Interest Growing Uhlmann Contest

Although the deadline for submission of manuscripts is still months away, much interest has been shown by the U. S. students in the Third Annual Uhlmann Awards Student Contest for 1952.

Substantial awards are offered each year to the winning contestants who have submitted original manuscripts dealing with marketing phases of the grain business.

Three years ago, Richard Uhlmann, then President of the Chicago Board of Trade, initiated this contest to develop and stimulate among college students a broader interest in the marketing problems of the grain business.

Texas Ranks Nation's Second In Non-Military Aircraft

By ASSOCIATED PRESS

Washington, Dec. 4.—AP—Air-minded Texans rank second only to Californians in the matter of maintaining non-military aircraft in active operating status.

A recent report issued by the Civil Aeronautics Administration shows that as of July 1 there were 4,230 such planes active in Texas. As of July 1, California led all states with 6,496; Illinois was third with 3,168.

Below July 1950

In all three leading states the number was slightly below the figures for July 1, 1950. In this respect, they followed the national pattern. The total number of active civil aircraft in the United States was 56,915 on July 1, compared with 61,706 a year earlier.

The July 1, 1950, figures for the top three states were: California, 6,820; Texas, 4,438; Illinois, 3,489. In addition to the 4,230 civil aircraft active in Texas as of last July 1, there were 2,384 such planes within the state classified as non-active, making the total 6,614. The total a year earlier was 6,913.

One or More Active

One or more planes were active in all but 36 of the 254 Texas counties when the survey was taken in mid-1951. Those with no active planes were:

- Andrews, Austin, Burleson, Camp, Coke, Cottle, Franklin, Glasscock, Goliad, Hardin, Irion, Jim Hogg, Kenedy, King, Live Oak, Llano, Loving, McMullen, Madison, Mills, Mitchell, Newton, Rains, Real, Roberts, Rockwall, San Augustine, San Jacinto, Starr, Sterling, Stone, Trinity, Tyler, Upshur, Wilson, Zapata.

Dallas County led the state with 511 active and an additional 337 classified as non-active.

WHITE CROSSES REPLACED

Honolulu.—AP—The long rows of wooden crosses marking the graves of 13,000 World War II and Korean war dead are being removed from Punchbowl Cemetery. Flat stone markers are replacing the white crosses.

Worth) counties actually showed increases in the number of planes active July 1 as compared with twelve months earlier. On July 1, 1950, Dallas had only 494 active planes and 336 non-active. Tarrant county had 291 active civil aircraft and 156 non-active on July 1, 1950. A few counties among those less than 100 active planes also showed increases.

100 Civil Planes Active

Four other Texas counties each had more than 100 civil planes active as of last July 1. The four, with the comparative figure for July 1, 1950, shown in parenthesis, are: Harris (Houston), 384 (406); Bexar (San Antonio), 282 (295);

Cameron (Brownsville), 111 (122); Nueces (Corpus Christi), 107 (121).

Those counties with between 50 and 100 active civil aircraft within their boundaries as of July 1, with 1950 comparable figures shown in parenthesis, are:

- Hidalgo, 97 (89); Wichita, 93 (96); Lubbock, 84 (64); El Paso, 76 (77); Jefferson, 76 (79); Travis, 70 (71); Potter, 67 (67); Hale, 60 (59); San Patricio, 52 (40); Gregg, 52 (57).
