh expounders of good intentions, the people of this area voted to have home mail delivery in the face of having to put up numbers and mail boxes. ## More Shacks

THE FOLLOWING editorial appeared in The Daily Texan ers. A special three-judge federal Sunday. While it was written for the school under the court panel is expected soon to capitol dome, it also applies here.

Shacks, Shacks, Shacks.

Everywhere you go on the campus—shacks.

It would seem that, with decreased enrollment and many new buildings, the University (in this case A&M) could do without some-possibly all, in time-of the unsightly, inharmonious wooden buildings that were con- August, and September period are: on congressional committees. structed to meet post war emergency demands.

So far none of the emergency classroom buildings have been torn down, and the University administration (and A&M) have not indicated a desire to begin demolishing them in the near future.

Like B Hall (In A&M's case buildings A through K) they are destined to become timeless.

Quite unlike the handling of B. Hall, these shacks should be abolished when they outlive their usefulness. • Perhaps the time has come to improve the appear-

ance of the campus by removing the least useful shacks. Again we at A&M can say-me too! However we have Chamber of Commerce, \$1,500 from tled terrain to place his men in
